EXPO WRAPS UP 38TH SHOW

The 38th Annual West Virginia Construction and Design EXPO wrapped up last week at the Charleston Civic Center. The CAWV and WVUCA want to thank the many members who participated in the event as an exhibitor, honor exhibitor, event sponsor or advertiser, show attendee, blood donor or seminar/meeting presenter/attendee.

In case you missed the March 22 and 23 show, here are a few highlights:

- Nearly 300 exhibitors with 425 booths
- 4,600 show attendees
- 78 seminars and meetings, many with standing room only crowds
- Members can learn more about this year’s EXPO in the March/April issue of West Virginia Construction News.

Members are encouraged to visit the show website www.wvexpo.com for a complete list of Exhibitors and Honor Exhibitors. Be sure to mark your calendars for next year - March 21 - 22, 2018. Members who would like to participate in the 2018 show can contact Cassidy or Rena at (304) 342-EXPO or email expo@wvexpo.com.

GOVERNOR ASKS INDUSTRY FOR HELP ON FUNDING INITIATIVES; CAN’T KICK THE CAN DOWN THE ROAD ANY LONGER

Gov. Jim Justice told members and attendees at the CAWV State Meeting and Opening Session of the WV Construction and Design Exposition last Wednesday that his highway funding proposals will put West Virginia on a pathway to the future but he needs their help to get them passed. “There are factions who don’t want these proposals to pass but there is time when you have to do what is best for West Virginia,” the governor stated. “We have to get our network of highways completed. We have to create real jobs and we have to have immediate jobs. There are legislators who understand that but we’ve got to get above the Democrat and Republican issue and not kick this can down the road any longer.”

The governor says he has to have industry with him in order to get his bills passed. “I am 100 percent in your camp,” he told nearly 300 industry people at the opening session. “It’s no fun when it’s lonely,” he quipped. “I need you to call your legislators and beg them to do the right thing for our state. I want all you to be here for evermore. We can’t have more people leaving our state.”

SENATE TRANSPORTATION CHAIR ADDRESSES WV EXPO; HIGHLIGHTS MAINTENANCE AND NEW CONSTRUCTION
Sen. Greg Boso, R-Nicholas, spoke at WV EXPO prior to the governor’s address. He is chairman of the Senate Transportation and Infrastructure Committee. “Everything depends on a good infrastructure, including broadband to give internet access down the street, across town and around the world.” Sen. Boso, president of the engineering firm G.L. Boso & Associates and general contractor, Boso & Boso, Inc., both of Summersville, said West Virginia needs a safe, modern and reliable infrastructure system and he is supporting the governor’s proposals. “Nobody wants to raise taxes but people will pay for better roads,” the chairman stated. “People are reasonable in that they know good roads come at a cost.”

Sen. Boso told members the legislature wants the money spent wisely, knowing there is need for system preservation and new expansion. “We want to make sure to move West Virginia forward but we’ve got to be good stewards of what we’ve built,” he said. “My committee wants to be sure the money is there for preservation and maintenance of our current system. We will be working closely with the new administration and leadership at WVDOH to see how they will balance this going forward.

“I want to make sure your voice is heard,” the chairman told members. “You’re the ones in the field and you’re the best at helping developing policy. There’s a lot work that needs to be done and the governor’s proposals will help move West Virginia forward.”

CABINET SECRETARIES ADDRESS WVEXPO ATTENDEES

Governor Jim Justice’s new cabinet secretaries outlined their priorities at WV EXPO. Speaking at the Wednesday afternoon session were Secretary Thomas Smith, West Virginia Department of Transportation; Secretary David Hardy, West Virginia Department of Revenue; Secretary H. Wood Thrasher, West Virginia Department of Commerce; and Secretary John Myers, West Virginia Department of Administration. They shared their thoughts on economic development and infrastructure investment in the state of West Virginia, as well as design or construction initiatives that they may have under consideration.

“We need to jumpstart West Virginia’s economy and the best way to do this is through infrastructure investment,” Secretary Thrasher told EXPO participants. “Governor Justice’s message is that West Virginia has been 50th for so long that we don’t know how to think about anything else, and I’m sick of it,” said the former president of Thrasher Engineering. Infrastructure is a proven method to create jobs, he said, which is why the governor is proposing his “Save Our State” (SOS) $105 million program to create industrial development sites and other infrastructure development.

