The CAWV Safety Award program recognizes Contractor Members for their safety excellence. It is an ongoing effort of the association’s Safety Committee to improve safety in the industry. The Safety Questionnaire is designed to spark internal evaluation of each company’s documented procedures, with the ultimate goal of improving industry safety. Should this process reveal a deficiency in your program, the Safety Committee has pledged to assist individual companies with improvement efforts.

Completed questionnaires are evaluated and scored according to company size and construction type. Additionally, the CAWV provides an opportunity for contractor members to compete for nationally recognized awards with the Associated General Contractors (AGC) of America.

**Please Read All Instructions and Questions Carefully**

Company Name: _______________________________________________________

Person completing Questionnaire: _______________________________________

Phone number/email: _________________________________________________

**Contractor Category (circle only your primary category)** If your company is applying for a safety award in more than one category, make a copy of this Questionnaire and submit separately.

Highway - Building - Utility - Industrial

Submit the 2019 OSHA Summary 300A Log totals for your company by attaching copies to this Questionnaire.

Total Manhours Worked **in WV** ________________

Total Loss Workday Injuries **in WV** ________________

Total Cases **in WV** _______ Total Days Lost **in WV** _______

The CAWV Safety Awards program has been designed to not only reward excellence in safety at the company level, but to also focus on the employees who make it possible.

As we acknowledge each winning company’s safety achievement, we want to help you give your employees the pat on the back that they deserve. It is, after all, their daily focus on working safely that earns the company’s safety record.
