Newsletter 2012-17

April 27, 2012

REGISTER NOW FOR CAWV AFTERHOURS, THURSDAY, MAY 10

Over 100 CAWV members are attending the business afterhours reception being held on Thursday, May 10, at the Mardi Gras Casino and Resort, Nitro. “One of the wonderful services provided by the CAWV is their ability to join members together for networking and fun,” said association President Gene Thompson. This informal event will include a reception with heavy hors d’oeuvres and a view of the dog races. Members can check out the improvements in the casino and try their luck at the gaming tables or machines. “We want members to come and enjoy being with their fellow CAWV members,” the president stated.

The Afterhours reception costs \$35 and begins at 6:00 p.m. in the Big Easy Lounge. A registration form is [available here](#). Anyone needing a room at the Mardi Gras Casino & Resort Hotel should contact Wendy Long at (304) 342-1166 or long@cawv.org. For members who register by Monday, April 30, Mardi Gras Casino is offering additional match play and a drink coupon that can be used after the CAWV reception ends.

A very special thanks to our sponsors:

BB&T Carson Insurance Services
Boxley
BrickStreet Insurance
Daniels Law Firm
Ferguson Water Works
Kokosing Construction Company
Martin Engineering
Mt. State Insurance Agency
Rish Equipment Company
Rudd Equipment Company
Shamblin Stone Company
West Virginia Paving Company

CAWV members who would like to help sponsor the May 10 CAWV Afterhours should contact Wendy Long at (304) 342-1166 or long@cawv.org. In addition to the names printed on signage and flyers, all sponsors will be listed in an upcoming issue of *West Virginia Construction News* magazine. Sponsorships are \$125.

EARLY VOTING HAS BEGUN

Early voting for the May 8 West Virginia Primary Election started and runs until May 5. Early voting is available at county courthouses throughout West Virginia. Visit www.sos.wv.gov to receive information about early voting from the West Virginia Secretary of State’s Office. Members have been sent a list of candidates supported by the CAWV. Anyone needing a copy can contact Mike Clowser at (304) 342-1166 or mclowser@cawv.org.

CAWV SCHOLARSHIP GOLF OUTING FRIDAY, JUNE 1, SANDY BRAE GOLF CLUB

The annual CAWV Golf Outing will be held Friday, June 1, at Sandy Brae Golf Club in Clendenin. "Over 300 CAWV members and guests played in last year's event, which sold out very early," said Golf Chairman Bob Brookover. "Due to the tremendous number of golfers in recent years, we are limited to 20 "Sixsomes" for both the 7:30 a.m. and 1:30 p.m. starting times." For morning golfers, a luncheon will be held immediately after play. For the afternoon golfers, dinner will be held immediately after play. Awards will be presented at the luncheon for the morning flight and at dinner for the afternoon flight. All proceeds from the Golf Outing benefit the CAWV Scholarship Foundation. Members are encouraged to fill out the attached reservation form and return it to the CAWV office as soon as possible. To hold reservations, a check must accompany the form. Reservation forms, which are attached to this week's Newsletter and available at www.cawv.org, are due by May 18. For more information, contact Wendy Long at (304) 342-1166 or email at long@cawv.org.

THREE CAWV MEMBERS RECEIVE NATIONAL SAFETY RECOGNITION

The CAWV would like to congratulate A.L.L. Construction, Inc., Mt. Storm, Snyder Environmental Services, Inc., Kearneysville, and Tri-State Roofing and Sheet Metal, Charleston, for winning Certificates of Commendation from the 2011 National Associated General Contractors Safety Awards Program (NASA). This year over 2,000 general contractors and speciality contractors participated in the program which enables contractors to be recognized for a quality safety record as well as comparing individual contractors against national averages for members of similar size and type. The three winners achieved a zero incident rate or an incident rate 25% below their division's average. Each January the CAWV Safety Committee distributes the CAWV and AGC safety questionnaire to contractor and associate members. For more information on the CAWV or the NASA safety awards program, contact Pat McDonald at pmcdonald@cawv.org or (304) 342-1166.

CAWV CONGRESSIONAL FLY-IN SCHEDULED FOR MAY 31

The 24th annual CAWV Congressional Fly-In will be held Thursday, May 31. President Gene Thompson will lead a CAWV-member delegation to Washington, D. C. to meet with West Virginia's congressional delegation on issues critical to the construction industry. "It is important that our senators and representatives see us in their offices, meeting with them face-to-face, to discuss the issues that are important to our members," said President Thompson. This year's Fly-In will be held in conjunction with the Transportation Construction Coalition (TCC) which will include hundreds of industry people who will urge Congress to complete action on a long-term transportation bill. AGC of America and ARTBA are co-chairs of TCC.

Participants can fly to Washington on USAir out of Yeager Airport on Thursday morning and return that evening, or drive and meet the delegation in Washington. Members who have attended in the past received information on this year's Fly-In. Any member wishing to attend this year's event should contact Mike Clowser at (304) 342-1166 or mclowser@cawv.org.

STOLEN EQUIPMENT ALERT

The CAWV is able to activate our extensive communication database to assist members trying to locate stolen equipment, aiding in recovery. Should you experience a theft, contact Wendy Long at (304) 342-1166 or long@kawv.org to activate the CAWV's network.