“As a highway guy, I’m glad highways is a centerpiece of Governor Justice’s West Virginia recovery plan,” said new Transportation Secretary Tom Smith. “The TRIP report showing the deterioration of the state’s highway system is alarming and it shows the cost of doing nothing.” The former Federal Highway Administration Regional Administrator of West Virginia outlined the governor’ proposals for highway funding, continuation of tolls and bonding on the WV Turnpike, and the $1.6 billion road bond amendment.

Revenue Secretary Hardy outlined the state’s current budget problems, including the $500 million shortfall for the new fiscal year. Secretary of Administration Myers outlined to EXPO attendees the many divisions under his department that design and build facilities, including the General Services Agency and the state Purchasing Division. He also noted the state’s new
computer network, wvOASIS, has been slow and cumbersome but that this should be improved once the final stage is completed in May.

For a complete synopsis of the secretaries’ presentation at this year’s EXPO, see the March/April issue of West Virginia Construction News magazine.

**LAST WEEK OF 2017 LEGISLATIVE SESSION BEGINS MONDAY**

Wednesday marked the 50th day of the 2017 Legislative Session, also known as “Crossover Day,” since all bills must pass their house of origin by this day in order to continue receiving consideration. The House and Senate both passed their version of the budget which addresses a number of tax reforms plus budget cuts. The governor continues to talk about his budget proposal which includes cuts and tax increases. The House Speaker and Senate President say they will have their budget bills passed by the 60th day of the session.

The West Virginia Senate has passed by a vote of 27-6 S.B. 477, the highway funding bill that is part of Gov. Jim Justice’s $2.4 billion transportation improvement program. S.B. 477 raises the state gas tax 4.5 cents a gallon, increases the floor on the wholesale gas tax to restore the 3.5 cents per gallon lost over the past three years due to declining gas prices, increases fees for the West Virginia Division of Motor Vehicles and places an annual fee on alternate fuel vehicles. The bill generates over $130 million annually in new highway revenues. The governor’s other highway bills have passed one house or the other, including a bill to continue tolls on the WV Turnpike, a constitutional amendment, if ratified by voters, that would authorize $1.6 billion in road bonds, Public Private Partnerships (P3) and Design-Build for highway projects, and increasing GARVEE bonds from $200 million to $500 million.

Another constitutional amendment (SJR 4), the County Economic Development Amendment, would give counties authority to increase property taxes for local schools, water and sewer systems and other infrastructure projects. S.B. 375, changing the severance tax rate on limestone and sandstone, and S.B. 190, eliminating the 5% West Virginia vendors’ preference for material and equipment, are both dead for this session.

CAWV members received a CAWV Legislative Alert Thursday detailing the status of legislation following the cross over date. To view, [click here](#). Members will receive a detailed report in the Monday, April 3 CAWV Legislative Bulletin.

**TRUMP’S INFRASTRUCTURE PLAN PERHAPS BACK ON TRACK**

President Trump’s $1 trillion infrastructure plan is grabbing some of the spotlight in Washington after Republicans’ defeat on healthcare, according to a March 30 article in *The Hill*. The rebuilding package was expected to sit on the sidelines until the fall, but lawmakers on Capitol Hill think that timeline could be accelerated with more room on the legislative agenda and an administration eager to score a victory. “This just leapfrogged,” Rep. Lou Barletta (R-Pa.), who was on Trump’s transition team, told The Hill. “This is something the president has wanted to do. But with healthcare pushed to the back burner, I believe that it’s infrastructure that gains steam.” “It moves everything up if you take [healthcare] out,” said Sen. James Inhofe (R-Okla.), chairman of the Environment and Public Works Committee’s subcommittee on transportation and infrastructure.

Some lawmakers warn that Trump’s infrastructure agenda could actually be complicated by the failure to repeal ObamaCare, which would have cut into the deficit and provided a budgetary
offset for other legislation, The Hill stated. “It could be devastating,” Rep. Rodney Davis (R-Ill.) told The Hill. “The fact we don’t have revenue generated from saving many Americans from the high costs of ObamaCare and the taxes in ObamaCare, leaves us with less revenue to invest in an infrastructure plan.” But if the White House advances tax reform and infrastructure at the same time — a move that Axios on Monday reported the administration is considering — that could signal that Trump is serious about ensuring infrastructure does not get left out of the tax discussion. Transportation leaders in the House and Senate think that will give both issues their best shot at passage.

