HIGHWAY FUNDING BILL AT STANDSTILL

At press time, S.B. 610, a bill to provide $100 million in state road fund revenues, is at a standstill and is close to being lost for this legislative session. In a meeting with the bill’s sponsors and Senate leadership, a lobbying group opposed increases in an increase in Division of Motor Vehicles registration fees and changes in the privilege tax on vehicles. After discussion with Senate leadership, the DMV fees and Privilege tax provisions of the bill were removed. GO-MART today came out in opposition to the diesel fuel tax increase even though the West Virginia Trucking Association has gone on record in support of a 5-cent gas tax increase.

At press time, the Senate Finance Committee is discussing S.B. 555 to provide a stop-gap method to restore the money lost due to the 2.5 cents per gallon drop in the wholesale gas tax. Look for the Monday, February 29, CAWV Legislative Bulletin.

PREVAILING WAGE BILL UPDATE

The West Virginia Legislature passed H.B. 4005 which repeals the state prevailing wage rate law. Members have asked how this will affect bidding on future government funded construction contracts. The bill only addresses state and locally funded projects. Projects that have federal funding will continue to use federal Davis-Bacon wage rates.

The bill was made effective 90 days from passage, which would make May 4 the last day state prevailing wage rate requirements will be in construction contracts. Since Governor Tomblin vetoed the bill and the legislative didn't override the veto until May 12, there is a question whether May 12 is the last day for state prevailing wage rates to apply. The CAWV is attempting to get an answer. Members have asked if prevailing wage rates will apply on projects advertised before the effective date but bid after the effective date. The answer is, we don't know. Always in the past, the prevailing wage rate in effective at time of advertisement of the project was the prevailing wage for the duration of the construction process. Since H.B. 4005 terminates prevailing wage, there is no precedent set. The association is seeking clarification on this as well.

Some members have questioned whether prevailing wages will apply on current projects after the May effective date. We are working on the presumption that the wage rates currently in effect will apply for the life of the contract. More information will be in future Newsletters.

CAWV STATE MEETING, MARCH 23 – SAVE THE DATE

Registration is now open for the CAWV State Meeting, being held March 23 at 7:30 a.m. at the Charleston Civic Center. Online registration is not available and the cost to attend is $35. Registered members will be invoiced. Contact Wendy Long at long@cawv.org or call (304) 342-1166 to register. Keynote speakers for the breakfast are being finalized.

The CAWV State Meeting will recognize members for excellence in their safety programs, quality concrete awards will be presented, and the CAWV Scholarship Foundation recipient will accept his or her CAWV scholarship check. Nearly 200 CAWV members and guests, along with state and
federal contracting officials, attended the meeting last year, which is held during EXPO. Immediately following the CAWV State Meeting, members can attend the Marcellus and Manufacturing Development Conference opening event titled, "A Discussion of Energy Infrastructure in Appalachia”, led by U.S. Senator Shelley Moore Capito. Members must register to attend EXPO and they can do so by visiting www.wvexpo.com. Anyone needing further information about EXPO can call Cassidy at (304) 342-3976.

CAWV/BRICKSTREET WORKERS’ COMP DISCOUNT INCREASES TO 6.3%

Contractors who are members of the CAWV/BrickStreet workers’ compensation program will see their discount increase to 6.3% percent in 2016, BrickStreet Insurance Manager of Agency Services, Lisa Teel recently announced. During the CAWV Midyear Meeting held February 12-16 in Walt Disney World in Orlando, Teel noted that the CAWV was BrickStreet’s first association plan and is one of their best programs. “Because of the great work of CAWV members in managing their safety and loss programs, members in the BrickStreet program had a reduction in loss ratio of 3% and the credit will increase to 6.3% percent in 2016,” Teel stated. Currently, there are 74 members enrolled in BrickStreet’s program, representing $4.7 million in premium.

All CAWV contractor members that have a three year loss ratio of less than 65% should contact their insurance agent to see if they qualify for the BrickStreet Program and the 6.3% discount. Anyone wishing to get information on the CAWV/BrickStreet program can contact their individual insurance agent or contact Pat McDonald at (304) 342-1166.

REGISTER NOW FOR WV EXPO 2016 – MEMBER ENCOURAGED TO ATTEND

Online registration is open for the 37th Annual West Virginia Construction and Design EXPO which will be held March 23 and 24 at the Charleston Civic Center. Members can click here to register. Over 5,000 regional decision-makers are expected to visit the more than 300 vendors. The show is open 10:00 am to 8:00 pm on Wednesday, March 23, and 8:00 am to 12:00 pm on Thursday, March 24. Booths are still available. Click here to secure your space today. Call EXPO at (304) 342-3976 or email expo@wvexpo.com with any questions.

EXPO is pleased to announce this year’s event sponsors (CAWV members are in bold).

EXPO After Hours Reception

CAWV HOSTING BLOOD DRIVE AT EXPO IN MEMORY OF CYNTHIA SNYDER

The CAWV is once again sponsoring a blood drive in memory of Cynthia Snyder on March 23 and 24 at the Charleston Civic Center in conjunction with EXPO. Cynthia, who passed in 2011, was the wife of CAWV Past President Lee Snyder. The Cynthia Snyder Memorial Blood Drive will be held from 10:00 a.m. to 4:00 p.m. on March 23 and 9:00 a.m. to 3:00 p.m. on March 24. Over 57 pints of blood were donated at last year’s EXPO. To give blood donations, walk-ins are welcome, but appointments are preferred. To schedule your appointment, click here, or contact Cheryl at (304) 342-1166.
WE EXTEND OUR SYMPATHIES

We are saddened to report that Anthony Stanchina, former President of The Friedlander Agency of Charleston, passed away February 24. He finally retired January 31st, 2015, after 50 years in the industry and business he loved. Tony was very active in the industry sitting on numerous committees. He also served on the CAWV Board of Directors. There will be a celebration of Tony's life at 1:00 p.m. March 5, 2016 at Raleigh Court Presbyterian in Roanoke with reception to follow at The Hotel Roanoke. In lieu of flowers donations may be made to Trinity Ecumenical Parrish, Moneta Virginia or The American Thoracic Society. Members can view the obituary here. The CAWV extends its sympathies to the entire Stanchina family.

