WEST VIRGINIA FLOOD RELIEF EFFORTS; ROAD DAMAGE UP TO $36 MILLION

The West Virginia counties devastated by last week’s record flooding have begun the challenging task of opening roads, restoring utilities and cleaning up. The CAWV applauds the efforts of first responders, West Virginia Division of Highways (WVDOH), West Virginia National Guard, American Red Cross, and other local, state and national groups helping with the effort. The flood waters have claimed 23 lives.

The CAWV has provided agencies looking for construction resources and help with recovery efforts with CAWV member contact information. They can also refer to the CAWV website where they can search for contractors, materials, equipment, etc., through the CAWV website under the “Find a Member” – Advanced Search. We encourage CAWV members to visit www.cawv.org and verify that your company information is correct. Members can sign in to edit/update the company listing. The CAWV staff can provide you with your log-in info or make changes to the company listing. Please don’t hesitate to contact the CAWV staff at (304) 342-1166 for assistance.

Estimates of damage to state’s roads have doubled in recent days to $36 million. Clay County has the most road damage so far, estimated to be $8.7 million, followed by Nicholas at $6.7 million, then Kanawha at $5.8 million and Greenbrier at $5.1 million. A number of CAWV members are already helping with relief and recovery efforts. Agencies are still looking to contract for equipment and construction resources, therefore members may be contacted. The WVDOH will be releasing more information in the very near future regarding their emergency projects and contracting procedures. The CAWV will keep members posted on these developments. For an update on the proposed emergency projects to be advertised through the WVDOH, see this week’s Heavy/Highway Bulletin.

U.S. Sens. Joe Manchin and Shelley Moore Capito announced $5.7 million in U.S. Department of Transportation funding for road work necessary in the wake of last week’s floods. The money was made available through the DOT’s Quick Release program to clear federal highways and perform other emergency work. “Last week’s thunderstorms devastated parts of central and southeastern West Virginia, destroying and severely damaging many roads, bridges and highways,” Sen. Capito said in a statement. “For some of the hardest hit areas, these thoroughfares are essential for residents who need to get to work or travel to receive medical care.” “I am pleased the Department of Transportation has stepped up to provide much needed relief to West Virginia as we begin to recover from this devastating flood,” Sen. Manchin said. “This historic flooding has completely devastated 44 West Virginia counties.”

A number of schools and water and sewer facilities also received extensive damages. Officials are assessing the situation and future information will be included in future Building and Municipal Utilities bulletins.
FLOOD RELIEF VOLUNTEERING / DONATING OPPORTUNITIES

A number of members have asked about making flood relief contributions. As flood recovery efforts continue, the CAWV wanted to remind and update members on ways to help. Volunteers are needed in the field for a variety of tasks. There are several different groups coordinating clean-up/reconstruction/donation efforts:

- **West Virginia American Red Cross** - Erica Mani with the WV Red Cross is helping to coordinate these efforts and can be reached at Erica.manii@redcrosswv.org or visit [http://www.redcross.org/local/west-virginia](http://www.redcross.org/local/west-virginia).

- **West Virginia Voluntary Organizations Active in Disaster (WVOAD)** – WV VOAD consists of organizations active in disaster response throughout the state of West Virginia. The VOAD’s role is to bring organizations together and enable them to understand each other and work together during times of disaster preparedness, response, relief and recovery. To donate or to volunteer, visit [www.wvvoad.org](http://www.wvvoad.org).

- **#WVFLOOD** - This website was created by volunteers in West Virginia to help with the relief effort during the June 2016 flood throughout the state. The site helps to connect the dots between those donating and those who need to receive the donations. They have created this site as a portal to give people access to information, events, drop off locations, fundraisers, and relief efforts. Visit [www.wvflood.com](http://www.wvflood.com) for more information.

