HUB/PAC MAKES GENERAL ELECTION ENDORSEMENTS

The Contractors Association of West Virginia’s political action committee, HUB/PAC, has made its endorsements for candidates running for the West Virginia Senate and House of Delegates. HUB/PAC, which stands for Highway-Utility-Building Political Action Committee, surveyed candidates to determine their level of support to prioritize investment in the maintenance and modernization of West Virginia’s infrastructure of roads, bridges, water and sewer, schools, public buildings, dams and other public structures that are vital to jobs, future economic development and a better quality of life for all citizens.

Their responses, along with their willingness to give the CAWV a fair hearing on issues affecting the state’s contracting industry, were the basis for making this year’s endorsements. In letters to the candidates, the CAWV said it is asking the CAWV’s 425 members and their thousands of employees to vote for them.

A number of good candidates are running this year and HUB/PAC contributions are used to support candidates running for elective office who, regardless of party affiliation, understand the construction industry and the specific needs, interests, and concerns of CAWV member companies and their employees.

Members are encouraged to share this endorsement list with people in their company who share the company’s goals and objectives. A full copy is on the CAWV website at www.cawv.org.

AGC PAC CONTRIBUTES TO WEST VIRGINIA’S CONGRESSIONAL DELEGATION

The Associated General Contractors of America’s political action committee, AGC PAC, has contributed to the reelection campaigns of Representatives David McKinley and Evan Jenkins. AGC supports them for their work on the five-year highway reauthorization bill, the FAST Act, and their support on reigning in the U.S. EPA’s Waters of the United States (WOTUS) regulations. Rep. McKinley was presented AGC’s contribution during a visit to the CAWV office and CAWV President C.R. Neighborgall met with Rep. Jenkins in the president’s office in Huntington.

On the national level, AGC has developed a comparison of the two presidential candidates on issues relating to the construction industry. A side by side comparison on Hillary Clinton and Donald Trump is attached with this Newsletter.

COUNTDOWN TO ELECTION DAY WEBINAR; OCTOBER 24 AT 3:00 P.M.
Join AGC Director of Political Affairs David Ashinoff and Ellis Insights Publisher Jim Ellis as they provide the latest details on the upcoming 2016 elections. They’ll cover the Clinton-Trump presidential match up, Democrats chances of taking control of the US Senate, and likelihood of Paul Ryan retaining his House majority and speakership as well as AGC’s Get-Out-the-Vote efforts. The webinar will take place on October 24 from 3:00pm - 3:45pm. It will be a very informative session. Members can go to https://www.agc.org/learn/education-training/events/webed-countdown-election-day-election-update-overview-construction to register for the presentation.

GUBERNATORIAL CANDIDATES CONFIDENT OF THEIR POLL NUMBERS

Less than three weeks until Election Day, Greenbrier owner Jim Justice still has a double-digit lead in the governor’s race over Senate President Bill Cole, according to the MetroNews West Virginia Poll released Wednesday. Justice, the Democratic nominee, leads by an 11-point margin, according to the latest poll. Justice is favored by 44 percent of those who responded while Cole received 33 percent. Mountain Party candidate Charlotte Pritt was at 8 percent, Libertarian Party candidate David Moran was at 5 percent, and 9 percent were not sure.

Earlier in the week, Jim Justice and Bill Cole promoted their respective polling numbers Monday with each campaign declaring they have the momentum. Republican nominee Cole’s poll, taken between Oct. 8-10 by NMB Research, has the candidates tied at 39 percent, according to West Virginia Republican Party Chairman Conrad Lucas. “This is now moving in the correct direction. It’s now moving with momentum as more folks are getting to know Bill Cole and more folks are tuning into the election,” Lucas said on WV MetroNews’ “Talkline.”