WE ARE PLEASED TO WELCOME NEW MEMBERS

The following firms have been accepted into membership by the Board of Directors. Please welcome them to the CAWV, and call on them for products and services. Please cut and paste the new members into your directory.

RENOVATIONS, NITRO PUBLIC LIBRARY

Bids will be accepted until 2:00 PM on 3/16/2016 for renovations including general trades, plumbing, mechanical and electrical work at the Nitro Public Library. A mandatory pre-bid meeting will be held at 10:00 AM on 3/4/2016 at Nitro Public Library, 1700 Park Avenue, Nitro, WV 25143. Bids should be submitted to Nitro Public Library Board, 1700 Park Avenue, Nitro, WV 25143. Plans and specifications are available from Jerry Goff Architecture, 100 First Avenue, Nitro, WV 25143 (304) 722-3379.

ROOF REPLACEMENT, MARTIN LUTHER KING, JR. COMMUNITY CENTER

Bids will be accepted until 11:00 AM on 3/2/2016 for renovation and roof replacement at the city-owned community center facility, 314 Donnally Street, Charleston, WV. Bids should be submitted to City of Charleston, Shannon Milroy, 501 Virginia Street, East, 1st Floor, Charleston, WV 25301 (304)348-8014. Plans and specifications are available from City of Charleston, Shannon Milroy, 501 Virginia Street, East, 1st Floor, Charleston, WV 25301 (304)348-8014. Plans and specifications are expected in the CAWV Physical Planroom.

AIR CONDITION SYSTEMS REPLACEMENT, CHARLESTON CITY HALL

Bids will be accepted until 11:00 AM on 3/1/2016 for replacement of the air conditioning systems at City Hall. Bids should be submitted to City of Charleston, Shannon Milroy, 501 Virginia Street, East, 1st Floor, Charleston, WV 25301 (304)348-8014. Plans and specifications are available from City of Charleston, Shannon Milroy, 501 Virginia Street, East, 1st Floor, Charleston, WV 25301 (304)348-8014. Plans and specifications are expected in the CAWV Physical Planroom.

HSC EMERGENCY GENERATOR REPLACEMENT, MORGANTOWN

Bids will be accepted until 3:00 PM on 3/22/2016 for replacement of the emergency generator and necessary accessories at the WVU Health Science Center, Morgantown, WV. A pre-bid meeting will be held at 10:00 AM on 3/1/2016 at Health Science Center, Facility Management Suite, 1 Medical Center Drive, Suite G350 (G353 Conference Room, Morgantown, WV 26506. Bids should be submitted to WVU Department of Procurement, Contracting, & Payment Services, 975 Rawley Lane, PO Box 6570, Morgantown, WV 26506. For additional information contact John Sommers, Project Manager at (304) 293-2856 or email john.sommers@mail.wvu.edu and request information for RFB 90003588Z. Plans and specifications are available from McHenry & Associates Incorporated, William Hulsey, P.E., 25001 Emery Road, Suite 200, Warrensville, OH 44128 (216) 292-4696 or whulsey@mchenryassociates.com .

REFINISHING WOODEN GYM FLOORS/ RENOVATIONS, MERCER COUNTY SCHOOLS

Bids will be accepted until 11:00 AM on 3/8/2016 for renovation of an educational facility and fitness / recreation center and refinishing of gym floors in eight schools for the Mercer County
Board of Education, Princeton, West Virginia. Bids should be submitted to Mercer County Board of Education, 1403 Honaker Avenue, Princeton, WV 24740 (304)487-1551. For additional information contact Mercer County Board of Education, 1403 Honaker Avenue, Princeton, WV 24740 (304)487-1551.

REGIONAL INTERGOVERNMENTAL COUNCIL, FLOOR COVERING REPLACEMENT

Bids will be accepted until 3:00 PM on 3/1/2016 for the removal of existing floor covering and supply and installation of laminate flooring, carpet and new base cover within the offices of Regional Intergovernmental Council, South Charleston WV. Bids should be submitted to Amy Talbert, Finance Manager, 315 D Street, South Charleston, WV 25303 or email atalbert@wvregion3.org.

BUILDING 86, FLOOR COVERING REPLACEMENT, CHARLESTON

Bids will be accepted until 1:30 PM on 3/23/2016 for the removal of existing floor covering and supply and installation of approximately 8,500 SY of modular carpet tiles within the offices of Building 86, 1124 Smith Street, Charleston WV. A mandatory pre-bid meeting will be held at 10:00 AM on 3/9/2016 at WV State Office Building # 86, 1124 Smith Street, Charleston, WV 25301. Plans and specifications are available from www.wvOasis.gov and use solicitation number GSD 1600000020. For additional information contact Linda Harper at linda.b.harper@wv.gov.

ANTI LIGATURE SHOWER SYSTEM, MILDRED MITCHELL-BATEMAN HOSPITAL

Bids will be accepted until 1:30 PM on 3/29/2016 for stainless steel shower system for Mildred Mitchell-Bateman Hospital. A mandatory pre-bid meeting will be held at 10:00 AM on 3/10/2016 at Mildred Mitchell-Bateman Hospital, 1530 Norway Avenue, Building 1, Administration Conference Room, Huntington, WV 25705. Plans and specifications are available from www.wvOasis.gov and use solicitation number MMB1600000011. For additional information contact Mark A. Atkins at (304) 558-2307 or email mark.a.atkins@wv.gov.

EQUIPMENT/ SYSTEMS INSPECTIONS AND TESTING, MARTINSBURG

Proposals will be accepted until 1:30 PM on 3/29/2016 for an open-end contract for equipment and systems maintenance and repairs for the Martinsburg Correctional Center. A mandatory pre-bid meeting will be held at 10:00 AM on 3/10/2016 at the Martinsburg Correctional Center, 38 Grapevine Road, Martinsburg, WV 25405. Plans and specifications are available from www.wvOasis.gov and use solicitation number COR1600000013. For additional information contact Crystal Rink at (304) 558-2402 or email crustal.g.rink@wv.gov.