- **“Rebuild West Virginia” Telethon** - Celebrities from music, movies, television and sports will come together from 7-9 p.m. tonight, July 1, to help raise funds for flood recovery efforts in West Virginia. The telethon will air on WVVA-TV, WSAZ, WVPB and on other stations statewide, as well as nationwide. The telethon will also be repeated from 9-11 p.m. on the West Virginia Channel. The live broadcast will be available from 7-9 p.m. on the MetroNews Channel at [www.wvmetronews.com](http://www.wvmetronews.com). All proceeds will go directly to the American Red Cross in West Virginia to help victims and communities impacted by last week’s floods. During the telethon, viewers will be able to make donations by calling 1-800-273-0511 or by visiting [www.rebuildwestvirginia.com](http://www.rebuildwestvirginia.com). A $10 donation can be made by texting the word WVFLOODS to 909999.

The CAWV will be also be seeing what the needs are going forward and will keep members informed. Members can also drop off cleaning supplies and other supplies at the CAWV office at 2114 Kanawha Boulevard, East. Members can donate to their local charities.

CAWV ANNUAL MEETING UPDATE

One of the hardest hit areas of last week’s flooding was Greenbrier County. Numerous roads, homes and structures were wiped out. Greenbrier County suffered the largest loss of life. The Greenbrier Resort, site of the CAWV Annual Meeting, was not spared. Greenbrier owner Jim Justice cancelled the Greenbrier Classic Golf Tournament that was scheduled to begin Monday due to flooding on the Old White Course. The resort is closed as repairs are being made.

The CAWV Annual Meeting is scheduled for July 14-17. The CAWV has been in constant contact with the hotel to offer any help the CAWV and its members can provide, and to determine the status of the association’s annual meeting. In today’s briefing, the CAWV learned that the hotel will be fully operational July 10, with the exception of golf. It is hoped the Greenbrier Course will be available. The Old White, Meadows and Snead courses are closed. The hotel will provide free transportation to guests who wish to play golf at Glade Springs Resort. Dining facilities, the pool, the casino and other functions will be open and fully operational, we are told.

There was discussion about rescheduling this year’s Annual Meeting but the CAWV Board wants to support the thousands of management and service personnel at The Greenbrier who have provided tremendous service to CAWV members over the years. Members attending the
meeting will receive a mailing Tuesday detailing final plans, activities and an update on the hotel.

**WEBINAR TO BE HELD ON JULY 13 ON NEW RIGHT TO WORK LAW**

West Virginia today becomes the 26th right to work state in the nation. Many CAWV members who are signatory to collective bargaining agreements have asked how this affects their current and future operations. “The West Virginia Workplace Freedom Act,” S.B. 1, vetoed by Gov. Tomblin and overridden by the West Virginia House and Senate, states that a person may not be required, as a condition of employment, to either become or remain a member of a labor organization, or pay any dues, fees, assessments or other similar charges of any kind or amount to any labor organization. Most members are aware that the act does not change a contract currently in place between an employer and a union. Nor does it change an employer’s obligation to bargain under that contract. The West Virginia Workplace Freedom Act will apply to any contract that is entered into, modified, renewed or extended after July 1, 2016.

A webinar will be held on Wednesday, July 13, at 10:00 a.m. to address the new bill and to take questions from CAWV members. The webinar is part of the CAWV/BrickStreet Educational Series and will be presented by attorneys from Jackson Kelly. The webinar will discuss employers’ responsibilities under current and future union contracts, employees’ obligation to pay union dues, hiring hall practices and provisions, dues checkoff authorization and penalties and remedies for violation. There will also be an active question and answer period to give CAWV members practical tips for complying with the new act.

Nearly a dozen labor unions in West Virginia filed an injunction and lawsuit Monday to halt the state’s right-to-work law from going into effect today. The labor unions argue the law is unconstitutional because it takes property away without due process. The lawsuit argues The Workplace Freedom Act hinders union membership by enabling nonmembers to receive union benefits and services at no cost. Proponents of S.B. 1 say West Virginia’s law is based on Indiana’s law. The courts upheld that state’s right to work legislation.

Members can click [here](#) to register for the “Right to Work Workplace Freedom Act” webinar.