OVERVIEW TRAINING OF OSHA’S UPDATED SILICA STANDARD FOR CONSTRUCTION – MAY 5

Beginning on June 23, 2017, contractors must comply with the U.S. Occupational Safety and Health Administration’s respirable crystalline standard for construction. To help educate our members, the CAWV is offering an overview training of OSHA’s updated silica standard for construction on May 5 from 8:00 a.m. to 12:00 p.m. at the BrickStreet Headquarters in Charleston. Any members who work in construction and would have any type of silica exposure are encouraged to attend. Cost to attend is $35 for members and $50 for future CAWV members. See a registration form attached to this week’s Newsletter. Return forms by fax to the CAWV at (304) 342-1074, or email pmcdonald@cavw.org, by Tuesday, May 2.

AGC LAUNCHES NEW USERNAME AND PASSWORD POLICY

Last week AGC implemented a new username and password policy for all contacts (member and non-member contacts) in the AGC of America database, as part of their ongoing effort to implement best-practices for data management and security. CAWV members need to go on the AGC website and change their passwords. Members can reset their password using the instructions below:

1. Go to www.agc.org and click the “login” button in the upper left hand corner.
2. Click “forgot password”.
3. Enter your email address in the Username field.
4. You’ll receive an email with a link that will allow you to reset your password.

2016 CAWV SAFETY AWARDS ANNOUNCED AT STATE MEETING

During this year’s CAWV State Meeting, the Safety Committee presented the 2016 Safety Awards. Annually, the committee recognizes contractor and associate members who have exhibited excellence in safety at the workplace. The CAWV commends the following firms who received awards for demonstrating their ability to promote worksite safety. Look for a complete story on the safety awards in the May/June issue of West Virginia Construction News.

Building Division
Greater Than 100,000 Manhours: Brewer & Company of West Virginia
Greater Than 50,000 Manhours: BBL Carlton, LLC
Less Than 50,000 Manhours: Paramount Builders, LLC

Utility Division
Greater Than 100,000 Manhours: Applied Construction Solutions
Greater Than 50,000 Manhours: Famco, Inc.
Less Than 50,000 Manhours: Alvarez Contractors, Inc.

Highway Division

Greater Than 100,000 Manhours: Orders Construction Company, Inc.
Greater Than 50,000 Manhours: J.F. Allen Company

Industrial Division

Greater Than 200,000 Manhours: IVS Hydro, Inc.
Greater Than 100,000 Manhours: Tri-State Roofing & Sheet Metal, Poca Branch
Less Than 50,000 Manhours: Trimble Engineers & Constructors, Inc.

Specialty Contractor

Greater Than 50,000 Manhours: Tri-State Roofing & Sheet Metal of Ohio
Less Than 50,000 Manhours: Massie Reclamation, Inc.

Associate Division

Greater Than 200,000 Manhours: Greer Industries
Greater Than 150,000 Manhours: Potesta & Associates
Greater Than 100,000 Manhours: Precision Pump & Valve Service

2017 CAWV SCHOLARSHIP FOUNDATION AWARDS $17,500 TO FURTHER CAREERS IN CONSTRUCTION

The 2017 scholarship award winner, Daniel Craigo, was recently announced at the CAWV State Meeting in conjunction with the West Virginia EXPO. The civil engineering student from Marshall University was awarded $6,000. “Craigo is a non-traditional student who originally went to Marshall in 2005 in pursuit of an Associate Degree in Building Construction that was offered through the community college program. After he changed his major and eventually left school to work full time, Craigo took seven years off from college in which time he got married and had two children. “With the support of my family I have been able to pursue my goal of obtaining my engineering degree at Marshall.” Daniel said during his acceptance speech. “I can’t tell you how much this scholarship will help me achieve that goal. I want you to know that when I graduate, I will stay in West Virginia and make an impact on the construction industry for the state.”

In addition to Daniel, the Foundation presented eight other scholarships totaling $9,500. Students receiving scholarship awards were: Dakota Smith, WVU Institute of Technology; Kathleen McDiffitt, Fairmont State University; Joshua Workman, WVU Institute of Technology; Caleb Mitchell, Marshall University; Brett Settles, Bluefield State College; Ben Costello, Fairmont State University; Michael Daetwyler, Fairmont State University; and Eric Starliper, West Virginia University.