SAFETY DEFICIENCIES, VAMC, CLARKSBURG

Bids will be accepted until 4/7/2016 for corrections at the Louis A. Johnson VAMC, Clarksburg to include the construction period services to fabricate/install or alter components of an integrated fall protection system on the roofs of the Medical Center Buildings comprising of but not limited to enclosed ladders, guardrails, watertight flashing, roofing and baghouse platform. Solicitation Issue Date will be on or about 03/07/2016. A pre-bid conference/site visit will be conducted approximately one week after the solicitation is posted. Plans and specifications are available from www.fbo.gov and enter solicitation number VA244-16-B-0516. For additional information contact Alison Klein at Alison.klein@va.gov.

SURGERY RENOVATION / UPGRADE OPERATING ROOM SUITES, VAMC, HUNTINGTON
Bids will be accepted until 5/4/2016 for demolition of 6 existing surgical operating suites and construct five new expanded operating rooms, ten bed Post Anesthesia Care Unit (PACU) and Pre-Operating preparation, and ten bed Same Day Surgery, located on 3rd floor of main patient support Bldg. 1S, approximately 25,000 SF at the VAMC Huntington, 1540 Spring Valley Drive, Huntington, WV 25704. Work involves evening construction activities including but not limited to fire and safety, electrical mechanical, plumbing, architectural, miscellaneous building services specialties, equipment, casework, and new finishes. Plans and specifications are available from www.fbo.gov and enter solicitation number VA24916R0286. For additional information contact Jason Kinchen by email at Jason.kinchen@va.gov.

A/E, MONONGALIA COUNTY COURTHOUSE SQUARE RENOVATIONS

Proposals are being accepted until 10:00 AM on 3/16/2016 for professional firms for the design and planning of renovations at the Monongalia County Courthouse Square, Morgantown. Proposals should be submitted to the Monongalia County Commission, 243 High Street, 2nd Floor, Morgantown, WV 26505 For additional information contact Monongalia County Commission, 243 High Street, Morgantown, WV 26505 (304) 291-7257.

Drowsy Driving Quiz

Are you at risk for falling asleep behind the wheel? Take this simple quiz and find out. Just circle “True” or “False” for each of the following statements, and check your answers on the second page:

1. There is no relationship between one’s sleep and work schedule and risk of being involved in a drowsy-driving crash. (True or False)

2. Working the night shift does not affect one’s chances of being involved in a sleep-related crash. (True or False)

3. The largest at-risk group for sleep-related crashes is commercial drivers. (True or False)

4. Overall, sleep-related crashes have certain characteristics that set them apart from other types of crashes. (True or False)

5. People with a sleep and breathing disorder called obstructive sleep apnea have about the same risk as the rest of the general population of being involved in a drowsy-driving crash. (True or False)

6. Eating a big lunch tends to make everyone sleep. (True or False)

7. People can usually tell when they are going to fall asleep. (True or False)

8. Drivers in drowsy-driving crashes are more likely to report sleep problems. (True or False)

9. Rolling down a window or singing along with the radio while driving will help keep someone awake. (True or False)

10. Wandering, disconnected thoughts are a warning sign of driver fatigue. (True or False)

11. You can stockpile sleep on the weekends to avoid being sleepy during the week. (True or False)

12. I’m a safe driver so it doesn’t matter if I’m sleepy. (True or False)
Answers

1. **FALSE.** Studies have found a direct correlation between the numbers of hours a person works and their risk of being in a drowsy driving crash. People who work more than one job where their primary job involves an atypical schedule are twice as likely to be involved in a sleep-related crash when compared to people in non-sleep related crashes.

2. **FALSE.** According to a study by the AAA Foundation for Traffic Safety, working the night shift increases a person’s risk of being involved in drowsy driving crash by nearly six times.

3. **FALSE.** Sleep-related crashes are most common in young people, who tend to stay up late, sleep too little, and drive at night. One study found that in 55 percent of sleep-related crashes, drivers were age 25 years or younger and were predominantly men. Another study found almost one-third of commercial drivers have some degree of sleep apnea.

4. **TRUE.** Research has provided a good picture of the common characteristics of drowsy-driving crashes, which tend to occur at night or in mid-afternoon, involve a single vehicle running off the roadway, lack any evidence of braking, and involve a young male driving alone.

5. **FALSE.** Sleep apnea is a condition in which a person’s airway collapses many times to halt breathing until the person briefly awakens. The most common signs of sleep apnea are loud, irregular snoring, and excessive daytime sleepiness. Studies indicate that persons with untreated sleep apnea have two to seven times more crashes than people without the disorder. Studies also show that once treated, most patients can be safe drivers once again.

6. **FALSE.** Things such as heavy meals, warm rooms, and long drives only unmask the presence of sleep deprivation or sleep debt; they do not cause sleepiness.

7. **FALSE.** Sleep is not voluntary. If you’re tired, you can fall asleep and never know it. When driving at 60 miles per hour and fall asleep for a few seconds (a microsleep), you can travel up to the length of a football field without any control of your vehicle.

8. **TRUE.** According to studies, drivers in fatigue-related crashes were more likely to report problems sleeping prior to a crash than drivers in other non-sleep crashes.

9. **FALSE.** An open window or music has no lasting effect on a person’s ability to stay awake. In fact, they may mask the person’s lack of alertness further.

10. **TRUE.** If you are driving and your thoughts begin to wander, it is time to pull over and take a short nap, consume some caffeine, or stop driving for the day.

11. **FALSE.** Sleep is not money. You can’t store up sleep to borrow it later on. But, just as with money, you can go into debt.

12. **FALSE.** The only safe driver is an alert driver. Even the safest drivers become confused and use poor judgment when they are sleepy. In addition, alcohol makes fatigue much worse. One drink has the same effect on a tired driver as four or five drinks for a well-rested person.

