SPACE FOR FIVE MORE ATTENDEES FOR THE CAWV & BRICKSTREET OSHA 10 HOUR COURSE HAS JUST ADDED

The second CAWV / BrickStreet Insurance OSHA 10-Hour course for association members that participate in the CAWV / BrickStreet Workers Compensation program has just added space for five additional attendees. The training will be held at the Holiday Inn and Suites in South Charleston on September 11 from 8:00 a.m. to 5:00 p.m. and on September 12 from 8:00 a.m. to 12:00 p.m. The cost is \$60.00 per attendee and includes continental breakfast both days and lunch on the first day. Please contact Pat McDonald immediately at 304-342-1166 to register for the remaining space in the course.

Senate Bill 376 was passed into law during the 2014 legislative session and went effect on July 1, 2014. It requires all construction workers on a publicly financed project over \$50,000 to complete the OSHA 10-Hour Course. CAWV members also have access to the online training site 'ClickSafety' which offers an OSHA approved 10-Hour training class online for \$80.00. Members can take the class over several days by logging into their account and continuing the class from the point they stopped. Also the CAWV will be adding additional OSHA 10-Hour training courses so students that get left out of this class will be notified and placed into the next class.

The CAWV will be scheduling additional OSHA 10- Hour courses that will be open to all members of the association. Members that have employees that needs the OSHA 10-Hour course are encouraged to contact Pat McDonald at pmcdonald@cawv.org or at (304)342-1166 to be put on the attendee list for the next course.

MIDYEAR MEETING MATERIALS TO BE MAILED MONDAY, SEPTEMBER 8TH

Watch your inbox for the all exciting details of the 2015 CAWV Midyear Meeting coming Monday, September 8th. Fiesta Americana Grand Los Cabos Golf & Spa Resort is the site of the CAWV Midyear Meeting, January 29 - February 4, 2015. Located near the southern tip of beautiful Baja California, the resort features rooms with private balconies overlooking the hotel's private beach and the Sea of Cortes. Fiesta Americana is ranked #9 on Golf Digest Magazine's list of the "Top 50 Golf Hotels in the World." The area is famous for a wide range of water activities, including deep-sea fishing, scuba diving, whale watching, ATV tours through the desert and many art and shopping activities. This is the site of the highly successful 2011 CAWV Midyear Meeting.

Mark your calendars now for the event. The CAWV Program Committee will meet to put together an exciting list of meeting and recreational activities. Members will be receiving information on the meeting, along with transportation options. To view the fantastic Fiesta Americana Resort [click here](#).

TAKE ACTION: TELL CONGRESS TO HALT EPA AND THE CORPS' OVERREACHING CLEAN WATER ACT REGULATION

Next week, the U.S. House is expected to vote on H.R. 5078, the Waters of the United States Regulatory Overreach Protection Act. This bill would halt the U.S. Environmental Protection Agency (EPA) and U.S. Army Corps of Engineers' (Corps) proposed rulemaking that redefines "waters of the U.S." under the Clean Water Act (CWA) by preventing the agencies from developing guidance or interpretative rules based on it. The bill also requires the agencies to engage in a federalism consultation with state and local governments to form recommendations for a consensus regulatory proposal. [Tell your Representative](#) to vote in support of this important legislation.

The EPA and Corps rule expansively defines waters – claiming traditionally navigable waters, tributaries (including ditches), impoundments, adjacent waters (including waters in the floodplain or riparian areas), and "other waters" all as federally jurisdictional. More projects will have to obtain Section 404 permits, increasing the time and cost of performing construction services.

In addition to the Section 404 impacts, many other federal permits will be required. Under the proposal, many other parts of the CWA are affected by the definition of "waters of the U.S.," such as Section 311 Oil Spill Prevention Control and Countermeasures or Section 402 National Pollutant Discharge Elimination System (NPDES) discharge permits, which are triggered by many types of construction activities across the nation and will therefore have a direct and significant impact on construction operations.

EPA also chose to not wait for a final peer review of their Connectivity Report, touted as the basis of the proposed rule, by the EPA's own Science Advisory Board. The economic analysis that EPA has undertaken seriously underestimates impacted acreage and also completely ignores impacts to non-404 programs. Recognizing that state and local governments are currently managing water resources that are not under federal control, it is unclear why the agencies rushed through these important procedural steps designed to ensure that construction companies are protected. These state and local governments were also not consulted prior to the rulemaking. *Reprinted from AGC's September 4 Construction Legislative Week in Review.*

CAWV TO EXHIBIT AT OIL AND GAS EXPO

The CAWV will be exhibiting at the Oil and Gas Expo at Mylan Park in Morgantown on October 1, 9:00 a.m. to 5:00 p.m. The Expo is a business to business event that gives vendors and visitors a chance to speak face-to-face with business owners and industry leaders in the oil and natural gas industry. Any CAWV member that would like to volunteer to work with CAWV staff at the booth should contact Pat McDonald at (304)342-1166 or pmcdonald@cawv.org. A complete exhibitor list and show registration information can be found at www.wvoilandgasexpo.com.