**HAPPY FOURTH OF JULY!**

Last week’s devastating floods in West Virginia have brought out the best part of West Virginia; her people. From the first responders who rescued people to the thousands of volunteers who have since pitched in, West Virginians are helping their friends, neighbors and strangers recover. Local, state and federal government agencies, along with numerous charitable organizations, have marshaled a remarkable range of resources to help victims. CAWV members have been hard at work this week repairing flood damaged roads, water and sewer systems and other facilities and with volunteering with their time and resources. The CAWV commends all for their dedication and service and wishes everyone a happy Fourth of July. The CAWV office will be closed Monday, July 4th in observance of Independence Day.
The CAWV posts all projects announced in the Newsletter along with where the plans and specifications can be viewed. For more information, contact Cheryl Clark at (304) 342-1166 or email planroom@cawv.org.

WV SCHOOL BUILDING AUTHORITY AWARDS FUNDS FOR IMPROVEMENT PROJECTS

The West Virginia School Building Authority's board recently awarded $7.7 million to 13 school systems for improvement projects. The board provided funding for projects in Barbour, Berkeley, Cabell, Fayette, Grant, Mason, Mercer, Monongalia, Nicholas, Putnam, Randolph, Ritchie and Tyler counties. One of the projects includes a $1 million fund for Fayette County to build a six-classroom addition to Midland Trail High School that will then allow for the closure of Ansted Middle School. The board denied funding to Kanawha, Gilmer, Lincoln and Summers counties. The counties made requests ranging from $875,000 to $1 million. SBA officials also announced that it is at the ready with some $4.6 million in emergency funds to help schools affected by the recent flooding in West Virginia. However, it was stated that before any school system applies for funds from that emergency fund, they must show they have exhausted all other funding routes: FEMA, flood insurance, local funding. The school systems have 30 days to notify the SBA they plan to apply for emergency funds.

UPSHUR COUNTY COURTHOUSE CHIMNEY REPAIR, BUCKHANNON

Bids will be accepted until 9:00 AM on 7/21/2016 for Upshur County Courthouse chimney repairs, Buckhannon, West Virginia. A mandatory pre-bid conference will be held at 3:00 PM on 7/7/2016 at 40 West Main Street, Buckhannon, WV 26201. Bids will be received at the office of the Upshur County Commission, Carrie L. Wallace, County Administrator, 38 West Main Street, Room 302, Buckhannon, WV 26201. Lightning Awareness Week
Policy for Outdoor Work Sites

While June 21st is the official start of Summer, June 22 is the official start of Lightning Awareness Week. According to the National Weather Service, there were 26 fatalities in 2014 resulting from lightning strikes in 14 states. Workers account for about one-third of the total number of people struck by lightning; roofers, construction workers, road crews, pipe fitters and farm workers are especially at high risk. Lightning typically strikes tall objects, including people standing on open ground or a roof. Work sites should have a plan in place to keep workers safe in case of a lightning storm.

- Monitor weather conditions in the early morning hours for reports of impending severe weather in your area. If warranted, continue to monitor weather conditions throughout the day. An inexpensive portable weather radio can provide timely storm data from local weather forecasts.

- All employees should understand what lightning safety plans are in place, which includes what shelters are available to them at that particular work site. (SEE BELOW)

- It’s easy to determine when to take shelter. If you hear thunder, the associated lightning is within 8 miles. Suspend activities, allowing sufficient time to get to shelter. A good lightning safety motto is: “If you can see it (lightning), flee it; if you can hear it (thunder), clear it.”

- If you feel your hair standing on end, and/or hear “crackling noises,” you are in the lightning electrical field. If caught outside during a lightning storm, immediately remove all metal objects (including hats), place your feet together, duck your head, and crouch down low in baseball catcher’s stance with hands covering your ears.

- Wait a minimum of 30 minutes from the last observed lightning or thunder before resuming normal work activities. Be extra cautious during this phase, as the storm may not be over.

- If someone has been struck by lightning, get emergency help promptly and apply first aid. It is a myth that lightning victims carry a charge after the strike—they are safe to handle and may need first aid immediately.