Contact the CAWV at (304) 342-1166 for assistance with the safety program.
FUEL FARM EQUIPMENT INSTALLATION, MINGO COUNTY AIRPORT

Bids will be accepted by the Mingo County Airport Authority, Appalachian Regional Airport until 1:30 PM on 3/23/2016 for installation of a self-service aviation fueling system at the Appalachian Regional Airport, Varney, WV. The fueling system shall consist of packaged fuel (aviation gasoline and Jet-A) dispensing units combining fuel storage and pumping systems mounted on an existing concrete pad with pumping systems arranged for direct dispensing by the customer to the aircraft and with one customer interface terminal with displays for payments and fuel management. The Jet-A system shall include a 10,000 gallon UL 142 above-ground double wall 10-foot diameter steel tank with a 200 GPM pumping capacity. The aviation gasoline system shall include a 6,000 gallon UL 142 above-ground double wall 8-foot diameter steel tank with a 150 GPM pumping capacity. The systems shall be compatible with all common credit cards and owner-issued charge cards. Bids should be submitted to Mingo County Airport Authority, Appalachian Regional Airport, c/o Mingo County Commission, 75 East Second Avenue, Room 334, Williamson, WV 25661. Plans and specifications are available from Chapman Technical Group, 43 East Main Street, Buckhannon, WV 26201 (304)472-8914. Plans are expected in the CAWV Physical Planroom.

FUEL FARM ELECTRICAL SYSTEM INSTALLATION, MINGO COUNTY AIRPORT

Bids will be accepted by the Mingo County Airport Authority, Appalachian Regional Airport until 2:00 PM on 3/23/2016 for installation of new circuits from the existing airfield electrical building to the aviation fueling system, installation of a rotary phase convertor to provide 3-phase electrical service for part of the equipment and re-configuring the interior of the electrical building by installation of new panelboards at the Appalachian Regional Airport, Varney, WV. Bids should be submitted to Mingo County Airport Authority, Appalachian Regional Airport, c/o Mingo County Commission, 75 East Second Avenue, Room 334, Williamson, WV 25661. A pre-bid conference will be held on 3/10/2016 at 11:00 AM at the Appalachian Regional Airport, Varney, WV. Plans and specifications are available from Chapman Technical Group, 43 East Main Street, Buckhannon, WV 26201 (304)472-8914. Plans and specifications are expected in the CAWV Physical Planroom.

NORTHERN MINERAL COUNTY REGIONAL SERVICE SYSTEM

Bids will be accepted by the Frankfort Public Service District until 1:00 PM on 3/22/2016 for sewer line replacement in Sunrise Heights, Sherwood Acres, Knobley Estates, and Moreland Mobile Home Park for the Northern Mineral County Regional Service System project, Short Gap, WV. Work for the sewer line replacement consist of: 6,750 LF of 8” SDR 35 PVC sewer; 2,000 LF of 6” SDR 35 PVC sewer; 13,7 LF of 8” SDR 35 replacement sewer; 8,550 LF of 6” SDR 35 PVC replacement sewer; 150 manholes; 14,500 LF of service laterals; 39 mainline clean-outs; 290 sewer line cleanouts; 200 lateral service connections; and all other work necessary to complete the construction of sewer line. Bids should be submitted to the Frankfort Public Service District, Plum Rum Road, P O Box 80, Wiley Ford, WV 26767. Plans and specifications are available from Rummel, Klepper & Kahl, LLP, 159 Plaza Drive, Keyser, WV 26726 (304)788-3370. Plans and specifications are expected in the CAWV Physical Planroom.

WATER SYSTEM IMPROVEMENTS, CONTRACT 1, CLAYTON PARK PSD, DAVISVILLE

Bids will be accepted by the Claywood Park PSD until 11:00 AM on 3/31/2016 for installation of approximately 16,840 LF of 12” waterline, 220 LF of 6” waterline, 10 LF of 4” waterline, 10,300 LF...
of 3" waterline and 935 LF of 2" waterline and other miscellaneous appurtenances for the complete system improvements. Bids are to be submitted to Todd Grinstead, General Manager, Claywood Park PSD, 594 Davisville Road, Davisville, WV 26142. Plans and specifications are available from Cerrone Associates, Inc., 401 Main Street, Wheeling, WV 26003 (304) 232-5550. **Plans and specifications are expected in the CAWV Physical Planroom.**

**WATER STORAGE TANKS, CONTRACT 2, CLAYTON PARK PSD, DAVISVILLE**

Bids will be accepted by the Claywood Park PSD until 11:00 AM on 3/31/2016 for construction of water storage tanks at Dutch Ridge and Transfer Tank including fencing, sitework, site piping, mobilization, and demolition of the existing tank at Dutch Ridge. Bids are to be submitted to Todd Grinstead, General Manager, Claywood Park PSD, 594 Davisville Road, Davisville, WV 26142. Plans and specifications are available from Cerrone Associates, Inc., 401 Main Street, Wheeling, WV 26003 (304) 232-5550. **Plans and specifications are expected in the CAWV Physical Planroom.**

**REPAINTING WATER STORAGE TANKS, CONTRACT 3, CLAYTON PARK PSD, DAVISVILLE**

Bids will be accepted by the Claywood Park PSD until 11:00 AM on 3/31/2016 for overcoat of the exterior walls and blast and paint the top exterior of the existing Newark Tank, Buckner Bend and Transfer Tank for the Claywood Park PSD, Davisville. Bids are to be submitted to Todd Grinstead, General Manager, Claywood Park PSD, 594 Davisville Road, Davisville, WV 26142. Plans and specifications are available from Cerrone Associates, Inc., 401 Main Street, Wheeling, WV 26003 (304) 232-5550. **Plans and specifications are expected in the CAWV Physical Planroom.**

**WATER METER SYSTEMS, CONTRACT 3, MILTON, CABELL COUNTY**

Bids will be accepted by the Milton Municipal Utilities Commission until 2:00 PM on 3/22/2016 for installation of radio frequency based automatic water meter system and all other necessary accessories for the Milton water system relocation. Bids should be submitted to the Milton Municipal Utilities Commission, 1139 Smith Street, Milton, WV 25541. A pre-bid conference will be held at 10:00 AM on 3/8/2016 at the Milton Municipal Utilities Commission, 1139 Smith Street, Milton, WV 25541. Plans and specifications are available from the Thrasher Group, Inc., 300 Association Drive, Charleston, WV 25311 (304) 343-7604. **Plans and specifications are available on CD in the CAWV Physical Planroom in BIN 9.**

