Newsletter 2018-43

October 26, 2018

EARLY VOTING - THROUGH NOVEMBER 3!

EARLY VOTING UNDERWAY UNTIL NOVEMBER 3 - ELECTION DAY NOVEMBER 6

The 2018 Midterm Elections are just two weeks away. Early Voting started October 24 and runs until Saturday, November 3. West Virginians will have the chance to vote for numerous offices on the ballot including the United States Senate, the United States House of Representatives, half of the West Virginia State Senate, all one-hundred seats in the West Virginia House of Delegates, and various county and municipal offices. In addition, two unexpired seats on the West Virginia Supreme Court of Appeals are on the ballot. Justices Evan Jenkins and Tim Armstead were appointed earlier this fall to fill those vacancies and are both running in the election to complete the remainder of the terms. Election Day is Tuesday, November 6. To find the location for Early Voting in your county, please [click here](#). As a reminder, you must have your ID with you when to vote this year.

CONTRACTORS ASSOCIATION OF WEST VIRGINIA PAC ENDORSEMENTS

The Contractors Association of West Virginia's political action committee, HUB/PAC, has made its endorsements for candidates running for the West Virginia Senate and House of Delegates. HUB/PAC, which stands for Highway-Utility-Building Political Action Committee, surveyed candidates to determine their level of support to prioritize investment in the maintenance and modernization of West Virginia's infrastructure of roads, bridges, water and sewer, schools, public buildings, dams and other public structures that are vital to jobs, future economic development and a better quality of life for all West Virginians.

Their responses, along with their past willingness to give the CAWV a fair hearing on issues affecting the state's contracting industry, were the basis for making this year's endorsements. In letters to the candidates, the CAWV said it is asking over 450 CAWV's members and their thousands of employees who reside in their districts to vote for them.

A number of good candidates are running this year and HUB/PAC contributions are used to support candidates running for elective office, regardless of party affiliation. CAWV members have specific policy needs that do not always align with all segments of the business community. HUB/PAC attempts to support candidates who understand the construction industry and the specific needs, interests, and concerns of CAWV member companies and their employees. Regardless of election day outcome, the CAWV will work with all candidates whether they earned our endorsement or not.

Members will find attached to this week's Newsletter an endorsement list for the November 6 election. Please share with people in your company who share your goals and objectives.

CAWV DELIVERS AGC PAC CHECKS IN FEDERAL RACES

AGC of America's political action committee has contributed to West Virginia candidates running for the U.S. House of Representatives. Rep. Alex Mooney, R-2nd District, was in the CAWV office this week to meet with CAWV President Roger Thomas and Immediate Past President Scott Pierson to discuss National AGC issues, including the need to pass a broad, long-term infrastructure funding package, repeal and replace the Waters of the U.S. rule, modernization of the Hours of Service rules to ease the burden on construction drivers and the abandonment of harmful steel and aluminum tariffs.

Rep. David McKinley, R-1st District, and Carol Miller, the Republican candidate running in West Virginia's Third District, have already been to the CAWV office to discuss construction issues that will be before the next Congress. Rep. McKinley and Rep. Mooney have a good lead in their races. Carol Miller is slightly ahead of her challenger in recent polls.

CAWV COMMENTS ON WVDEP STORMWATER PERMIT FOR CONSTRUCTION ACTIVITIES; ASSOCIATION EXPRESSES CONCERNS OVER PROPOSED CHANGES

The West Virginia Department of Environmental Protection is proposing to revise the West Virginia General Water Pollution Control Permit, Stormwater Associated with Construction Activities, WV Permit No. WV0115924. The permit makes significant changes that affect construction and development projects.

The CAWV presented our comments on the proposed permit. The association writes, "CAWV contractor members operate in good faith to design and construct their projects to maintain strict water quality standards, even though 2018 rainfall amounts have made this year's efforts more difficult. In return, contractors must have clearly defined rules that are realistic and feasible to attain. Our members have expressed concern that the proposed regulations are a major departure to the current General Permit requirements. The new permit, as we understand it, will have significant cost implications and the potential to delay economic and transportation projects. Our industry would hope these changes would not be a conflict at a time when the state of West Virginia is working to create jobs by attracting businesses to locate in West Virginia."

Two major areas of concern are the elimination of the Notice of Intent and BMPs for all waters other than Tier 1 waters. The CAWV writes, "The CAWV opposes the elimination of the Notice of Intent for projects disturbing 1 to 3 acres of land. Many small development projects, many that have little to no impact on the waters of the state, would be affected by this change. Adding 60 to 90 days for review of these projects would add more work to WVDEP and discourage future development."