SAFE:
- Fully enclosed metal vehicles with windows up
- Fully enclosed buildings with plumbing and/or electrical service
- Low ground, ditches, or clumps of bushes
- Trees of uniform height, such as a forest

UNSAFE:
- Outdoor areas with metal objects such as power poles, fences, high-mast light poles, metal bleachers, electrical equipment, mowing and road machinery
- Solitary trees
- Bodies of water, open fields, high ground and caves

Contact the CAWV at (304) 342-1166 for assistance with your safety program.

The Associated General Contractors (AGC) of America is collaborating with ClickSafety, an OSHA-authorized provider, to deliver a wide range of construction related safety courses online for members at a 10% discount. To view the full course catalog, and for information on ordering, visit: www.cawv.org then click on the Safety link.
JOINT UTILITY COMMITTEE RECEIVES FUNDING UPDATES, DISCUSSES INDUSTRY ISSUES

The CAWV Joint Utility Committee met on Wednesday, June 29, to discuss several industry issues and receive updates from funding agencies. A report supplied by Jim Ellars, Executive Director, West Virginia Infrastructure and Jobs Development Council (WVIJDC), showed that the agency has $54,969,465 currently committed to 27 projects. It was also noted that the legislature took half, or $20 million, from last year’s funding and an additional $10 million from this year’s funding to help balance the budget.

Kathy Emery, WV Department of Environmental Protection, reported that the WVDEP has several projects expected to bid in the near future. Mrs. Emery also reported that most of the Chesapeake Bay Projects are finished the WVDEP’s funding has returned to a normal cycle. Mrs. Emery also asked if any contractors have pumps or other emergency equipment that they would be willing to loan a local PSD affected by the flood to call her office at (304) 926-0499.

Bob Decrease, Unit Manager for the Bureau for Public Health, reported that his office has several projects coming up that have dollars already committed. Mr. Decrease noted that they have committed all their available funding for 2016-2017 but are still looking for a few for 2018.

Harry Taylor P.E., United States Department of Agriculture (USDA), reported that all of USDA’s available funds have been committed for this fiscal year. He added that grant money is very competitive and if a project is asking for a one million dollar grant they should be asking for a four to five million dollar loan in addition. He noted that interest rates on the loans are very low. He also noted that his year starts on October 1 for new funding but most of that money is allocated to projects already.

Several other industry issues were discussed at the meeting, including a recent decision by the WVDOH Traffic Engineering Division to stop locating its own underground utilities on WVDOH right-of-ways. Committee members noted that this will have an impact on project costs and a task force will continue to look for a solution for the issue.

Kelly Workman, West Virginia Development Office, reported that several projects that have received Small City Block Grants as part of their funding package should be going to bid soon. She noted that even though the West Virginia Prevailing Wage has been repealed, any project that has funding from Small City Block Grants would fall under the federal Davis-Bacon Wage Act.

The next meeting of the Joint Utilities Committee will be scheduled at a later date. Look for updates in the CAWV Utility Bulletin. For additional information, please contact Pat McDonald at (304) 342-1166 or email pmcdonald@cawv.org.

FLOODS DAMAGES MANY UTILITY TREATMENT FACILITIES

On Friday, officials with the West Virginia Department of Environmental Protection’s Division of Water and Waste Management were continuing to evaluate flood effects on wastewater treatment plants and collection systems with county and other local officials. “There’s a lot more...”
in the floodwaters than just sediment,” said Kathy Emery, program manager for the DEP’s Clean Water State Revolving Fund. Speaking on MetroNews, Mrs. Emery gave a rundown on local treatment facilities and their current status. To view her comments, click [here](#).

**A/E, WASTEWATER TREATMENT SYSTEM IMPROVEMENTS, TOWN OF MAN**

Proposals will be accepted until 7/11/2016 at 4:00 PM for professional firms interested in design of wastewater system improvements/ extensions, preparation of bidding and contract documents, participation in the solicitation and evaluation of bids, and assisting in other areas necessary for the administration of construction of an improved wastewater treatment system for the Town of Man. Proposals and questions should be submitted to Jim Blevins, Mayor, P. O. Box 70, Man, WV 25635, (304) 583-6831.