Members who would like to contact this year’s scholarship winners about summer employment opportunities can call the CAWV for more information at (304) 342-1166. Look for a complete story on the scholarship awards in the May/June issue of West Virginia Construction News.
**CYNTHIA SNYDER MEMORIAL CAWV BLOOD DRIVE SUCCESSFUL FOR FIFTH YEAR**

The Cynthia Snyder Memorial Blood Drive held on March 22 and 23rd in conjunction with WV EXPO was again a successful event this year. This was the fifth year that CAWV has hosted the two day event. The ten drives have produced 368 units for the American Red Cross. This year we had 70 possible time slots available and 57 units were received. We would like to thank the staff of BB&T Carson Insurance for providing volunteers again this year to assist with the blood drive. Thanks to our members, vendors, presenters and the public for their participation.

**CAWV CONGRESSIONAL FLY-IN SCHEDULED FOR MAY 18**

The 29th annual CAWV Congressional Fly-In will be held Thursday, May 18. President C.R. Neighborgall will lead the CAWV delegation to Washington, D. C. to meet with West Virginia’s congressional delegation on issues critical to the construction industry. “It is important that our senators and representatives see us in their offices, meeting with them face-to-face, to discuss the issues that are important to our members,” said President Neighborgall. Members are welcome to attend the fly-in. For additional information, contact Mike Clowser at (304) 342-1166 or mclowser@cawv.org.

**SAVE THE DATE: ANNUAL CAWV SCHOLARSHIP GOLF OUTING JUNE 2**

The annual CAWV Scholarship Golf Outing will be held Friday, June 2, at Berry Hills Country Club in Charleston. We are limited to 20 "Sixsomes" for both the 7:30 a.m. and 1:30 p.m. starting times. For morning golfers, a luncheon will be held immediately after play. For the afternoon golfers, dinner will be held immediately after play. Awards will be presented at the luncheon for the morning flight and at dinner for the afternoon flight. All proceeds from the golf outing benefit the CAWV Scholarship Foundation. More information will be available to members in future Newsletters.

**SAVE THE DATE: ANNUAL CAWV ANNUAL MEETING JULY 13-16**

The CAWV Annual Meeting will be held July 13-16 at The Greenbrier. The meeting will feature a golf tournament, trap / fishing tournament, children's program, culinary demonstration and brunch, in addition to all the amenities offered at The Greenbrier. More information will be available to members in future Newsletters.

**WVCN ON MEMBERS’ DESKS NEXT WEEK**

The January/February issue of *West Virginia Construction News* will arrive on members’ desk next week. This issue features an article on the 2016 TRIP report which found that West Virginia road conditions continue to decline. Also included is an article on the recent national bridge report that ranks the state’s bridges fifth worst in the nation, an economic analysis of West Virginia's construction economy by Brian Lego of the Bureau of Economic Research at WVU, the 2016 CAWV Annual Report, as well as a CAWV Associate Member Highlight. Construction Briefs, Members in the News and a list of new CAWV members round out the latest issue. Members can also view the publication online at [www.cawv.org](http://www.cawv.org) or by clicking here.

WVCN Professional Directory ad space is still available. For a yearly cost of $195 for 1” or $390 for 2”, ads are distributed in all six issues of the magazine to state and federal contracting
agencies, legislators, contractors, subcontractors and suppliers. Contact Cassidy Webb at cwebb@cawv.org or (304) 342-1166.

HOUSE APPROVES SOUTH CHARLESTON TAX/DEVELOPMENT PLAN

Without a lot of debate, the House of Delegates voted overwhelmingly this week to approve H.B. 2709, a tax increment financing (TIF) plan meant to help the City of South Charleston encourage development along Corridor G. A TIF District is a specially-designated area that allows the tax money from that area to be reinvested in the community.

In this case, the South Charleston Park Place Economic Opportunity Development District would largely be located on 80 acres just off the MacCorkle Avenue exit off Interstate 64 at the old FMC Fly Ash Pond. The project would be a $150 million investment and would be paid for by the taxes of new businesses brought into the City of South Charleston. The city is working with developers to make the area a shopping complex. Taxes generated from the new development could finance $155 million in public improvement projects, which could spin off to up to $200 million in private development.

The projects listed in the city’s application to the state include a new community center, a new school to be built at the regional technology park, helping the state pay for the Jefferson Road improvement project, an access road to the Trace Fork Shopping Center and other projects.

ROOF REPLACEMENTS, OHIO COUNTY SCHOOLS

Bids will be accepted until at 10:00 AM on 4/13/2017 for roof replacements designated areas at Middle Creek Elementary, Bethlehem Elementary, Madison Elementary, and West Liberty Elementary schools for Ohio County Board of Education. A mandatory pre-bid meeting will be held on 4/6/2017 at 10:00 AM at Middle Creek Elementary School, 579 Middle Creek Road, Triadelphia, WV 26059. Bids are to be submitted to Ohio County Board of Education, 2203 National Road, Wheeling, WV 26003. For additional information contact Ohio County Board of Education, Operations Center, 280 Fulton Street, Wheeling, WV 26003, (304) 243-0431.

