GOV. JUSTICE ANNOUNCES HISTORIC REVENUE COLLECTIONS; OFFICIALS CREDIT CONSTRUCTION ACTIVITY GROWTH IN FIGURES

Gov. Jim Justice announced Tuesday that the state's revenue collections for July were the highest in a decade and that the state ended the 2018 fiscal year with a slightly higher surplus than previously announced. The state brought in \$32.4 million more for its coffers last month than revenue estimates, meaning the month's collections saw 24 percent growth compared to July 2017. State budget officials said the highest area of growth came from personal income taxes.

Gov. Justice said the state ended the 2018 fiscal year June 30 with a \$36 million surplus. That was the first time the state ended the fiscal year with a surplus without needing mid-year budget cuts in the past decade. Revenue collections for July show a 24.1 percent growth rate, the highest for July collections since 2011. There were three key areas for the growth: Consumer sales taxes, personal income taxes and severance taxes. Consumer sales tax collections for July brought in \$87.1 million. That is about \$8.9 million above estimates and \$21.8 million (or roughly 33 percent) above the previous year's receipts.

Personal income tax collections for July brought in \$145.5 million. That is about \$10 million above estimates and \$17.3 million (or roughly 13.5 percent) above the previous year's receipt. Jobs in the private sector grew about a percent, according to data from Workforce WV.

"Personal income tax is an extremely important point when you're trying to measure the economic health of the state, because that means that people are working and are having their taxes withheld," Revenue Secretary Dave Hardy said.

For the final quarter of fiscal year 2018, personal income tax withholding grew about 9 percent. Severance taxes that go to the General Revenue Fund were \$13.5 million above estimates, and total severance tax collections were up 66 percent. Deputy Revenue Secretary Mark Muchow said the state saw its coal exports nearly quadruple, from \$1.1 billion to about \$4 billion. "The initial spark that lit the fire was energy," Muchow said in an interview. "It lit the fire and started things off. Now we're beginning to see a broader level of activity."

Muchow said there has been an increase in construction jobs, road building projects and larger than expected growth at the Proctor and Gamble Center near Martinsburg.

PROGRAM COMMITTEE RELEASES 2019 CAWV MIDYEAR MEETING REGISTRATION

The CAWV Program Committee has sent to members registration information for the 2019 CAWV Midyear Meeting, which will be held February 8-13, 2019 at the Westin Grand Cayman Seven Mile Beach Resort & Spa.

“Grand Cayman has always been a favorite location for our meeting,” said CAWV Program Committee Chairman Jamie Ridgeway, March-Westin, Inc. “We have never used the Westin Resort, but we are impressed by the recently completed \$50 million renovation and upgrading project on the property. The hotel, which is directly on the beach, improved its meeting and convention facilities as well as its rooms and recreational areas.”

The early-bird cutoff is September 28. Since February is the height of Grand Cayman’s tourist season, members are strongly encouraged to register early. The CAWV host hotel for the 2013 Midyear Meeting in Caymans quickly sold out and members were unable to get rooms.

“We expect an excellent turnout for the upcoming meeting,” Chairman Ridgeway commented. “I encourage all members to join us for what will be an informative and enjoyable meeting.” For a complete registration packet, visit <http://www.cawv.org/events/midyear-meeting.html>.

GREAT RESPONSE FOR 2018-2019 COMMITTEE SIGNUPS

The CAWV’s committees and task forces are the driving forces in addressing many of the issues affecting CAWV members and the contracting industry. President Roger Thomas is currently seeking volunteers to participate. The sign-up form is attached to this week’s Newsletter. **Members are urged to print the form and pass out copies to their employees who would like to participate.** Committee functions are included on the form to assist members in deciding which committee to serve on. If you have questions about the committees or task forces, please contact Pat McDonald for details at (304) 342-1166 or email pmcdonald@cawv.org.

HOUSE OF DELEGATES TO CONSIDER ARTICLES OF IMPEACHMENT AGAINST SUPREME COURT MEMBERS MONDAY

The House of Delegates Judiciary Committee has announced it has drafted articles of impeachment against all four justices remaining on the state Supreme Court. There are 14 articles in all, although not all of the justices are named in every article. The articles against justices Allen Loughry, Margaret Workman, Robin Jean Davis and Beth Walker now go to the full committee for a vote.