The proposed permit imposes enhanced BMPs for all waters other than Tier 1 waters, which are almost every waterbody in the state, since Tier 2 is the default designation. This means that enhanced BMPs will be required almost everywhere. The CAWV requests the WVDEP simplify the permit by requiring basic BMPs for both Tier 1 and Tier 2 streams. We believe that current BMPs are suitable and effective when used and maintained properly. Costs would accelerate if enhanced BMPs are required for virtually all projects.

The CAWV has requested a meeting with WVDEP to discuss the industry's concerns. Any member willing to participate in the meeting are asked to contact Pat McDonald at

pmcdonald@cawv.org. Members can click the following links to view the [draft of the stormwater permit](#) and a [fact sheet](#) on the changes.

WVCN CALL FOR PHOTOS FOR ANNUAL CONSTRUCTION FORECAST ISSUE

The CAWV is calling all members to share their project photos with the readers of *West Virginia Construction News*. The photos are to be included in the November / December annual construction forecast issue. Members are asked to include captions detailing the name of the project and its location, name of photographer and the submitting company in their entries. Please send all photographs to Cassidy Webb at cwebb@cawv.org. Photos may also be sent on a CD by mail to CAWV headquarters. All submissions must be received by Friday, November 23, 2018.

SAVE THE DATE – CAWV HOLIDAY OPEN HOUSE- DECEMBER 4

CAWV President Roger Thomas invites all members and their employees to the association's Holiday Open House on Tuesday, December 4, at CAWV Headquarters from 4:00 p.m. to 7:00 p.m. The CAWV will be collecting new, unwrapped toys to benefit Toys for Tots. Anyone wishing to donate should bring items to the reception. This is a great opportunity for members to get together and network, with members, staff and associates and join in the holiday festivities. For more information, contact Pat McDonald at (304) 342-1166 or pmcdonald@cawv.org.

CAWV FALL GOLF OUTING BENEFITS TOYS FOR TOTS PROGRAM

Nearly 70 CAWV members teed off at Little Creek Country Club on Friday, October 19, for the annual golf event. The weather was perfect for the fall outing and everyone had a great time. The golf outing, hosted by the Young Contractors Forum, resulted in dozens of donated toys for local children that will be distributed through the Marine Reserves Toys for Tots program. The CAWV thanks all members who donated to this great cause.

KANAWHA COUNTY SCHOOLS EXCESS LEVY ON BALLOT - VOTE NOVEMBER 6

Kanawha County residents will consider an excess levy for KCS in the general election on November 6. The KCS system is the largest in the state, but the budget is underfunded due to a levy that has been capped for the past 15 years. The average age of elementary schools is 58 years, middle schools 59 years, and high schools 36 years. Repairs to aging infrastructure and rising utility costs comprise a significant portion of the school system's budget. If passed, the new excess levy will continue to fund teacher and service personnel wages / benefits, school operating expenses and select school improvements, while also affording major improvements to schools countywide. To see how funds from the excess levy will benefit each individual school district within the county and for more information, visit <http://kcs.kana.k12.wv.us/page/excess-levy>.

CONSENSUSDOCS ANNOUNCES DESIGN-ASSIST ADDENDUM

AGC of America and 39 industry leading associations that are a part of the ConsensusDocs coalition announced the industry's first [Design-Assist Addendum](#) standard contract document. The ConsensusDocs 541 tackles the difficult task of defining the range of design-assist services by providing contractual structure to better coordinate design professionals, construction managers, and subcontractors in developing and constructing design documents. The range of services including constructability reviews before design completion; owner's program review; recommended procurement of materials; prefabrication recommendations; cost estimating; integrated value analysis; design-build packaging; and coordinated milestone scheduling. AGC members are invited to download a sample of the new *ConsensusDocs 541 Design-Assist Addendum*, [click here to get started](#).

CONSTRUCTION SAFETY: WORKING WITH HAND & POWER TOOLS

Can you think of a commercial construction project that has been completed without the use of hand tools or power tools? Yeah, neither could I. Maybe it's our familiarity with them or the fact that they are such a commonplace item on the construction site that hand tool and power tool safety often gets overlooked. Hand tools and power tools present a host of potential hazards such as flying objects, electrical shock, falling objects, punctures and lacerations. Here are 10 quick and easy tips for safely working with hand and power tools.