WVDOH REVENUES DOWN $51.5 MILLION OVER PREVIOUS YEAR

Revenues for the WV Division of Highways continue to decline as the department ended its Fiscal Year 2016 on June 30, 2016 with total revenues of $691.5 million. This is $11.4 million under the Governor’s FY2016 estimate. More disturbing is that this year’s actual revenue is $51.5 million under 2015 actual revenues of $743 million.

Compared to FY 2015, actual Motor Fuel tax collection was down $38.5 million. Motor Fuel collection projections for 2016 were conservative but this year’s actual collections were $23.4 million, or 5.57 percent under the Governor’s estimate. Registration Fees were below the Governor’s estimate and last year’s actual collections. Registration Fees totaled $87 million this year compared to $100.6 million last year, or $13.6 million less. The Privilege Tax on vehicle sales were 9 percent above estimates but only $221 above last year’s revenues. Registration Fees were $13.6 million under FY 2015 collections of $97.3 million.
A major reason for the $38.5 million decline in Motor Fuel collection is the declining price of gasoline. The state’s wholesale gas tax, which is based on the wholesale price of gas, dropped 1.1 cents per gallon in 2015 and another 1.4 cents per gallon in 2016. Each cent of the wholesale tax generates about $15 million. At the current price of gas, the wholesale tax could drop another 1 cent in 2017. S.B. 555, passed this year by the Senate and defeated in the House of Delegates, would have restored the revenue lost from the wholesale gas tax drop. The total revenue created by S.B. 555 would have been about $315 million annually.

Revenues to the WVDOH have been stagnant for a number of years. This year there is a significant reduction in actual dollars to the Road Fund.

**WVDOH’S RAPID RESPONSE TO FLOOD RAVAGED INFRASTRUCTURE; ASSESSING FUTURE REPAIR PROJECTS**

The WVDOH realized last week that they had many challenges facing them as they surveyed flood damage in various counties. They rapidly went to work remediating the damage. The WVDOH evoked emergency contracting procedures and selected contractors to immediately begin work on a handful of projects in Districts One and Nine utilizing force account provisions. Contractors quickly mobilized to begin the process of opening and rebuilding roads and bridges that, in most cases, were completely washed away.

The next phase of restoring roadway infrastructure will reportedly revolve around use of construction contracts (BidX) that will utilize expedited bidding procedures for both federal aid and state funded projects. The WVDOH has identified at least $36 million in roadway damage, a number that will likely be expanded. Many of the products are expected to be eligible for reimbursement by FHWA and FEMA.

Contactors will want to watch BidX and this newsletter for additional information on recovery efforts and related bidding opportunities.

**APAWV ANNUAL FALL MEETING—REGISTRATION FORMS AVAILABLE ONLINE**

The 36th Annual Fall Meeting of the Asphalt Pavement Association of West Virginia will be held October 6 to 9, 2016 at Glade Springs Resort. Additional information on the meeting and registration forms are available at www.asphaltwv.com or members can click here to register.

**MAPLE DRIVE EXPANSION PROJECT, MON HEALTH SYSTEMS INC., MONONGALIA COUNTY**
Bids will be accepted until 2:00 PM on 7/12/2016 for the Maple Drive expansion project, Morgantown, West Virginia. Bids should be received by the Monongalia Health Systems, 1200 J.D. Anderson Drive, Morgantown, West Virginia 26505. Plans and specifications may be obtained at CTL Engineering of West Virginia, Inc., 1091 Chaplin Road, Morgantown, WV 26501, (304) 292-1135. Plans and specifications are available in the CAWV Planroom in bin 31.

PAVING, SENIOR CENTER PARKING LOT, VIENNA

Bids will be accepted until 10:00 AM on 7/8/2016 for installation of a concrete parking lot at the Vienna Senior Center for ADA compliant.