EMPLOYERS ADVISED OF POTENTIAL SCAM

WorkForce West Virginia is alerting employers in West Virginia to a potential scam from individuals purporting to be from the agency and asking for financial data. On Thursday, September 4, someone who claimed to be an employee of WorkForce West Virginia contacted an employer by email asking for cancelled checks for unemployment tax contributions. The email was sent from a personal email address and did not come from a WorkForce West Virginia employee. Electronic correspondence from WorkForce West Virginia is sent only from wv.gov addresses. Any employer who receives a suspicious email is asked to contact WorkForce West Virginia at 1-800-252-5627 or via email at uctaxunit@wv.gov. The potential scam has been referred to the state Attorney General's office.

WV DESIGN BUILD BOARD APPROVES PUBLIC SERVICE COMMISSION BUILDING FIX AS DESIGN-BUILD PROJECT

The WV Design-Build Board has given approval to the WV Public Service Commission to use the design-build method of construction to fix the serious problems with the brick exterior of their Charleston headquarters. Much of the 30-year-old building's brick façade has fallen, or could fall at any time. A separate contract last year removed much of the brick and it was discovered the required enforcement to secure the brick of cast stone to the building was often missing completely or inadequately spaced, according to a May 2013 report on the building. Repairing the existing brick was not seen as an option. Instead, the report says all brick covering the three-story building should be removed or the brick from the top two floors should be removed and replaced with a glass wall. More details when the requests for qualifications are released.

THE GREENBRIER TO BUILD TENNIS STADIUM

The Greenbrier resort is building a 2,500-seat tennis stadium which, in 2015, will become the home for The Greenbrier Champions Tennis Classic, the resort's showcase of retired tennis legends. The new stadium, dubbed Center Court at Creekside, will feature a U-shaped design, with the open side facing Howard's Creek and offering views of the resort's marquee Old White golf course. The resort has already broken ground on the arena and expects to complete it by June of next year. The 46,000-square foot facility was designed by Detroit-based ROSSETTI architects, a news release from the resort said. This is the second major project that The Greenbrier has announced this year. The resort hosted training camp for the New Orleans Saints after building three new football fields and new facilities for the NFL team.

ROOF REPLACEMENTS, CITY OF CLARKSBURG, CONTRACT 1

(iSqFt Project ID# 2153504) Bids will be accepted until 2:00 PM on 9/25/2014 for removal and disposal of an existing EPDM roof system and terra cotta tile roof system and installation of a new EPDM roof system with new "Spanish tile style" steel panel roof system, including flashing, accessories, and an access ladder system for the Clarksburg City Hall. A pre-bid meeting will be held on 9/17/2014 at 10:00 AM in the second floor conference room, Clarksburg City Hall. Bids should be submitted to City of Clarksburg, 222 West Main Street, Clarksburg, WV 26301 (304)624-1611. Plans and specifications are available from Horner Brothers Engineers, 140 South Third Street, P. O. Box 386, Clarksburg, WV 26301 (304)624-6445. **Plans and specifications are available in the CAWV Physical Planroom and Internet Planroom at www.isqft.com.**

ADDITION, BURLINGTON CENTER SCHOOL, MINERAL COUNTY

(iSqFt Project ID# 2153508) Bids will be accepted until 1:30 PM on 10/2/2014 for construction of an addition to Burlington Center School. A **mandatory** pre-bid meeting will be held on 9/18/2014 at 1:30 PM at the office of Burlington United Methodist Family Services, 120 Hope Lane, Burlington. Bids should be submitted to Burlington United Methodist Family Services, One Rainbow Lane, Burlington, WV 26710 (304)289-6010. Plans and specifications are available from Williamson Shriver Architects, 717 Bigley Avenue, Charleston, WV 25302 (304)345-1060. **Plans and specifications are expected in the CAWV Physical Planroom and Internet Planroom at www.isqft.com.**