Recently released numbers show more newly registered voters, who have registered since the May election, have chosen to register either as Republican or independent. Lucas said that’s good news for Cole and other GOP candidates. “We know we can win a governor’s race with a registration deficit and right now this deficit is the smallest it has been in modern electoral history. So we are very excited about where we are,” Lucas said.

The Democratic gubernatorial nominee Justice is leading the Republican Cole 44 percent to 34 percent, according to Justice pollster Jefrey Pollock of Global Strategy Group. “Jim Justice is winning those conservative Democrats by an overwhelming margin. He’s winning them 70-30,” Pollock said. “Hillary Clinton is losing those conservative Democrats (in W.Va.) 18 (percent) to 80 (percent) and I’m not making that up.”

The Global Strategy Group Poll has Donald Trump with a 58 percent to 31 percent lead over Clinton. The poll shows Republican state Attorney General Patrick Morrisey with a 42 percent to 40 percent lead over Democratic challenger Del. Doug Reynolds.

YCF TOYS FOR TOTS GOLF SCRAMBLE RESCHEDULED FOR NEXT FRIDAY – OCTOBER 28

Due to inclement weather, the fourth annual YCF hosted Toys for Tots fall golf scramble has been rescheduled for Friday, October 28, at 10:00 a.m. at Little Creek Country Club, South Charleston. YCF Chairman Josh Booth would like to invite all members to participate regardless of age. In addition to the registration fee of $50, a box lunch and beverages will be included. Members are asked to bring an unwrapped toy to benefit Toys for Tots. An updated
registration form is attached to this week’s Newsletter. Sponsors are also needed for the event and a sponsorship form is also included in this week’s newsletter. For additional information, contact Pat McDonald at (304) 342-1166 or pmcdonald@cawv.org.

REGISTER NOW FOR CAVV / BRICKSTREET SAFETY SEMINAR – NOVEMBER 4

Join the CAVV and BrickStreet Insurance for a "Fall Protection and Scaffolding Assembly and Use" safety seminar on Friday, November 4, from 8:00 a.m. to 12:00 p.m. at BrickStreet’s headquarters. This seminar helps attendees understand the importance of safe work conditions and proper use of fall protection gear and scaffolding. The seminar will include a fall protection demonstration as well as how to locate and use proper anchor points.

This training is for business owners, safety managers, employees and anyone who needs to learn how to prevent the loss of life on jobsites. This seminar fulfills one of the CAVV / BrickStreet Safety Program seminar requirements. The fee is $35 for CAVV members and $50 for future members. A registration form is attached to this week’s newsletter, or contact Pat McDonald at (304) 342-1166 or pmcdonald@cawv.org to register or get more information.

OSHA DELAYS ENFORCEMENT OF POST-INCIDENT DRUG TESTING POSITION – WEBINAR AVAILABLE FOR MEMBERS

The U.S. Occupational Safety and Health Administration (OSHA) this week delayed enforcement until Dec. 1, 2016 of the anti-retaliation provisions in its injury and illness reporting rule, which highlighted OSHA’s intention to enforce policies that could restrict mandatory post-incident alcohol and drug testing. Also this week, at AGC’s urging, more than 30 members of Congress called on OSHA to reconsider and withdraw this controversial and unsubstantiated position.

OSHA issued this delay at the request of a federal court currently considering a motion challenging the anti-retaliation provisions. The letter from members of Congress comes on the heels of AGC grassroots efforts and AGC Chapter and contractor Capitol Hill meetings following the association’s National and Chapter Leadership Conference in late September. AGC previously met with the head of OSHA, noting the association’s opposition to the drug testing position and that position’s challenge to safe, drug-free workplaces and drug testing programs collectively bargained with organized labor.

AGC will hold a complementary webinar for AGC members ($49 for non-members) to explain OSHA’s position and contractor requirements under this rule on October 31 from 2:00 to 3:00 p.m. The association will continue its efforts to oppose this unreasonable OSHA position, while educating its members on how best to comply. Members can click here to register.