Inspect your tools. Never issue or use a damaged or defective hand or power tool. Always inspect your hand and power tools before and after each use to ensure they are in good working order. Check for cracked or loose handles on hand tools and make sure all guards, safety switches, electrical and hoses are in good condition. Tag any damaged tools and remove them from use until they can be repaired.

Pick the right tool. Make sure you are using the correct tool for the task at hand. Don't use a screwdriver as a pry bar or chisel. This also means using the right sized bits, blades and accessories on your power tools. Don't get creative if you don't have a tool you need. Using the wrong tool can lead to injury or damage to the tool.

Wear your PPE. Issue personal protective equipment to your employees and make sure they wear them properly. This includes items like safety goggles, face masks, ear plugs, hard hats and work gloves. Avoid wearing loose clothing or jewelry that could impede your work or get caught in any moving parts on power tools.

Don't alter your tools. Never remove guards or disable safety devices on power tools. Don't paint or cover up your tools as this could prevent you from noticing chips or cracks in your tools. If a tool is damaged or broken during use, don't attempt to make an on the spot repair if you don't have the right parts or tools to do so. This is one of those few instances where duct tape is not the answer.

Handle with care. Tools are not toys. Never throw or toss a tool in the direction of or directly to a coworker. Don't use electrical cords to lower or lift a tool to get it to a workspace. Always carry tools in a toolbox or on a tool belt, never shove a tool in your pocket if you are going to be walking around. Keep your finger off the trigger of power tools when moving about to avoid accidental discharge.

Keep your distance. When working with hand and power tools be sure you have enough room to safely operate without coming into contact with other objects or coworkers. If you are working at height, make sure there isn't anyone working beneath you in the event you drop a tool. When using something like a nail gun, check to see that everyone is clear of your line of sight in the event of an accidental discharge or misfire.

Pick up after yourself. Don't leave unused tools lying around the jobsite. They can create tripping hazards or accidentally get knocked on someone's head. Establish a check-out/check-in for company-owned tools to avoid accidents and to keep tools from mysteriously walking off the jobsite.

Unplug and disconnect. Don't leave electric power tools plugged in when not in use or when making adjustments such as replacing blades or bits. Disconnect pneumatic tools from the air line when loading fasteners or when not being used to avoid accidental discharge. Never leave unattended tools plugged in to avoid injuries by untrained workers. Always unplug and disconnect when moving the tool to a new location.

Keep your workspace clean. A cluttered floor can lead to accidental trips or falls which can be extremely dangerous when working with hand and power tools. Avoid working in wet conditions when working with electric power tools. Keep all power cords and air lines out of the way as much as possible to avoid getting tangled up or tripping a coworker.

Get trained up. Make sure you and your employees are thoroughly trained on the proper use of hand and power tools. Employees should know how to safely operate the tools they are required to use on the job. This includes knowing which PPE is required to be worn when working with specific tools.

Work Smart, Be Safe!

Call the CAWV at (304)342-1166 for help with your safety issues.

The Associated General Contractors (AGC) of America is collaborating with ClickSafety, an OSHA-authorized provider, to deliver a wide range of construction related safety courses online for members at a 10% discount. To view the full course catalog, and for information on ordering, visit: www.cawv.org then click on the Safety link.

PRESIDENT SIGNS MAJOR AGC-BACKED WATER INFRASTRUCTURE BILL

On Oct. 23, President Trump joined by bipartisan members of the House and Senate signed an AGC-supported water resources development bill into law that helps the U.S. Army Corps of Engineers (USACE) maintain much of our nation's water resources infrastructure. As previously reported, while not a funding bill, this legislation allows Congress to eventually approve billions of dollars in funding for U.S. Army Corps of Engineers Civil Works projects, including navigation (dredging, locks), flood control (levees), hydropower (dams), recreation (parks), and water supply. In addition, the bill reauthorizes the Water Infrastructure Finance and Innovation Act (WIFIA) for \$50 million annually in fiscal years 2020 and 2021 and provides a new authorization, championed by AGC, for the funding of State Revolving Funds with WIFIA dollars—which can be used for drinking water and wastewater facility projects.