ENVELOPE CORRECTIONS, TYLER CONSOLIDATED MIDDLE/ HIGH SCHOOL

Bids will be accepted until 1:00 PM on 4/26/2017 for selective corrections to roofing, masonry, miscellaneous steel, and sheet metal drainage systems at Tyler Consolidated Middle / High School, Middleboune, WV. Bids should be submitted to Tyler County Board of Education, Administrative Offices, 114 Dodd Street, Middleboune, WV 26149. A mandatory pre-bid meeting will be held at 114 Dodd Street, Middleboune at 1:00 PM on 4/5/2017. Plans and specifications are available from McKinley & Associates, Architects and Engineers, The Maxwell Center, Suited 100, 32- 2oth Street, Wheeling, WV 26003, (304) 233-0140. APRIL IS NATIONAL SAFE DIGGING MONTH- SPREAD THE WORD

This April marks the ninth annual National Safe Digging Month. WVUCA is reminding contractors to always contact Miss Utility of West Virginia before beginning any digging project. National Safe Digging Month is formally recognized by the U.S. House of Representatives and Senate and has traditionally earned the support from more than 40 state governors across the country.

When calling 811 (or 1-800-245-4848), contractors are connected to Miss Utility of West Virginia, the one-call center, which notifies the appropriate utility companies of their intent to dig. Locate tickets can also be submitted electronically through www.muwv.org. Professional locators are then sent to the requested digging site to mark the approximate locations of underground lines with flags, paint or both.

A utility line is damaged by digging once every three minutes nationwide, and one-third of these incidents are caused by failure of the professional excavator or homeowner to call 811 before beginning their digging project.

The Common Ground Alliance’s (CGA) 1,400 members have proclaimed April as National Safe Digging Month as a way to bring extra attention to the issue and reduce the risk of unnecessary infrastructure damage.

As part of National Safe Digging Month, CGA and WVUCA encourages homeowners and contractors to take the following steps when planning a digging project this spring:

1. Always call 811 a few days before digging, regardless of the depth or familiarity with the property.
2. Plan ahead. Call on Monday or Tuesday for work planned for an upcoming weekend, providing ample time for the approximate location of lines to be marked.
3. Confirm with your local one call center that all lines have been marked.
4. Learn what the various colors of paint and flags represent at www.call811.com/faqs.
5. Consider moving the location of your project if it is near utility line markings.
6. Don’t allow work to begin if the lines aren’t marked.

The Common Ground Alliance is a member-driven association of nearly 1,400 individuals, organizations and sponsors in every facet of the underground utility industry. Established in 2000, CGA is committed to saving lives and preventing damage to underground infrastructure by promoting effective damage prevention practices. CGA has established itself as the leading organization in an effort to reduce damages to underground facilities in North America through shared responsibility among all stakeholders. For more information, visit CGA on the web at www.commongroundalliance.com.

Contact the CAWV at (304)342-1166 for assistance with your safety program.

The Associated General Contractors (AGC) of America is collaborating with ClickSafety, an OSHA-authorized provider, to deliver a wide range of construction related safety courses online for members at a 10% discount. To view the full course catalog, and for information on ordering, visit: www.cawv.org then click on the Safety link.
CONGRESSIONAL DEMOCRATS PREPARE BILLS IN ANTICIPATION OF TRUMP ADMINISTRATIONS $1 TRILLION INFRASTRUCTURE PACKAGE

In preparation of the Trump Administration’s $1 trillion infrastructure proposal that is anticipated to be addressed prior to Congress’s summer recess this August, the Clean Water Coalition, of which West Virginia Utility Contractors Association is a member, have been working with House Transportation and Infrastructure Committee Ranking Member Congressman Peter DeFazio (D-OR), on a water infrastructure bill. Considered a marker bill to establish minority party priorities, the bill contain a number of Coalition priorities, in bold below.

• Authorizes $20 billion in Federal grants over five years to capitalize Clean Water State Revolving Funds (“Clean Water SRFs”). These funds provide low-interest loans and additional loan subsidizations (e.g., principal forgiveness and negative interest loans) to communities for wastewater infrastructure.

• Authorizes $1.5 billion over five years for grants for State water pollution control agencies to implement State water pollution control programs.