**WATER SYSTEM IMPROVEMENTS, TOWN OF LONACONING, MARYLAND**

Bids will be accepted by the Lonaconing Water Company until 2:00 PM on 3/29/2016 for water system improvements for Water Station Run Road water line extension, Potomac Hollow Road waterline extension, and Koontz water treatment plant backwash line replacement for the Town of Lonaconing, Maryland. Bids should be submitted to the Town of Lonaconing, 7 Jackson Street, Lonaconing, MD 21539. A pre-bid conference will be held at the Lonaconing Town Hall at 10:00 AM on 3/15/2016. Plans and specifications are available from Rummel, Klepper & Kahl, LLP, 159 Plaza Drive, Keyser, WV 26726 (304) 788-3370. **Plans and specifications are expected in the CAWV Physical Planroom.**

SITEMANAGER—WVDOH INVITES CONTRACTORS TO ENROLL

The WVDOH has announced that prime contractors can now subscribe to their SiteManager program. This is an exciting opportunity for contractors to have access to their contract records, materials management, change orders and approvals, estimate payments and other project information. SiteManager is a comprehensive construction management software product effectively managing the overwhelming volume of information involved in a transportation construction project. SiteManager covers the complete construction and materials management process after award through contract finalization.

Contractors wanting to enroll in the program need to complete the two attached forms. The WVDOH will invoice the applicant ($1000 first year fee). The WVDOH is suggesting only one applicant per company at this time until the applicant is comfortable with the program and determines how many company employees will need access to the program.

The attached Citrix application form and Confidentiality Agreement must be completed and returned to Doug Clark and copied (CC) to John Taylor in Contract Administration. Email to: Douglas.L.Clark@wv.gov with CC to John.E.Taylor@wv.gov

Clark and Taylor also provided the Contractors Site Manager User Manual as a reference. To request a copy of the user manual, please contact Pat Parsons at pat@asphaltwv.com or call (304) 342-1166.
The DOH is reportedly working now on the Digital Signature portion of SiteManager by running three demo projects through a workflow for digital signatures. The DOH welcomes your questions regarding the new service. The WVDOH continues to be a leader in the use of E-Construction.

**WV BRIDGES GETTING WORSE - ARTBA ANALYSIS RANKS WV 8TH IN NATION FOR HAVING MOST DEFICIENT BRIDGES**

The American Road and Transportation Builders Association (ARTBA) recently conducted an annual review of state bridge data. Results found that there were 2,574 fewer structurally deficient bridges in 2015 compared to the number in 2014. The bad news is there are still 58,500 on the structurally deficient list—and at the current pace of bridge investment—it would take at least 21 years before they were all replaced or upgraded. Those are among the key findings in a new analysis of the U.S. Department of Transportation's recently-released 2015 “National Bridge Inventory” database. Members can click [here](#) to view the entire ARTBA report.

West Virginia was ranked 8th in the nation for having the most structurally deficient bridges. This was a major step backward, as the state was ranked 12th in 2014 and 14th in 2013. It was found that 1,092 out of 7,215 (or 15.1 percent) total bridges were classified as deficient. The fact remains that West Virginia needs a secure transportation funding package that can adequately repair and maintain the state’s roads and bridges. As part of the new “Fix Our Roads” campaign by West Virginians for Better Transportation, a recent newspaper ad stresses the need to fix West Virginia roads and bridges. See the ad attached to this week’s HH Bulletin.

**ASPHALT PAVING CONFERENCE NEXT WEEK**

The 36th Annual Asphalt Paving Conference and Paving Awards Luncheon will be held next week on March 3rd at Embassy Suites Hotel. A Welcome Night Reception is included for participants arriving on March 2nd. The WVDOH is also holding their Statewide Asphalt Pre-Construction Conference on March 3 in conjunction with the conference. A final conference agenda is attached to this newsletter.

Individuals unable to attend the WVDOH Statewide Asphalt Preconstruction Conference can watch and listen to the conference at [www.asphaltwv.com](http://www.asphaltwv.com). The DOH conference (not the paving conference) will be broadcast similar to the APAWV letting broadcasts. More info on the paving conference is available at asphaltwv.com or by calling 304-342-1166.

**2015 CAWV/WVDOH QUALITY CONCRETE CONSTRUCTION AWARDS PROGRAM**

Time is running out to submit nominations for the 2015 CAWV/WVDOH Quality Concrete Construction Awards Program. Any contractor who completed a project in 2015 and believes it deserves recognition is asked to completely fill-out the nomination form, which is [available here](#), and return it to the CAWV Office by Friday, March 4, 2016.

Once all nominations are in, the Evaluation Team will review each project and select a winner in the structural and flatwork categories. Winners will be announced at the CAWV State Meeting in March. If you have any questions or need further information, please feel free to contact Pat McDonald at (304) 342-1166 or pmcdonald@cawv.org.

**WV AMERICAN SOCIETY OF HIGHWAY ENGINEERS – 2015 MAN OF THE YEAR CELEBRATION**

The North Central WV ASHE will hold the 2015 Man of the Year Celebration on Thursday, March 17, at the Hotel Morgan in Morgantown. The 2015 winner is David L. Weaver, P.E., surface transportation lead for AECOM. The cost is $50 a person and attendees should RSVP.
by March 9. Contact Brandon LeRoy at brandon.leroy@aecom.com or at (304) 476-2388 to register. More information can be found on the flyer that’s attached to this week’s HH bulletin.

AGC ASKS FHWA TO CLARIFY BUY AMERICA REQUIREMENTS

AGC joined with nine other construction industry groups in a letter to FHWA Administrator Greg Nadeau asking the agency to complete action on a proposed rule clarifying the applicability of Buy America requirements for manufactured products that may contain steel elements and for incidental products such as nuts, bolts washers and others. Click here to view the letter. In December 2012 FHWA issued guidance to its division offices clarifying that “in order for a manufactured product to be considered subject to Buy America, the product must be manufactured predominantly of steel or iron. The FHWA deems a product to be manufactured predominately of steel or iron if the product consists of at least 90% steel or iron content when it is delivered to the job site for installation.” The guidance also waived Buy America requirements for miscellaneous steel or iron components, subcomponents and hardware such as screws bolts and light bulbs. Soon after FHWA issued this memorandum it followed with a Notice of Proposed Rulemaking (NPRM) on Buy America requirements that included this guidance.