WATER LINE REPLACEMENT, GLENWOOD STREET, CITY OF MILTON

Bids will be accepted until 4:00 PM on 11/05/2018 for a water line replacement on Glenwood Street, Milton, West Virginia. Bids should be submitted to the Director of Public Works office at City Hall, 1139 Smith Street, Milton, West Virginia. Plans and specifications may be obtained from the Director of Public Works office at City Hall, 1139 Smith Street, Milton, West Virginia. For additional information contact Charlie Conard, Director of Public Works, at (304) 963-0713.

CONSULTING ENGINEER, ROCK CREEK INDUSTRIAL PARK, BOONE COUNTY PSD

Statements of qualifications will be accepted until 12:00 PM on 11/13/2018 from qualified firms to provide engineering services for possible waterline and sanitary sewer extensions for the Rock Creek Industrial Park, Spurlockville, West Virginia 25565; and review/recommend possible operation and/or merger of the Boone Raleigh Public Service District for the Boone County Public Service District, West Virginia. Statement of qualifications should be submitted to Boone County Public Service District, P.O. Box 287, Danville, West Virginia 25053. Plans, specifications and for all additional information contact the Boone County Public Service District at (304) 369-2622 or email admin@boonecountypsd.com.

BEDFORD ROAD AREA WATERLINE/CONNECTIONS, PHASE I, CUMBERLAND, MARYLAND

Bids will be accepted until 3:00 PM on 11/20/2018 for approximately 3,500' of water line, 22 house connections and other miscellaneous work for the Bedford Area Road Water Projects – Phase I, Cumberland, Maryland. A pre-bid conference will be held at 10:00 AM on 11/09/2018 at the Allegany County Office Building, Commissioners Meeting Room #100, 701 Kelly Road, Cumberland, Maryland. Bids should be submitted to the County Office Complex, 701 Kelly Road, Suite 407, Cumberland, Maryland 21502. Plans and specifications may be obtained from the Allegany County Department of Public Works, at 701 Kelly Road, Cumberland, Maryland. For additional information contact Jim Webber, P.E., Utilities Division at (301) 777-5942 ext. 208.

CAWV/WVDOH/FHWA JOINT COMMITTEES MEETING SOON

Several committees and subcommittees of the Joint Committee network will be meeting over the next few weeks. More information will be provided to members in future Highway/Heavy

Bulletins. Members are encouraged to submit items for the agendas to the CAWV. Future meetings include:

- November 14 - Construction Subcommittee
- November 15 - Technical Publications Committee
- November 28 - Asphalt Subcommittee
- December 5 - Specifications Committee
- December 11 - CAWV/WVDOH/FHWA Joint Cooperative Committee
- December 13 - Materials Procedures (MP) Committee

2019 CAWV/WVDOH TECHNICIAN AND INSPECTOR COURSES ANNOUNCED

The CAWV is pleased to announce that registration is open for the 2019 Technician Certification Training Courses. The courses, which are offered annually to help individuals prepare for WVDOH certification examinations required under their Quality Assurance Program, have seen greater demand this year due to the passage of the "Roads to Prosperity Bond Amendment". Thousands of individuals have attended courses in Compaction, Aggregates, Asphalt and Portland Cement Concrete over the last several years. Test comparisons prove that those persons who attend the CAWV/WVDOH courses have a higher success rate for passing the exams. A registration packet is available by visiting www.cawv.org/events/tech-schools.html.

*** NEW FOR 2019:** All certification testing has been moved to an online format that will require the attendee to have a laptop, tablet or iPad type device to take the test. The use of smart phones during the test is prohibited.

CLASS

TRAINING DATES

Soil and Aggregate Compaction Inspector *(see note below)*

January 7-11, 2019

This certification will only include soil and aggregate Inspector certification. If you need to test asphalt compaction, you will need to take the Asphalt Field Technician course.

Aggregate Inspector

January 14-18, 2019

Asphalt Field Technician *(see note below)*

January 22-25, 2019

A certified Asphalt Field Technician is now required on all paving projects. This course is also required to test Asphalt Compaction.

PCC *(Combined Courses- see form #4)*

Jan. 28 - Feb. 1, 2019

Portland Cement Concrete Technician and Inspector- This course will have a test for PCC Technician and a separate test PCC Inspector. This is a great opportunity to get both certifications in one week.

Asphalt Plant Technician *(*Note Location Change Below)*

February 12-15, 2019

All courses will be held at the WVDOH Materials Division Headquarters in Charleston located at 190 Dry Branch Drive, Charleston. See forms for registration and lodging information.