NEARLY 200 MEMBERS TAKE ADVANTAGE OF CAVV MIDYEAR EARLY-BIRD DISCOUNT

Nearly 200 members have registered for the CAVV Midyear Meeting, which will be held January 27- February 1 at Hyatt Regency Aruba Resort and Casino. They have taken advantage of the early-bird discount which expired October 14. The discount was extended one week due to the large number of members registering last week.
A tentative agenda, information on the Hyatt Regency Hotel and a convention registration form are available online at www.cawv.org/events/midyear-meeting.html. We hope you plan to join us for what promises to be a most enjoyable meeting at what many consider to be their favorite CAWV meeting site. But please remember, all unused hotel rooms will be released in November. If you plan to attend, don't delay! If you have any questions, please contact Wendy Long at the CAWV office at (304) 342-1166 or email long@cawv.org.

VOLUME DUES REPORTS MAILED

Third Quarter volume dues reports have been mailed. Please make every effort to return the report in a timely manner to the CAWV office at 2114 Kanawha Blvd, East, Charleston, WV 25311. For questions, please contact Wendy Long at (304) 342-1166 or email long@cawv.org.

CAWV EXTENDS OUR SYMPATHIES

The CAWV is saddened to report the passing of Kinslie Mattox-Knicely, 26, after an extended illness. She is the daughter of West Virginia Department of Transportation Secretary Paul A. Mattox, Jr. Service was held on Thursday, October 20, at Nitro Church of God with Pastor Rob VanFossen and Pastor Ken Toler officiating. Members can click here to view the full obituary.

WE ARE PLEASED TO WELCOME NEW MEMBERS

The following firms have been accepted into membership by the Board of Directors. Please welcome them to the CAWV, and call on them for products and services. Please cut and paste the new members into your directory.

ON THE ISSUES
Learn about Hillary Clinton’s and Donald Trump’s positions on issues important to the construction industry so that you can make an informed vote on or before November 8. Visit ConstructionVotes.com to register to vote and learn how to vote early or on Election Day.

HILLARY CLINTON
Hometown: Chappaqua, NY
Party: Democratic
Age: 68

Hillary Clinton supports establishing a minimum tax of 30% on individuals with an adjusted gross income over $1M as well as a 4% surcharge on income over $5M. She also supports raising capital gains rates to as high as 39.6%. Clinton says she would increase the Estate Tax rate to 50-65% with a $3.5M exemption. She would also expand Section 179 and cash accounting for certain businesses.

HEALTH CARE
Hillary Clinton would defend and expand Obamacare, implement cost controls on drug prices, and hold those companies more accountable. She supports a public option, Medicaid expansion, and repeal of the Cadillac Tax.

INFRASTRUCTURE
Hillary Clinton proposes a $275B, five-year plan to rebuild the nation’s infrastructure.

REGULATIONS
Hillary Clinton supports the Waters of the United States rule as well as the use of government-mandated project labor agreements. She has not put forth a plan that would review current regulations from executive agencies.

DONALD TRUMP
Hometown: New York, NY
Party: Republican
Age: 70

Donald Trump supports reducing the personal income tax rates to 12%, 25%, and 33%, and pegging capital gains rates to those brackets, as well as reducing the corporate rate to 15% with an unspecified system to address pass-through income at 15%. He would allow certain companies to choose between the full expensing of capital investment and the deductibility of interest paid. He supports repeal of the Estate Tax.

HEALTH CARE
Donald Trump supports repealing and replacing Obamacare with Health Savings Accounts. He supports lowering trade barriers to allow foreign drug makers to sell in the United States and supports mental health parity. Trump opposes a public option, but would allow health insurance to be sold across state lines.

INFRASTRUCTURE
Donald Trump wants to invest $500B or more on a national rebuilding plan.