FHWA was sued by a steel manufacturer and several labor unions challenging the guidance. On December 22, 2015, the U.S. District Court for the District of Columbia issued a decision supporting plaintiff’s challenge of this guidance. Specifically, the judge vacated the 90 percent threshold exemption for manufactured steel and iron products and the waiver for miscellaneous steel or iron components, subcomponents and hardware. As a result decisions on these types of components must now be made on a project by project basis and go through a formal, time consuming waiver process. The judge criticized FHWA for not going through a formal rule making process. The industry letter to Administrator Nadeau pointed out the problems with this project by project approach, including delays and additional costs. The letter said that because the court objected to the process by which FHWA clarified its Buy America policy, the groups urge the agency to initiate a notice-and-comment rulemaking limited to the 2012 memo’s subject area as soon as possible.

OGLEBAY PARK GATEHOUSE RETAINING WALL REPLACEMENT

Bids will be accepted until 2:00 PM on 3/25/2016 for site work and paving for a road and Oglebay Park Gatehouse retaining wall replacement, Wheeling, West Virginia. Project consists of work at the masonry retaining wall located at the Main Gatehouse of Oglebay Park on WV Rt. 88 storm water control, removal and save the existing wall cap, demo and disposal of existing masonry wall and concrete footing, construction of anew concrete footing, masonry wall and stairs with handrail, re-install the cap, install misc. drainage piping and catch basin along with misc. paving to complete the project. Bids should be submitted to Wheeling Park Commission, Randy Hardman, 1801 National Road, State Rte. 88 N, Wheeling, WV 26003 (304)243-4060. A mandatory pre-bid meeting will be held at 2:00 PM on 2/29/2016 at the Oglebay Park Gatehouse, Rte. 88 North, Wheeling, WV 26003. Plans and specifications are available from Curt Byrum, 1801 National Road, State Route 88 N, Wheeling, WV 26003 (304) 243-4004.

ST. MARYS HIGH SCHOOL DEMOLITION

Bids will be accepted until 11:00 AM on 3/9/2016 for demolition and site work for the old St. Marys High School facility. A pre-bid meeting will be held on 3/2/2016 at 10:00 AM at the Pleasants County School Facilities Offices, 1009 Maple Street, St. Mary’s Pleasants County, West Virginia 26170. Bids should be submitted to Pleasants County Public Schools, Michael Wells, 2272 North Pleasants Hwy., P.O. Box 210, St. Marys, WV 26170 (304)684-2215. Plans and specifications are available from The Thrasher Group, Inc., Kenton Blackwood, 600 White Oaks Blvd., Bridgeport, WV 26330 (304)624-4108. Plans and specifications are available in the CAWV Physical Planroom.
DEMOLITION, MUNICIPAL FACILITY, POINT PLEASANT

Bids will be accepted until 9:00 AM on 3/3/2016 for demolition and site work for a municipal facility at 420 and 422 Main Street, Point Pleasant, West Virginia 25550. Bids should be submitted to City of Point Pleasant, Teka McCaulay, 400 Viand Street, Point Pleasant, WV 25550 (304)675-5989. Plans and specifications are available from City of Point Pleasant, Teka McCaulay, 400 Viand Street, Point Pleasant, WV 25550 (304)675-5989.

DEMOLITION/ REMEDIATION SERVICES, BUSINESS DEVELOPMENT CORPORATION

Proposals are being accepted until 3/11/2016 for demolition and remediation services for the Business Development Corporation of the Northern Panhandle. For additional information contact Amber Nest, 3174 Pennsylvania Avenue, Suite 1, Weirton, WV 26062 (304) 748-5041.

AGENDA

Wednesday, March 2, 2016

6:00 p.m.  REGISTRATION – ASPHALT PAVING CONFERENCE

6:00 – 8:00  WELCOME RECEPTION – Sponsored by WV Paving, Inc.

Thursday, March 3, 2016

7:30 a.m.  REGISTRATION – ASPHALT PAVING CONFERENCE

Continental Breakfast – Compliments of Appalachian Aggregates, LLC

8:00 – 9:45  WVDOH STATEWIDE ASPHALT PRECONSTRUCTION CONFERENCE

9:00 – 10:00  REGISTRATION – ASPHALT PAVING CONFERENCE

Coffee / Drink Bar – Compliments of Potesta and Associates, Inc.

10:00 a.m. – 5:00 p.m.  36th ANNUAL ASPHALT PAVING CONFERENCE

WELCOME – Morning Session Moderator: Matt Dittman, Meadows Stone & Paving and Asphalt Pavement Association Chairman

Overview of the FAST Act
Karen Holmes, CPA, CGFM, Acting Assistant Division Administrator, Federal Highway Administration

PaveXpress: A Simplified Pavement Design Tool
Danny Gierhart, PE, Regional Engineer, Asphalt Institute
Thursday, March 3, 2016 (Continued)

Noon – 1:30 p.m.  Paving Awards Luncheon – Moderator: Pat Parsons, Executive Director, Asphalt Pavement Association of WV

Remarks by WVDOT State Highway Engineer, Greg Bailey & Presentation of the Commissioner’s Awards for Excellence in Asphalt Paving and Quality Craftsmanship Awards

Awards Luncheon Door Prize
Sponsored by Asphalt Materials
Must be present to win!

1:30 p.m. – 5:00 p.m.

WELCOME and Opening Remarks – Afternoon Session Moderator: Ed Compton, PE, Director, Engineering and Operations, Federal Highway Administration

Trends in Asphalt Binder Materials
Tom Snyder, Asphalt Technology, Marathon Petroleum

Paving Best Practices: Focus on Transportation
Bob Brookover, President, West Virginia Paving, Inc.

Preserving our Roads – Less Than an Inch at a Time
Chad Miller, Quality Control Manager, J. F. Allen Company, Inc.