REMOVAL, ILLEGAL OPEN DUMPS/ WASTE TIRE PILES, EASTERN REGION, (DEP190000023)

Bids will be accepted until 10:30 AM on 11/15/2018 for removal of illegal open dumps and waste tire piles Eastern Region of West Virginia. A **mandatory** pre-bid meeting will be held at 9:00 AM on 11/01/2018 at the Department of Environmental Protection's Headquarters, 2031 Pleasant Valley Road, #1, Fairmont, West Virginia 26554. Directions to the pre-bid meeting is available in the Technical Specifications section of the RFQ. Bids should be submitted electronically to

www.wvOasis.gov, solicitation number: DEP1900000023. Plans and specifications may be obtained electronically at www.wvOasis.gov. For additional information contact Sherri D. Weathersbee at (304) 926-0499 or email sherri.weathersbee@wv.gov.

REMOVAL, ILLEGAL OPEN DUMPS/ WASTE TIRE PILES, NORTHERN REGION, (DEP1900000024)

Bids will be accepted until 10:30 AM on 11/15/2018 for removal of illegal open dumps and waste tire piles Northern Region of West Virginia. A **mandatory** pre-bid meeting will be held at 9:00 AM on 11/01/2018 at the Department of Environmental Protection's Headquarters, 2031 Pleasant Valley Road, #1, Fairmont, West Virginia 26554. Directions to the pre-bid meeting is available in the Technical Specifications section of the RFQ. Bids should be submitted electronically to www.wvOasis.gov, solicitation number: DEP1900000024. Plans and specifications may be obtained electronically at www.wvOasis.gov. For additional information contact Sherri D. Weathersbee at (304) 926-0499 or email sherri.weathersbee@wv.gov.

REMOVAL, ILLEGAL OPEN DUMPS/ WASTE TIRE PILES, SOUTHERN REGION, (DEP1900000025)

Bids will be accepted until 10:30 AM on 11/16/2018 for removal of illegal open dumps and waste tire piles Southern Region of West Virginia. A **mandatory** pre-bid meeting will be held at 9:00 AM on 11/02/2018 at the Department of Environmental Protection's Headquarters, 601 57th Street, South East, Charleston, West Virginia 26554. Directions to the pre-bid meeting is available in the Technical Specifications section of the RFQ. Bids should be submitted electronically to www.wvOasis.gov, solicitation number: DEP1900000025. Plans and specifications may be obtained electronically at www.wvOasis.gov. For additional information contact Sherri D. Weathersbee at (304) 926-0499 or email sherri.weathersbee@wv.gov.

REMOVAL, ILLEGAL OPEN DUMPS/ WASTE TIRE PILES, WESTERN REGION, (DEP1900000026)

Bids will be accepted until 10:30 AM on 11/16/2018 for removal of illegal open dumps and waste tire piles Western Region of West Virginia. A **mandatory** pre-bid meeting will be held at 9:00 AM on 11/02/2018 at the Department of Environmental Protection's Headquarters, 601 57th Street, South East, Charleston, West Virginia 26554. Directions to the pre-bid meeting is available in the Technical Specifications section of the RFQ. Bids should be submitted electronically to www.wvOasis.gov, solicitation number: DEP1900000026. Plans and specifications may be obtained electronically at www.wvOasis.gov. For additional information contact Sherri D. Weathersbee at (304) 926-0499 or email sherri.weathersbee@wv.gov.

CONSTRUCTION/ RECLAMATION, OSAGE MINE COMPLEX SITE 5A, MARION/ MONONGALIA COUNTIES, (DEP1900000029)

Bids will be accepted until 10:30 AM on 11/15/2018 for construction and reclamation of the Osage Mine Complex site 5A in Marion and Monongalia County, West Virginia. A **mandatory** pre-bid meeting will be held at 10:00 AM on 11/01/2018 at project site. Directions to the pre-bid meeting are available in the Technical Specifications section of the RFQ. Bids should be submitted electronically to www.wvOasis.gov, solicitation number: DEP1900000029. Plans and specifications may be obtained electronically at www.wvOasis.gov. For additional information contact Katrina J. Dufourny at (304) 926-0499 or email katrina.j.dufourny@wv.gov.

CONSTRUCTION/ RECLAMATION, MAURIN MINE FIRE/ PORTALS, MARION/ MONONGALIA COUNTY (DEP190000022)

Bids will be accepted until 10:30 AM on 11/15/2018 for construction and reclamation of the Maurin Mine fire & portals in Marion and Monongalia County, West Virginia.