REGULATIONS
Donald Trump opposes the Waters of the United States rule. His position on government-mandated project labor agreements is unknown. He supports a temporary moratorium on new executive agency regulations and would require each agency to prepare and rank a list of regulations they impose on American business. Regulations least critical to health and safety will receive priority consideration for repeal.
WHEN:
Friday, October 28, 2016
Shotgun start at 10:00 a.m.

WHERE:
Little Creek Country Club
99 Fairway Drive
South Charleston, WV

DETAILS:
Chairman Josh Booth and the Young Contractors Forum will host a fall golf scramble on Friday, October 28, for CAWV members of all ages. In addition to the registration fee, members are asked to bring a new, unwrapped toy to benefit Toys for Tots. A box lunch and beverages will be provided.

QUESTIONS:
For additional information, contact Pat McDonald at (304) 342-1166 or by email at pmcdonald@cawv.org.

REGISTRATION
$50 per player (includes box lunch)

*CAWV Members in Bold Type*
TAKE SAFETY INSPECTIONS AND AUDITS SERIOUSLY

One of the tools a company uses to keep updated on how their safety and health program is doing is to perform safety inspections and audits. Inspecting the work practices of employees and checking equipment to see that it is still operating safely is just good common sense. Auditing the safety and health program will normally result in finding weaknesses and create opportunities for improvement.

Many times safety inspections and audits will uncover flaws in the safety process that need to be corrected immediately. One of the most fundamental failures companies make is to either ignore the flaws they find in the safety program or simply “put off” making the improvement until a more convenient time.

First and foremost, the willingness to ignore a hazard that you have uncovered can get one or more of your employees injured. Putting off making a correction is never a good idea. One of the ways to keep safety improvements on track is to include a responsible employee in the safety inspection process. Don’t fear getting the workforce involved. It will develop more trust and a better safety program.

Using the results of your safety inspection as a tool to find and fix safety flaws will not only go a long way toward preventing injury to employees, but will also reduce the liability of the company in the event of a claim or lawsuit. Make the documented safety inspection work for the employees and the company.

Take the information generated as a result of safety inspections and make it work FOR you, not against you. Take safety inspections seriously. A safety inspection report can be a great tool to help a company grow and prosper, if it’s used to make improvements.

Create greater trust among employees and provide the safest work environment possible. Take safety inspections and audits seriously.

REGISTER: CAWV / BRICKSTREET SAFETY SEMINAR, NOV. 4

The Contractors Association of West Virginia, in conjunction with BrickStreet Insurance, will hold a safety seminar on November 4 from 8:00 a.m. to 12:00 p.m. in Charleston at the BrickStreet Headquarters. CAWV members who participate in the BrickStreet affinity program must attend one qualified safety training session per year to continue eligibility. The CAWV / BrickStreet program offers a discount on premiums for contractors who meet eligibility requirements. For complete details and registration forms, see this week’s newsletter or contact Pat McDonald at pmcdonald@cawv.org or 304-342-1166.

Contact the CAWV at (304) 342-1166 for assistance with the safety program.

The Associated General Contractors (AGC) of America is collaborating with ClickSafety, an OSHA-authorized provider, to deliver a wide range of construction related safety courses online for members at a 10% discount. To view the full course catalog, and for information on ordering, visit: www.cawv.org then click on the Safety link.

ASCE RATES NATION’S INFRASTRUCTURE

In its most recent assessment, the American Society of Civil Engineers gave the United States a failing grade for its infrastructure. According to the group, $3.6 trillion would be needed to raise the standard of America’s roads to acceptable levels before 2020.

To determine the states with the worst roads, 24/7 Wall St. reviewed statistics from the Federal Highway Administration. The worst roads are in Rhode Island, where 52% of major roadways are in poor condition. By contrast, less than 5% of the roads tested in Idaho are in need of repair, the lowest share of any state.

