Newsletter 2016-15

April 15, 2016

WEST VIRGINIA'S PRIMARY ELECTION - MAY 10

West Virginia's Primary Election is now less than a month away. On May 10, state voters will choose nominees for a host of state offices including a successor to Governor Earl Ray Tomblin, all three members of the state's congressional delegation and members of the Board of Public Works (Secretary of State, Attorney General, Treasurer, Auditor and Commissioner of Agriculture). And, for the first time, all judges, including one seat on the West Virginia Supreme Court of Appeals, will run on a non-partisan basis and will be elected in the Primary Election.

April 19 is the deadline to vote in the Primary Election. For information to register online or by mail, click [here](#). On Election Day, polls open statewide from 6:30 a.m. to 7:30 p.m. To find your polling place, click [here](#).

PRESIDENT COOPERRIDER ANNOUNCES BOARD OF DIRECTORS MEETING

CAWV President Dan Cooperrider has called a Board of Directors meeting for Wednesday, May 18, at 10:00 a.m. It will be held in the CAWV Conference Room at 2114 Kanawha Boulevard, East, Charleston. As in all Board meetings, members are welcome to attend. Since lunch will be served, members who can attend are asked to please contact Wendy Long at long@cawv.org to RSVP.

CONGRATULATIONS ALICE GEORGE!

Alice George retired April 15 after over 24 years of service to the CAWV. Alice served as Office Manager for the Asphalt Pavement Association of WV and the WV Construction and Design Exposition (EXPO). We want to thank Alice for her outstanding service and dedication to the association and EXPO. EXPO experienced significant growth during Alice's tenure, including expansion of the exhibitor base and exhibit areas, seminar and meeting agenda, development of the website and e-commerce, and an increase in the number of show cosponsors.

"APAWV members are very grateful to Alice" noted Pat Parsons, APAWV Executive Director. "Alice helped us grow our membership, expand our services and was just a wonderful asset and friend to the association" he said.

We wish Alice and her husband Ernie George, Walker Machinery Company, all the best in their future endeavors.

GLEN GAINER TO RETIRE EARLY

Auditor Glen Gainer announced Thursday he will retire early to take a job with a private training company. He announced earlier he would not seek reelection to auditor, a position he has held for 23 years. Gainer said in December he would remain in office until the November elections

but told MetroNews he received an offer that he could not pass up. Governor Earl Ray Tomblin will appoint a replacement to serve Gainer's remaining term. Candidates for the auditor's position include Jason Pizatella, former Secretary of the Department of Administration, Kanawha County delegate and lawyer J.B. McCuskey, Mary Ann Claytor and Robin Righter.

SAVE THE DATE FOR THE CAWV CAR SHOW AUGUST 12 - SPONSORS NEEDED

CAWV members are invited to join together on Friday, August 12, for a car show and cookout. The CAWV is currently planning the event that will welcome members and their vintage and rare late model vehicles to the association headquarters in Charleston. Details of the event are still being finalized. Mark your calendars now and plan to attend. Sponsorships for the event are currently being accepted. To participate as a sponsor, to display a vehicle, or for more information, contact Pat McDonald at (304) 342-1166 or pmcdonald@cawv.org.

GOVERNOR TOMBLIN ENCOURAGES STATEWIDE NOMINATIONS FOR 2016 GOVERNOR'S SERVICE AWARDS

Gov. Earl Ray Tomblin is encouraging all West Virginians to nominate outstanding individuals, families and organizations for the 2016 Governor's Service Awards. The Governor's Service Awards are awarded in conjunction with Volunteer West Virginia, the state's Commission for National and Community Service, and recognize outstanding individuals, families and organizations for extraordinary service and commitment to their communities. This year's award winners will be recognized at the Culture Center in Charleston on September 6. Nomination forms are available at www.volunteerwv.org or by calling 304-345-0111. Nominations should be submitted online or postmarked by May 6.

"The annual Governor's Service Awards are a wonderful opportunity to recognize those who dedicate countless hours of their time to help those in need and build a brighter future for West Virginia," Gov. Tomblin said. "I encourage all of our state's residents to take time to nominate a West Virginian or a group of West Virginians who have gone above and beyond to serve their communities and our state."

AGC SURVEY: HOW LONG DO YOU WAIT FOR PAYMENT ON CHANGE ORDERS ON FEDERAL CONTRACTS?

Tell AGC of America by completing its Change Order Survey. Change orders are a way of life on any construction projects. It appears federal agencies are taking many months or even years to process and pay change orders. Please complete this brief survey to help AGC gauge how bad the change order process is on your federal construction projects. All survey responses are anonymous and allow AGC to better articulate the problems you face when working for federal construction agencies. To complete the survey, please [click here](#).