BREAK

Coffee / Drink Bar – Compliments of Martin Marietta

AMPT Performance Testing of High RAP Mixes
John Zaniewski, PhD, PE, Asphalt Technology Professor, WVU

PWL Paving Season Numbers
John Crane, PE, Asphalt Engineer, MCS&T Division, WVDOH

Asphalt Technician Program Update
Travis Walbeck, PE, Pavements Engineer, WVDOH

9 Year Warranty Projects: 2012 & 2016
Travis Walbeck, PE, Pavements Engineer, WVDOH

CONFERENCE EVALUATIONS
&
DOOR PRIZE DRAWING – Must be Present to Win!

Sponsored by Shamblin Stone, Inc.

1.0 INTRODUCTION
The Executive Branch has adopted privacy and information security policies to protect confidential and personally identifiable information (hereinafter all referred to as Confidential Information). This Notice sets forth the vendor’s responsibilities for safeguarding this information.

2.0 DEFINITIONS

2.1 Breach shall mean the acquisition, access, use or disclosure of Confidential Information which compromises the security or privacy of such information.

2.2 Confidential Information, shall include, but is not limited to, trade secrets, personally identifiable information, protected health information, financial information, financial account number, credit card numbers, debit card numbers, driver’s license numbers, State ID numbers, social security numbers, employee home addresses, employee marital status, employee maiden name, etc.

2.3 Security Incident means any known successful or unsuccessful attempt by an authorized or unauthorized individual to inappropriately use, disclose, modify, access, or destroy any information.

3.0 BACKGROUND
Agencies maintain Confidential Information, including, but not limited to, trade secrets, personally identifiable information, protected health information, financial information, financial account numbers, credit card numbers, debit card numbers, driver’s license numbers, State ID numbers, social security numbers, employee home addresses, etc. Federal laws, including, but not limited to, the Health Insurance Portability and Accountability Act, the Privacy Act of 1974, Fair Credit Reporting Act and State laws require that certain information be safeguarded. In some situations, Agencies delegate, through contract provisions, functions to vendors that involve the vendor’s collection, use and/or disclosure of Confidential Information. WV State government must take appropriate steps to ensure its compliance with those laws and desires to protect its citizens’ and employees’ privacy, and therefore, must require that its vendors also obey those laws.

Utilization of safeguards can greatly minimize potential exposure to sensitive information, and vendors are expected to adhere to industry standard best practices in the management of data collected by, or on behalf of, the State, and in the vendor's possession for a business purpose. Even when sound practices and safeguards are in use, exposures can occur as the result of a
theft, loss, or compromise of data, or systems containing data. At these times, vendors must be accountable for the loss of data in their possession by immediately reporting the incident surrounding the loss, and by absorbing any cost associated with the appropriate response actions deemed by the State to be reasonable and necessary. Additional vendor funding may be needed for required activities, such as: rapid notification to affected persons, and provision of a call center to handle inquiries. Notification and call handling will use a State-specified method, format, language, and personnel staffing level.

4.0 POLICY

4.1 All vendors for the Executive Branch of West Virginia State government shall sign both the RFP or RFQ, as applicable, and the Purchase Order which contain the confidentiality statement, incident response accountability acknowledgement, and adopt this policy by reference.

4.2 Vendors must contact the Privacy Officer of the Agency with which they are contracting to obtain Agency-specific privacy policies, procedures and rules, when applicable.

4.3 For vendors’ information, Agencies generally require at least the following minimum standards of care in the handling of their Confidential Information:

4.3.1 Confidential Information shall only be used or disclosed for the purposes designated in the underlying contract and at no time shall it be disclosed or used for a personal, non-work or non-contract related reason, unless specifically authorized in writing by the Agency.

4.3.2 In all circumstances, vendors shall have no ownership rights or interests in any data or information, including Confidential Information. All data collected by the vendor on behalf of the Agency, or received by the vendor from the Agency, is owned by the Agency. There are no exceptions to this provision.

4.3.3 In no circumstance shall a vendor use Confidential Information, or data, in any way detrimental to the Agency or to any individual whose records reside in the vendor’s control. This prohibition shall not be construed to curtail a vendor’s whistleblower rights under Federal and State law. If, in the process of making a good faith report under the provisions of W. Va. Code § 6C-1-1 et seq. or the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”), (Pub. L. No. 104-191) as amended by the American Recovery and Reinvestment Act of 2009 (Pub. L. No. 111-5) (the “HITECH Act”), any associated regulations and the Federal regulations published at 45 CFR parts 160 and 164 (sometimes collectively referred to as “HIPAA”) or any other relevant whistleblower law, a vendor finds it necessary to
disclose Confidential Information to an appropriate authority in accordance with those statutes, the disclosure will not be treated as a Breach of the Agency’s security, privacy or confidentiality policies, as long as the confidential nature of the information is explicitly conveyed to the authorized recipient.

4.3.4 The State may periodically monitor and/or audit use of the information systems and other record-keeping systems at a vendor location or a State location in an effort to ensure compliance with this policy. In addition, the State may audit, and require strengthening of, vendor policies and/or practices as they impact security of State data within the vendor’s possession.

4.3.5 Any collection, use or disclosure of information that is determined by the Agency to be contrary to the confidentiality statement, law or Agency policy may result in termination of the underlying contract.

4.3.6 The confidentiality and incident response accountability statement contained within the RFP or RFQ, as applicable, and the Purchase Order shall survive termination of the underlying contract.

4.4 If there is an incident that involves theft, loss, or compromise of State Confidential Information, the following reporting and/or actions must be taken by the vendor, on its own behalf, or on behalf of its subcontractor:

4.4.1 If the event involves a theft, or is incidental to another crime, appropriate law enforcement officials shall be notified and a police report generated to document the circumstances of the crime, with a goal to establish whether the crime involved a motive to obtain the sensitive data. A copy of the police report will be forwarded in accordance with 4.4.2.3.

4.4.2 Notification of Breach.

4.4.2.1 Upon the discovery of Breach of security of Confidential Information, if the Confidential Information was, or is reasonably believed to have been, acquired by an unauthorized person, the vendor shall notify the individuals identified in 4.4.2.3 immediately by telephone call plus e-mail, web form or fax; or,

4.4.2.2 Within 24 hours by e-mail or fax of any suspected Security Incident, intrusion or unauthorized use or disclosure of Confidential Information, in violation of the underlying contract and this Notice, of potential loss of confidential data affecting the underlying contract.