West Virginia ranks 12th in the nation with the highest number of poor roads at 28.5 percent. The state ranks 7th in the nation with the highest number of deficient bridges at 34.8 percent. By contrast, Kentucky ranks 46th of states with poor roads at 7 percent. The rankings for West Virginia and surrounding states are below.

WVDOH POSTPONES BID OPENING FOR HOBET PROJECT – NOVEMBER 1

The WVDOH has postponed design-build bid opening for the Hobet highway project until Nov. 1. The bids were originally scheduled to be opened October 18. The two-week extension will allow for additional design work, according to WVDOH spokesman Brent Walker. The 2.6 mile four-lane highway will take traffic from the U.S. Route 119-Route 3 intersection in Boone County up to the former Hobet mountaintop removal mining site which Gov. Earl Ray Tomblin and others hope will be a major industrial area for the state.

ASPHALT PAVEMENT ASSOCIATION OF WV ANNUAL FALL MEETING A SUCCESS

Members and guests of the Asphalt Pavement Association of West Virginia (APAWV) attended the 36th Annual Fall Meeting at The Resort at Glade Springs October 6-9. Nearly 150 guests attended the meeting.

This year’s program included Business Sessions in which members learned and discussed industry issues and updates. WVDOT Secretary/WVDOH Commissioner Paul Mattox, WVDOH State Highway Engineer Greg Bailey and Deputy State Highway Engineer Todd Rumbaugh kicked off the Friday Business Session with remarks covering the 2016 and 2017 construction programs; DOH revenues and funding alternatives; the need to continue and expand turnpike
tolling; intent of the agency’s new industry interaction policy; use of Design-Build and P3 for project delivery; updates on prequalification; and Site Manager; as well as other issues. Following these remarks, Jason Boyd, WVDOH Director of Contract Administration, Ron Stanovich, Director of MCS&T Division, and Travis Walbeck, Pavement Engineer, joined the others for a Q&A session. The group responded to questions regarding use of PWL specifications, pavement preservation policies and practices, materials issues, purchase orders and other topics. The session concluded with a look at the state’s first use of Pave-IR presented by Dr. John Zaniewski, WVU’s Asphalt Technology Professor.

The day included the APA golf tournament and an evening reception and banquet with the featured entertainment being Glade Springs “Fright Night” events.

The Saturday Business session began with a WVDOH Construction Forecast presented by Ryland Musick, director, WVDOH Programming Division. The group next participated in an interactive session on “Leadership—Paving the Way,” presented by Mark McMillion of McMillion Leadership Associates. The business session wrapped up with a WVDOH Construction, Materials and Pavements Update presented by Boyd, Stanovich and Walbeck, who discussed in more detail several subjects, including PWL and warranty projects, 2016 program highlights, DBE participation plans, 2017 specifications update, Bid Express and Site Manager, Independent Assurance issues, pavement preservation, flood work, technician training and several other materials and construction related issues.

While members attended meetings, the kids took advantage of the APA’s “Kids Road to Fun” program. The evening activities included entertainment by Ryan Cain and the Ables.

As is the case every year, APA concluded their meeting with a Sunday morning Prayer Breakfast. Pat Kee of Mountain State Insurance delivered the morning message, “HOPE”. Kee discussed his personal experience with flooding in Clendenin and the Mountain Mission’s Project HOPE - Helping our People Along the Elk.

The Asphalt Pavement Association of WV would like to give special thanks to this year’s Annual Fall Meeting Sponsors:

The CAWV is pleased to announce Technician Certification Training Courses, which are offered annually to help individuals prepare for WVDOH certification examinations required under their Quality Assurance Program. Thousands of individuals have attended courses in Compaction, Aggregates, Asphalt and Portland Cement Concrete over the last several years. Test comparisons prove that those persons who attend the CAWV/WVDOH courses have a higher success rate for passing the exams.

* NEW FOR 2017: All certification testing has been moved to an online format that will require the attendee to have a laptop or IPad type device to take the test. The use of smart phones during the test is prohibited.