• Provides $600 million over five years for Clean Water pilot programs (including Federal technical assistance and/or grants) for watershed-based or system-wide efforts to address wet weather discharges, to promote stormwater best management practices, to undertake integrated water resource management, and to increase the resiliency of treatment works to natural or man-made disasters.

• Authorizes technical assistance to rural, small, and tribal communities to assist them in gaining access to financing wastewater infrastructure.

• Includes economic incentives to encourage the adoption of energy- and water-efficient technologies and practices to maximize the potential for efficient water use, reuse, and conservation, and energy conservation, and realize the potential corresponding cost-savings for water treatment.

Title II – Grants

• Authorizes $2.5 billion over five years for grants to address combined and sanitary sewer overflows and recapture and reuse of municipal stormwater under section 221 of the Clean Water Act.

• Authorizes $375 million in grants over five years for alternative water source projects under section 220 of the Clean Water Act, including projects that reuse wastewater and stormwater to augment the existing sources of water.

In addition to Congressman DeFazio’s bill, Congressman Blumenauer (D-OR) and Congressman John Duncan (R-TN) will be introducing a voluntary fee/labeling trust fund bill. The measure is similar to the fee/labeling bill that moved through the Senate last year but was
dropped during the Conference deliberation on the WRDA reauthorization bill. This year’s legislation differs from last year’s bill in that the revenue is allocated 50% for the Clean Water SRF and 50% for the Drinking Water SRF. The prior year’s measure funded the Clean Water SRF at 85% and the Drinking Water SRF at 15%. Senator Cory Booker (D-NJ) has agreed to sponsor the bill in the Senate. Coalition representatives will continue to work with the House Transportation and Infrastructure Committee representatives on the bills.
HIGHWAY CONTRACTS FOR MARCH 2017

The following is the WVDOH Monthly Project Letting Data for January 1 – March 31, 2017. For the complete listing of project data, dating back to 2000, log onto the CAWV website at www.cawv.org, click Newsletter and then WVDOH letting data.

WVDOT, GOVERNOR’S OFFICE HOLDING CONSTRUCTION JOB FAIR

The West Virginia Department of Transportation and the Governor’s Office will be hosting a Construction Job Fair, which will be held May 24 at The Prosperity Center, Goodwill Industries of Kanawha Valley, Inc., Charleston, WV. Contractor members are invited to exhibit. The fair offers contractors who are interested in hiring workers now or in the future the opportunity to meet candidates, accept applications and the option for interviews. An exhibitor registration form is attached to this week’s Heavy / Highway Bulletin. Forty (40) spaces are available on a first come - first serve basis. Deadline to RSVP is May 10, 2017. Additional information is available from Monica Tharp, Goodwill Industries of Kanawha Valley, at (304) 346-0811 ext. 1053.

The job fair is a proactive campaign to help contractors and the WVDOH prepare for a large highway construction program generated at the federal level by President Trump’s infrastructure bill and/or Governor Justice’s package of state road fund revenue enhancements and bonding programs. CAWV members are encouraged to participate in the event.
HOUSE INTRODUCES AGC-SUPPORTED GAS TAX BILL

This week, the top Democrat on the House Committee on Transportation & Infrastructure, Peter DeFazio (Ore), introduced the AGC-supported *Investing in America: A Penny for Progress Act*, which would provide approximately $500 billion – a 30 percent increase – in infrastructure investment for federal surface transportation programs. The bill finances these investments by authorizing Invest in America 30-year Treasury bonds, annually, through 2030. The bonds will be repaid through indexing federal gas and diesel taxes to the National Construction Cost Index and reduced motor fuel usage for the Corporate Average Fuel Economy (CAFE) standards. According to Rep DeFazio’s office, the bill is estimated to raise the gas and diesel takes by approximately 1 cent per year and includes a hard cap of 1.5 cents per year. While AGC supports Rep DeFazio’s legislation, which addresses the nation’s surface transportation needs through 2030, the association will continue to focus its efforts on providing a permanent solution for the chronic Highway Trust Fund shortfall.

SAVE THE DATE: ASPHALT PAVEMENT ASSOCIATION ANNUAL MEETING SEPTEMBER 21-24

The Asphalt Pavement Association of WV (APAWV) will be holding their 37th Annual Meeting at the Canaan Valley Resort September 21-24, 2017. The program will feature two business sessions, Prayer Breakfast, golf tournaments and family oriented entertainment. More information on the meeting will be available in future Heavy/Highway Bulletins.