The committee cannot impeach former Justice Menis Ketchum, who resigned from the court in July. Ketchum recently agreed to plead guilty in U.S. District Court in Charleston to a single charge of misusing state vehicles. Suspended Justice Allen Loughry is facing a 23-count federal indictment alleging he misused state vehicles, took home state property, lied to federal officials and attempted to commit witness tampering.

The House of Delegates will convene Monday to hear a presentation of the articles of impeachment. The House will then vote on whether to present the articles to the state Senate to conduct a trial. A 2/3 vote in the House is required to proceed with impeachment, and a 2/3 vote in the Senate is required to impeach the justices. House Judiciary Committee Chairman John Shott, R-Mercer, said he was confident the Judiciary Committee had collected enough evidence to convince the Senate.

Hoppy Kercheval of WV Metronews’ *Talkline* wrote Thursday, “Some have called the events “historic,” and that is accurate. Nothing like this has ever happened in West Virginia, and perhaps not even in the country.

House Judiciary Committee ranking Democrat Barbara Fleischauer said, "If we're talking about overturning the entire court, that's monumental." That is defined as "of historical or enduring significance," and that applies.

The word sad has also been used frequently. House Judiciary Committee Chairman John Shott said Monday after a nine-hour hearing on the articles of impeachment, "It's really a sad day for the state, and nobody should be celebrating."

EXPO TO CELEBRATE 40TH ANNUAL SHOW - SAVE THE DATES MARCH 20-21, 2019

The 40th annual West Virginia Construction & Design Exposition (EXPO) will be held March 20-21, 2019, at the Charleston Civic Center. The CAWV encourages all members to participate in the milestone event as an exhibitor, honor exhibitor (non-displaying participant), sponsor, advertiser, or attendee. Exhibitor space sold out at the 2018 show, which attracted over 4,300 industry professionals. Exciting plans are underway for this year's show which will feature new sponsorships, a demonstration area, and the completion of the Civic Center's \$100 million renovation and addition project. Sales are set to open September 1. For more information, contact Show Manager Cassidy Webb at (304) 342-EXPO or email cwebb@wvexpo.com.

**CAWV 2018-2019
COMMITTEE APPOINTMENT**

I am glad to accept an appointment to a Chapter Committee. Please rank committee preference with numerals (1) (2) (3).

Education

Promote interest and develop programs for construction education at all levels.

Joint Architects

Contractors work with architects, building owners, and funding agencies to ensure and improve construction procedures and programs.

Joint Concrete

Work with WVDOH & FHWA to ensure and improve concrete construction procedures on highway projects/ programs.

Joint Cooperative

Work with WVDOH & FHWA to ensure and improve construction procedures on highway projects/programs.

Joint Cooperative Sub Committees

- _____ Asphalt
- _____ Concrete
- _____ Construction
- _____ Publications
- _____ Specifications
- _____ Utility

Joint Utilities

Work with Engineers, suppliers, regulatory and funding agencies to ensure and improve utility construction in WV.

Legislative

To review, monitor and promote necessary legislative activities of the CAWV

Membership

Monitor and recommend action on the recruitment of new members and the retention of current members.

Program

Research/recommend meeting locations as well as to develop program and meeting activities.

Public Relations

Improve CAWV and construction industry's image as well as increase public education.

Safety

To improve construction industry performance through prevention and effective safety programs.

Young Contractors

To provide guidance knowledge to future leaders of the construction industry.

PLEASE SHARE THIS WITH EVERYONE IN YOUR ORGANIZATION

The following standing committees are appointed by the President and/or By Laws:
Budget & Finance, Executive and Strategic Planning

Name _____

Company _____

Address _____

City _____ State _____ Zip _____

Phone _____ Email _____

August 10, 2018

VALUE ADDED SAFETY = JOB SAFETY ANALYSIS

One sure fire way to reduce job site accidents and employee injuries: Use a Pre-job Safety Analysis Program (JSA)

Don't let the term job safety analysis intimidate you. A Job Site Safety Analysis, as it is more commonly referred a JSA, is really quite simple to develop and use.