This week a 1997 John Deere 410D 4x4 Rubber Tired Backhoe S/N 820296, equipped with a 91" general purpose bucket on the front and a 24" hoe bucket on the rear, was stolen from Route 127 in Hampshire County. The rear stick is an extend-a-hoe. The front tires are 12-16.5 and the rear tires are 21Lx24. The hour meter has over 7,200 hours on it. It is also equipped with an EROPS. It is in good condition and appearance. It is further identified with two Belt Paving Inc. decals on each side of the machine along with an internal asset number #10-115. The equipment was staged on WV RT 127 in Hampshire County approximately 2 ½ miles from the Virginia Line. It was last seen on Monday. If you have information please contact the West Virginia State Police Romney detachment at (304) 822-3561 or Randy Cirillo, Vice President/Manager, Belt Paving Inc., (301) 729-8994 or rcirillo@thebeltgroup.com.

AGC RELEASES NEWLY UPDATED WEST VIRGINIA FACT SHEET

The Associated General Contractors of America (AGC) compiles data on the role of construction in the economy and employment in the United States. Each state is independently profiled. The AGC has recently updated fact sheets profiling each state and Metro Statistical Area. Key findings include:

- Construction employment in West Virginia in February totaled 34,400, an increase of 6.5% from February 2011 and a decrease of 15% from the state's peak in December 2006.
- Construction workers pay in West Virginia averaged \$47,255, 28% more than all private sector employees in the state.
- West Virginia had 3,800 construction firms in 2009, of which 93% were small (<20 employees).

[Click here](#) to view AGC's state and metro construction information.

CAWV MEMBERS ARE HARD AT WORK

CAWV members are encouraged to use the association's logos in their publications, on jobsite signs and banners, on letterhead, business cards and websites. The Hard at Work logo is available to all members, as is the CAWV logo (seen in the Newsletter header). AGC and ARTBA logos are also available for use. The association works with a local printer to have signs and banners made for interested members. An order form is [available here](#). For additional information on participating in the Hard at Work program, or to request digital images, contact Lindsay Stephens at (304) 342-1166 or lstephens@kawv.org.

2012 CAWV GOLF OUTING
 REGISTRATION FORM
 FRIDAY, JUNE 1ST
 SANDY BRAE GOLF CLUB

April 27, 2012

IN CASE OF TROUBLE

The moments after an accident are stressful. Will your jobsite staff know what to do?

No doubt, most people would rather talk about accident prevention and zero tolerance for safety risks, than consider the idea of preparing for an accident. But, no safety program is complete without a post accident response plan. Simply dialing 911 is not enough. Here are some ideas that will help you put together an accident response plan:

1. Take a detailed look at where you are placing your workers every day. Ask yourself these questions. If any worker has a medical problem, for example a heart attack, can they be reached by rescue personnel quickly? And if so, is there enough room to perform the necessary medical first aid where they are, or would the worker need to be removed from the his/her work area to be treated?
2. Not all rescue or medical treatment for workers is a result of some construction or industrial accident. Planning for medical emergencies outside the scope of an actual accident on your jobsites will go a long way toward helping be prepared for an accident related injury.
3. Be prepared with the necessary equipment and employee training, to get to a worker, respond to the medical needs, if there are any, and perform a rescue of the worker from the accident scene, if there is one. Simply think ahead. Take that detailed look at the job being performed and ask yourself, what will we need to do to rescue, treat and evacuate workers from where they are, if an emergency arises?
4. Use safety meetings to instruct all employees how you want them to perform. If you have people working in trenches, instruct equipment operators how you want them to respond, instruct supervisors what emergency personnel you will need to respond. You may have personnel in a multitude of potentially dangerous work places at the same time. Give thought to how you will respond to an Ironworker 100 ft in the air, on a steel beam, bolting up a connection. Do you have a man basket or personnel cage ready and rigged up to put on the hook of a crane to get to them? Do you have crane that will reach them? Have you talked with the crane operator(s) to give them instruction on what to do in an emergency?
5. Have you contacted the local first responders, invited them to your jobsite and given them an outline of the work you will be performing? If not, do so. Fire and rescue folks love being given the chance to look over the place and having a plan to help you if they are needed. They also bring some invaluable ideas and workable solutions to you to help you put together your post accident response plan.

Contact the CAWV at (304) 342-1166 for more help with your safety program.

TRANSPORTATION REAUTHORIZATION NEGOTIATORS NAMED - SEN. ROCKEFELLER, REP. RAHALL AND REP. CAPITO ALL ON CONFERENCE COMMITTEE

The U.S. Senate and House of Representatives have taken the next step toward surface transportation reauthorization by naming conferees. Senator Jay Rockefeller will join seven Democrats and six Republicans to represent the Senate. Reps. Nick Rahall and Shelley Moore Capito have been selected as part of the 33 member House team. The two groups will work together to negotiate a final surface transportation bill. Each chambers' conferees must approve, by majority vote, a final version of the bill. The House and Senate will be in recess until May 7. The group is expected to begin meeting in mid-May.

Rep. David McKinley was successful in inserting an amendment to the House version his bill that would prevent federal regulators from labeling coal ash as hazardous waste. A stand alone bill passed the House but died in the Senate. West Virginia's delegation have supported the bill but this week, Sen. Jay Rockefeller told Politico that he had an "evolution" on the issue and the coal ash provision was "going down." Rep. McKinley argues that coal ash, which is used as a filler material, could cost billions of dollars and tens of thousands of jobs if EPA declares the ash "hazardous." Sen. Rockefeller said adding the coal ash provision would bog down the transportation bill. To see the full article on Friday's *Charleston Daily Mail*, [click here](#).

AGC and ARTBA will be working closely with House and Senate conferees to get a quick resolution on a final product that maintains current funding levels.

BRIDGE DECK OVERLAY, WV TURNPIKE

(iSqFt Project ID# 1552844) Bids will be accepted until 3:00 PM on 5/1/2012 for applying a protective bridge deck overlay on four bridges (66,900 SF) on the WV Turnpike in Raleigh and Fayette counties.