RENOVATION, ANNEX BUILDING, ELEVATOR/STAIRWAYS, LOGAN COUNTY

(iSqFt Project ID# 2154346) Bids will be accepted until 10:00 AM on 9/11/2014 for construction of a three stop hydraulic elevator system, masonry elevator shaft, masonry stairway shaft, and structural steel stair tower, minor demolition for the existing three story building, Logan. A **mandatory** pre-bid meeting was held on 9/4/2014 at 1:00 PM at the Logan County Courthouse, 200 Stratton Street, Logan. Bids should be submitted to Logan County Commission, 300 Stratton Street, Room 104, Logan, WV 25601 (304)792-8626. Plans and specifications are available from E.L. Robinson Engineering Company, 5088 Washington Street West, Cross Lanes, WV 25313 (304)776-7473. **Plans and specifications are available in the CAWV Physical Planroom and Internet Planroom at www.isqft.com.**

FAYETTEVILLE FIRE STATION ADDITION

(iSqFt Project ID# 2155076) Bids will be accepted until 2:00 PM on 9/23/2014 for site utility connections, concrete apron, minor demolition and a new 2,560 square foot pre-engineered metal building vehicle bay addition for the Fayetteville Fire Station. SEPTEMBER IS NATIONAL PREPAREDNESS MONTH

An emergency can happen anytime, anywhere. September is National Preparedness Month and we would like to share some important information about business preparation in a potential emergency situation. The Centers for Disease Control and Prevention, along with sponsorship from the Federal Emergency Management Agency, have developed an extensive library with emergency preparedness tips for the workplace, as well as at home and school. This information highlights four easy steps to being prepared in any situation. They are:

- Get a kit
- Make a plan
- Be informed
- Get involved

An emergency kit contains basic items, and should be equipped to last for at least 24 hours at the workplace. Some basic items to include in this kit are:

- Several gallons of water
- Non-perishable food items
- First-aid kit
- Flashlight and batteries
- Medications

Step two, making a plan, is equally as important as creating a kit. Details to include can be as simple as where employees should go and how to be accounted for. A preparedness policy also should be written and distributed so information is thoroughly communicated to all employees.

To learn more about preparing for emergencies and becoming involved in community preparedness efforts, visit www.ready.gov.

Reprinted from BrickStreet's Insights Newsletter 9/4/14.

Contact the CAWV at (304) 342-1166 for assistance with the safety program.

September 5, 2014

HIGHWAY TRUST FUND WILL NEED AT LEAST \$7 BILLION FOR FY 2015

The Congressional Budget Office (CBO)—the federal government’s official score keeper when it comes to budgets and program expenditures—released August 27 projections showing the Highway Trust Fund (HTF) will be require at least \$7 billion in additional resources to support existing levels of highway and public transportation investment from June 1, 2015, through September 30, 2015. According to CBO, the Highway Account of the HTF will be \$2 billion short to get through FY 2015 and the Transit Account will need an amount less than \$500 million. The U.S. Department of Transportation claims surpluses of \$4 billion in the Highway Account and \$1 billion in the Transit Account are necessary for cash flow purposes. Overcoming the trust fund’s projected revenue deficit and meeting the department’s liquidity requirement pushes the next round of HTF supplementary needs to \$7 billion or more.

Congress approved legislation at the end of July that transferred \$10.8 billion into the HTF to avert a revenue shortfall and preserve surface transportation investments through May 31, 2015. Roughly \$3 billion of that \$10.8 billion was needed to maintain trust fund continuity in August and September. The remaining \$7.8 billion—when combined with incoming motor fuel taxes and other highway user fees—will support highway and transit spending for the first eight months of FY 2015.

While the latest CBO projection simply quantifies what was already anticipated—as the July congressional action was always represented as a temporary patch, it reinforces the need for ARTBA and our members to continue to push Congress to enact a long-term HTF revenue plan by the end of this year. Absent such action, the next HTF revenue crisis looms just as the 2015 construction season would otherwise be kicking into high gear.

RULES FOR SAFETY RULES FOR QUARRY OPERATIONS TO BE DISCUSSED AT LEGISLATIVE INTERIMS

The West Virginia Legislature is meeting September 8-10 for its September interim meetings. On the agenda of the Legislative Rule-Making Review Committee for Monday, September 8, are the proposed safety rules for quarry operations. The WV Crushed Aggregates Council and the WV Office of Miners’ Safety, Health and Training worked over a year rewriting the rules. They must now be approved by the full legislature in the next legislative session. The Rule-Making Review Committee is the first step in the approval process.

ACCESS ROAD, BAKER BUSINESS PARK, HARDY COUNTY

(iSqFt Project ID# 2153502) Bids will be accepted until 1:00 PM on 9/24/2014 for construction of approximately 525 LF of industrial access road and associated paving, turn lanes, roadway drainage, signage for the Baker Business Park Industrial Access Road, Hardy County.