4.4.2.3 Notification required by the above two sections shall be provided to:
Notice of State of West Virginia
Confidentiality Policies and Information Security Accountability Requirements

Page 4 of 5

(1) the Agency contract manager whose contact information may be found at [www.state.wv.us/admin/purchase/vrc/agencyli.htm](http://www.state.wv.us/admin/purchase/vrc/agencyli.htm) and,

(2) unless otherwise directed by the Agency in writing, the Office of Technology at [incident@wv.gov](mailto:incident@wv.gov).

4.4.2.4 The vendor shall immediately investigate such actual or suspected Security Incident, Breach, or unauthorized use or disclosure of Confidential Information. Within 72 hours of the discovery, if an actual Breach has occurred, the vendor shall notify the individuals identified in 4.4.2.3 of the following: (a) What data elements were involved and the extent of the data involved in the Breach (e.g. number of records or affected individual's data); (b) The identity of the unauthorized persons known or reasonably believed to have improperly used or disclosed PHI or Confidential Information; (c) A description of where the Confidential Information is believed to have been improperly transmitted, sent, or utilized; (d) A description of the probable causes of the improper use or disclosure; and (e) Whether any Federal or State laws requiring individual notifications of Breaches are triggered.

4.4.2.5 Agency will coordinate with the vendor to determine additional specific actions that will be required of the vendor for mitigation of the Breach, which may include notification to the individual or other authorities.

4.4.2.6 All associated costs shall be borne by the vendor. This may include, but not be limited to costs associated with notifying affected individuals.

4.5 The State may require that a vendor provide evidence of adequate background checks, including a nationwide record search, for individuals who are entrusted by the vendor to work with State information.

4.6 The State requires that any vendor taking possession of State data have comprehensive policies and practices to adequately safeguard that information, and further that the sensitivity of the information is clearly identified and documented in writing, with signed acknowledgement by the vendor that the sensitivity is understood, before it is conveyed to the vendor. Vendor policy should articulate all safeguards in place for the State information, including provisions for destruction of all data, including backup copies of the data, at the end of the vendor’s legitimate need to possess the data. All State-owned media containing State information will be returned to the State when no longer legitimately needed by the vendor.

4.7 All vendor owned devices that contain or transport any State Confidential Information must be encrypted using the AES algorithm, and industry standard methodology. This includes desktop and laptop computers (whole drive encryption – not file encryption), personal digital assistants (PDA), smart phones, thumb or flash-type drives, CDs, diskettes, backup tapes, etc.

2015 man of the year banquet
Celebrating achievements of West Virginia’s Transportation Industry leaders!

Event details
March 17, 2016
Hotel Morgan
Morgantown, WV

6:30 pm ~ Cocktail Social
7:30 pm ~ Dinner Banquet

$50 per person

RSVP by Wednesday, March 9
Brandon LeRoy
AECOM
150 Clay St. Suite 430
Morgantown, WV 26501
(304) 476-2388
brandon.leroy@aecom.com

Mr. Weaver has been a strong contributor to the Transportation Industry throughout West Virginia for many years. With almost 30 years of experience, David is an experienced project manager who oversees and develops planning studies, engineering design, design-build and construction management for a variety of project types and disciplines. As the West Virginia Surface Transportation Leader and Site Operations Manager of the Morgantown, WV office of AECOM, he supervises the operations in that office and coordinates with other AECOM offices around the country to enhance and sustain West Virginia’s built, natural and social environments.

The proceeds from this event help to sponsor our Section’s Annual Scholarship Fund which supports local college students focusing in the Transportation Industry. We thank all of you for your continuous support and the promotion of the North Central WV Section of ASHE!
The American Society of Highway Engineers cordially invites you and to a very special event!

2015 MAN of the year

David L. Weaver, born in Morgantown, WV, has had a very close connection to the state and its affiliates for decades. Mr. Weaver obtained his BS in Civil Engineering from Clemson University followed by achieving his MS in Civil Engineering from the University of Washington.

Starting as a Staff Engineer for the American Institute of Steel Construction for four years, Weaver then went on to become a Structural Engineer for Alpha Associates in Morgantown where he was involved in the design for many new schools and bridges throughout WV. David later started a West Virginia branch of AECOM in 1998 and grew the staff to ten people for delivering the design of major highway, bridge expressway and other projects.

Currently, Mr. Weaver is continuously building the Morgantown, WV office of AECOM and is highly involved in some of the top transportation projects throughout the state, including: AECOM’s Design Manager for a portion of the WVDOH US 35 P3 Project, Design Manager for WVDOH I-79 TIF Interchange Design-Build Project, Project Manager for the WVU PRT System Guideway Inspection and Structural Maintenance Program, Project Manager for various transportation enhancement, trails, and riverfront design projects, Civil Engineer for WVU & Marshall University Athletics Facilities Site Design.

Besides his highly technical involvement throughout the state, David has also held very active roles for many WV professional societies, including: National Society of Professional Engineer’s House of Delegate, ACEC Legislative Committee, Main Street Morgantown Board of Directors, Morgantown Area Chamber of Commerce Transportation & Infrastructure Committee, Upper Monongahela River Association Board of Directors.

Celebratory honors will take place on
Thursday, March 17, 2016
Hotel Morgan, Morgantown, WV
A just released annual review of state bridges ranks West Virginia eighth worst in the nation with 15.1 percent, or 1,092, structurally deficient bridges. Two years ago, the state ranked 14th in the country. Last year, it ranked 12th. While other states are making improvements, West Virginia is rapidly moving in the wrong direction. The report says the Top 25 structurally deficient bridges in West Virginia have nearly 650,000 crossings every day.

Structurally deficient means one or more of the key bridge elements is considered to be in "poor" or worse condition. While those bridges may not be imminently unsafe, they have serious deficiencies that need repair.

Our roads and bridges are crumbling. Many West Virginians are unemployed and looking for good paying jobs. Fixing our roads and bridges will put West Virginians back to work. It will save lives. It will grow our economy.

We’ve waited long enough.

(To read a copy of the report and to see a list of West Virginia’s Top 25 Structurally Deficient Bridges, go to www.berks.org/2016/structurally-deficient-bridges/)