NEW BROOKE MIDDLE SCHOOL, BID PACKAGE #2 GENERAL TRADES

General Trade bids will be accepted until 1:00 PM on 5/02/2016 for construction of New Brooke Middle School, RD 3, Box 610-Cross Creek Road, Wellsburg, WV 26070. FLAG PERSON - A POSITION OF RESPONSIBILITY

In construction, a flag person is best known as the worker or workers who manage traffic flow along a highway or street when road repair is underway. There are also flag persons who are responsible for signaling crane operators, truck drivers when backing up, for hoisting operations, etc. These people must be knowledgeable in the use of correct hand signals and emergency action plans.

Flaggers are the first line of defense between the work crew and the unpredictable drivers passing through.

In either case a flag person has a great deal of responsibility. For road work they must be easily visible to traffic and must be able to direct traffic around the work the crew is doing. When flagging traffic they should try to position themselves in such a way that there is some type of barrier between them and the traffic if at all possible. This will give them some protection should they need it. They must be sure their signals can be clearly seen by oncoming traffic. Stop and slow paddles work very well. The red or orange garment provided must be worn at all times and must be made of a reflectorized material if work continues into the evening hours.

OSHA Standard 1926.201 Signaling requires - (1) When operations are such that signs, signals, and barricades do not provide necessary protection on or adjacent to a highway or street, flag persons or other appropriate traffic controls shall be provided. (2) Signaling directions by flag person shall conform to American National Standards Institute D6.1-1971, Manual on Uniform Traffic Control Devices for Streets and Highways. (3) Hand signaling by flag persons shall be by use of red flags at least 18 inches square or sign paddles, and in periods of darkness, red lights. (4) All flag persons shall be provided with and shall wear a red or orange warning garment while flagging and at night shall be of a reflector type material

If a flag person has questions about the flagging duties, check with the supervisor before beginning. If a worker needs a break, let the supervisor know so a qualified replacement can take over the position.

**REMEMBER, YOU ARE THE ONLY ONE BETWEEN
THE TRAFFIC AND YOUR CREW!**

Contact the CAWV at (304)342-1166 for assistance with your safety program.

The Associated General Contractors (AGC) of America is collaborating with ClickSafety, an OSHA-authorized provider, to deliver a wide range of construction related safety courses online for members at a 10% discount. AGC OPPOSES REVISED EEO-1 REPORT WITH COMPENSATION AND HOURS-WORKED DATA

On April 1, AGC submitted comments to the Equal Employment Opportunity Commission opposing its proposal to revise the Employer Information Report (EEO-1). The proposal intends to collect compensation and hours-worked data, in addition to already collected race and gender data, from all employers with 100 or more employees. Prime and first-tier subcontractors who perform work directly for the federal government and have 50 or more employees would be required to submit the currently used EEO-1 report that does not include compensation and hours-worked data. Employers with fewer than 100 employees, second-tier and lower federal subcontractors with fewer than 100 employees, all federally-assisted contractors with fewer than 100 employees, and prime and first-tier subcontractors with fewer than 50 employees will not be required to complete either version of the EEO-1 report.

The proposal to revise the report references wage discrimination as the basis for the need to collect compensation data from employers. AGC's comments explain to the Commission that collecting wage data are not necessary. Specifically, AGC shows through data collected by the Commission and the Office of Federal Contract Compliance Program (OFCCP) that there is no need for the eradication of wage discrimination in construction because there is no evidence that such discrimination exists. The Commission's charge data from 2013 reveal that just 1.05 percent of the total number of equal pay claims were identified as from the construction industry. Additionally, of the 4,007 audits conducted by OFCCP in 2012, pay discrimination occurred against women in only 0.03 percent of all the facilities audited. AGC also addressed other reasons why the collection of wage data are unnecessary including explanations that:

- Better suited tools already exist to assist with compensation benchmarking;
- National wage data are useless for benchmarking purposes in construction; and
- Government analysis will not account for a wide variety of factors used to determine compensation.

Regarding the collection of hours-worked data, the proposal did not provide an example of what the collection of information would look like on the revised form. As a result, AGC's comments ask the EEOC to withdraw consideration of this requirement until it can provide an example that can be evaluated by employers for public comment.

While AGC's comments stress that these data are not needed, in an effort to mitigate the burdensome impact the proposed changes would have on its members, AGC urged the EEOC to consider the following should the revisions be unnecessarily implemented:

1. Understand that aggregate data are not useful or transparent, yet transparent data place employers' proprietary information at risk
2. Change the EEO-1 Reporting Date to Allow for Post-Annual Reporting
3. Clearly Define "Contractor" on the Revised EEO-1 Form
4. Take All Measures to Ensure Confidentiality Prior to the Release of a Revised EEO-1 Report

For more information on the proposal, [click here \(link is external\)](#). Visit the EEOC website to see the [sample revised form \(link is external\)](#). AGC will continue to monitor the developments of the proposal and will keep members informed.

REHABILITATE RUNWAY – SEAL & MARK, GRANT COUNTY AIRPORT

Bids will be accepted until 1:30 PM on 4/27/2016 for the rehabilitation of the runway to seal and mark. A pre-bid conference will be held on 4/14/2016 at 11:00 A.M. at the Grant County Airport, Petersburg, WV.