What is a JSA? Its a plan used to identify hazards associated with any job task performed by workers. In addition, the JSA will include what safety precautions will be put in place to eliminate those hazards.

A JSA is a written document and a living instrument to help every person associated with the job task to know what hazards that specific job task entails and what needs to be done to avoid the hazard(s).

A JSA is a training tool. Once the JSA is completely documented it should be the superintendent or foreman's responsibility to review it frequently with the workers in the crew. It's signed and dated to confirm the instruction was given and the work crew signs it as well.

A JSA used properly can satisfy many OSHA requirements for safety refresher training on various topics and proving to OSHA that supervisor/foremen are charged with responsibility for the safety of their workers. A JSA is also a great tool for safety mangers to use to complement daily inspection requirements.

A JSA is a proven production tool. Things that are many times overlooked from a production standpoint are brought to the surface during the frequent review of JSA's. Once a supervisor sees the benefits of a JSA in action it will not be viewed as, "just another safety thing." Scheduling delays, engineering problems, craft overlaps, and a host of other production problems can be identified early on, giving the supervisor an opportunity to make adjustments before they cost money.

How can a JSA be considered a "VALUE ADDED" feature to a construction company?

- | | |
|---|--|
| 1) Reduce Accidents | 7) Comply with OSHA Standards |
| 2) Eliminate Employee Injuries | 8) Avoid Scheduling Delays |
| 3) Lower Workers Comp. Costs | 9) Reduce Lost Production Time |
| 4) Reduce Potential Civil Injury Suites | 10) Avoid Job Slow Downs from Accidents |
| 5) Increase Employee Morale | 11) Avoid Accident Investigations |
| 6) Reduce OSHA Inspections | 12) Be listed as a Preferred Contractor by Clients |

Contact the CAWV for help with safety issues at (304)342-1166.

TURNPIKE BOND SALE TO CLOSE NEXT WEEK

The West Virginia Parkways Authority is on the verge of selling \$172 million in bonds to finance construction of highways and bridges in 10 southern West Virginia counties. The bond sale closes next Tuesday, according to Parkways Authority General Manager Greg Barr. “The pricing of the bonds took place last week where they basically took orders and there was a huge demand for the bonds,” Barr told MetroNews. “That helped the Parkways Authority and the state of West Virginia to keep the rates down a little bit.”

The Parkways Authority voted earlier this year to double tolls, going from \$2 to \$4 for passenger vehicles and doubling for the various commercial classes. Existing EZ pass discounts will remain in place. The changes take effect Jan. 1, 2019. The funds will transfer and we’ll be able to make that \$172 million deposit in the state road construction account to help those projects in southern West Virginia, according to Barr.

The first projects are an update to state Route 10 in Logan, Wyoming and McDowell counties and work on a 3.8-mile extension road to the so-called “Bridge to Nowhere” on the King Coal Highway in Mercer County. The money from the rest of the toll increase will finance other projects and the operation of the 88-mile toll road. The program is expected to bring in about \$25 million in additional revenue a year. “These (bonds) have the full pledge of the Parkway Authority’s toll revenues. So that’s what secures the debt and that’s what our bonds are rated on, our ability to continue to collect those tolls,” Barr said.

HOW TO DO BUSINESS WITH DOH & HIGHWAY CONTRACTORS WORKSHOP TO BE HELD AUGUST 23

A free workshop will be held on Thursday, August 23 from 1:00 P to 4:00 PM at the Valley Park Conference Center, 1 Valley Park Drive, Hurricane. The workshop is being provided by Robert C. Byrd Institute, WVDOH, Advantage Valley and CAWV. This workshop will allow local companies to learn about opportunities in materials, services, supplies and commodities required for the day-to-day operation of the West Virginia Division of Highways and the opportunities that exist under the state's massive road bond program. Gain an understanding of the buying process for the transportation infrastructure industry from both state government and highway contractors. For additional information contact Amanda Wyatt at (304) 781-1668 or email dperdue@rcbi.org. Members can obtain a registration form by [clicking here](#) and obtain a tentative agenda by [clicking here](#).

WVDOH FOCUSING ON SECONDARY ROADS WITH PO PAVING

The WVDOH has decided to focus additional resources on secondary road paving that will be delivered primarily by Purchase Order (PO). The WVDOH wants these projects to be completed in a very timely manner and has accordingly begun extending completion dates on contract lettings. They will also consider extending completion dates on select projects already under contract but not yet started. The department recognizes that this should help industry focus their limited resources on these PO paving projects. The first \$15 million wave of PO’s issued by the

department will reportedly begin immediately and be followed by another \$15 million in the near future. Plans for additional work are being evaluated. Please feel free to contact Pat Parsons or Mike Clowser at (304) 342-1166 with any questions or comments.

U.S. SENATE BILL PROVIDES GRANT MONEY FOR OHIO TRANSPORTATION PROJECTS

The U.S. Senate took action this week to send millions of dollars to Ohio for transportation and infrastructure projects. Sen. Sherrod Brown (D-Ohio) announced the bill's passage in a news release Wednesday afternoon. The Transportation, Housing and Urban Development appropriations bill included \$94 million for improving Ohio's roads and bridges, and \$9.3 million toward Ohio's public transit systems. The bill also includes roughly \$1 billion in new funds toward the Transportation and Infrastructure Generating Economic Recovery (TIGER) Grant program. Hamilton County and the city of Cincinnati have applied for numerous TIGER grants over the last decade for projects like the Western Hills Viaduct, the Wasson Way mixed-use trail project, and the streetcar.

THIRD SET OF 2018 CAWV/WVDOH TECHNICIAN AND INSPECTOR COURSES ADDED

The CAWV is pleased to announce that due to demand a third set of Technician Certification Training Courses has been added to the training schedule. The courses, which are offered annually to help individuals prepare for WVDOH certification examinations required under their Quality Assurance Program, have seen greater demand this year due to the passage of the "Roads to Prosperity Bond Amendment". Thousands of individuals have attended courses in Compaction, Aggregates, Asphalt and Portland Cement Concrete over the last several years. Test comparisons prove that those persons who attend the CAWV/WVDOH courses have a higher success rate for passing the exams.

* **NEW FOR 2018:** All certification testing has been moved to an online format that will require the attendee to have a laptop, tablet or iPad type device to take the test. The use of smart phones during the test is prohibited.

CLASS

TRAINING DATES

Soil and Aggregate Compaction Inspector *(see note below)*

September 24-28, 2018

This certification will only include soil and aggregate Inspector certification. If you need to test asphalt compaction, you will need to take the Asphalt Field Technician course.

Aggregate Inspector

October 1-5, 2018

Asphalt Field Technician *(see note below)*

October 9-12, 2018

A certified Asphalt Field Technician is now required on all paving projects. This course is also required to test Asphalt Compaction.

PCC *(Combined Courses- see form #4)*

October 15-19, 2018

Portland Cement Concrete Technician and Inspector- This course will have a test for PCC Technician and a separate test PCC Inspector. This is a great opportunity to get both certifications in one week.

Asphalt Plant Technician *(*Note Location Change Below)*

October 22-26, 2018

All of these courses will be held at the WVDOH Materials Division Headquarters in Charleston located at 190 Dry Branch Drive, Charleston. See forms for registration and lodging information.

For more information, contact Pat McDonald at (304)342-1166 or e-mail pmcdonald@cawv.org. Registration forms are on the CAWV website at <http://www.cawv.org/events/tech-schools.html>.

APAWV FALL MEETING AT CANAAN VALLEY RESORT STATE PARK

The asphalt paving industry will return to Canaan Valley Resort State Park on September 27-30, 2018 for their 38th Annual Fall Meeting. The family-oriented meeting features business sessions, evening banquets and entertainment, a Saturday kid's program, and a Sunday prayer breakfast. For more information, including hotel and registration info, [click here](#). Please note that August 28 is the cut-off date for conference room rates. Information is also available at www.asphaltwv.com or by contacting Cheryl Clark at (304) 342-1166.

MILLING/ PAVING, CITY OF WELLSBURG, BROOKE COUNTY

Bids will be accepted until 12:00 PM on 8/23/2018 for milling and paving, City of Wellsburg, Brooke County, West Virginia.
