## **COMMITTEE CHAIRS SCHEDULE MEETINGS - MARK YOUR CALENDARS**

CAWV President Cooperrider expressed his appreciation to all the committee chairs at their meeting Tuesday and tasked them with getting more members involved in the association's activities. "I have told every committee chair that no idea is a bad idea," said CAWV President Dan Cooperrider. "I hope every committee member will be engaged and all members will be encouraged to participate in developing ideas for the coming year."

President Cooperrider has also asked the committee chairs to become more active in getting both new members and members of the Young Contractors Group more involved in the programs that will be beneficial to them and the industry. President Cooperrider said "I am very passionate about getting young people into the industry and involved with the CAWV. I will be asking a number of people to participate in the Young Contractors Group." The Young Contractors Group has several events coming up that are educational, social and community oriented that will allow both younger CAWV members and not so young CAWV members to network with each other. The first event is the Coal River Kayak Tour, which will take place on September 25. See the details and registration form in this week's newsletter.

CAWV committee chairs have tentatively scheduled several meetings. The meetings, unless otherwise noted, will be held at the CAWV Headquarters. For many meetings, remote participation will be available to members. As the dates approach, committee members will receive meeting notices with full details.

September 25	10:00 a.m.	Young Contractors are hosting the Coal River Kayak Tour
October 8	10:30 a.m.	Joint Construction Subcommittee
October 13	10:00 a.m.	Membership Committee and Public Relations Committee
October 14	10:00 a.m.	BrickStreet Program Task Force
October 15	10:00 a.m.	Education Committee
October 21	10:00 a.m.	Joint Architects Committee
October 30	10:00 a.m.	Toys for Tots Golf Outing- Little Creek Golf Course
November 17	10:00 a.m.	Legislative Committee

## **TAX REFORM COMMITTEE DISCUSSES SALES AND USE TAXES; LEARNS STATE ROAD FUND REVENUES TO DROP \$20 MILLION IN 2016**

The legislative committee on tax reform met Monday to continue its deliberations on West Virginia's tax structure to determine what changes can be made to make the state more competitive for business development. Monday's meeting focused on the state's consumer sales and use taxes, particularly on what products and services are taxed and what products are exempt from sales tax. Accounting, legal and other professional services are exempt from sales taxes. The committee was presented a list of specific exemptions that certain industries can apply. There was considerable discussion on CST on construction activities, particularly as it relates to time and material contracts versus lump sum bid. The committee also looked at what industries can perform construction contracts and be exempt from paying CST on materials incorporated in the project. The committee will continue to meet through the end of the year to study possible changes to the state's tax structure.

On a negative note, Mark Muchow, deputy revenue secretary for the State Tax Department, told legislators that State Road Fund revenues will drop \$20 million next year. The wholesale gas tax is based on the average wholesale price of gasoline from July 1 through October 31. Based on the current price of gas, Muchow projected that the current wholesale gas tax will drop 1.5 cent per gallon, effective January 1, 2016. This equates to about \$20 million. The wholesale gas tax dropped 1.1 cents per gallon January 1, 2015 which will cost the State Road Fund about \$15 million this year.

### **PREVAILING WAGE EMERGENCY RULE FILED**

WorkForce West Virginia has filed an emergency rule related to changes made in the prevailing wage statute as outlined by Senate Bill 361. The rule filed defines the regions of the state to be used in the calculations and a procedure for those wishing to object to the methodology used to calculate rates. Click [here](#) to view a copy of the prevailing wage emergency rule.

WorkForce West Virginia sent out 5,200 contractor and subcontractor surveys that will be used to set wage data for the state. As of this week, about 55 percent of those surveyed have responded. Today is the deadline for contractors to submit the survey. WorkForce will calculate the new wage rates and will submit them to the Secretary of State's office by September 30.

S.B. 361 exempts state funded projects \$500,000 and less from prevailing wage rates. Until new prevailing wage rates are determined, prevailing wage requirements on are hold on all state, and its political subdivisions, projects, regardless of the amount of the project.

### **DAVID NOHE RESIGNS FROM STATE SENATE**

State Senator David Nohe (R-Wood), has resigned from his position with the West Virginia Legislature to accept an appointment to the West Virginia Parole Board. Nohe recently confirmed that he had accepted Gov. Earl Ray Tomblin's appointment to the parole board and tendered his resignation from the West Virginia Senate. Nohe will be filling the seat left vacant earlier this year when Jimmy Colombo resigned to be appointed as mayor of Parkersburg. The 3rd Senatorial District executive committee will make recommendations to the governor who will choose Nohe's replacement.

"I am honored and appreciative of Governor Tomblin's confidence in selecting me to serve the people of West Virginia in this new role as a member of the West Virginia Parole Board," Nohe said in a press release. "This will allow me to contribute to developing and adopting policies that are cost effective while holding offenders more accountable. I look forward to working with my fellow board members and supporting justice reinvestment to increase public safety in our state."

### **PROCTOR & GAMBLE PROJECT READY TO BREAK GROUND**

Fluor Enterprises, the construction manager for the \$500 million Proctor & Gamble manufacturing facility that is being built in Berkley County, has started site work and will be accepting bids on other parts of the facility in the coming months. Members that are interested in pre-qualifying to be put on the bidders list should send an email to [nascar.procurement@fluor.com](mailto:nascar.procurement@fluor.com) describing your company's specific areas of construction in as much detail as possible. You will be contacted by a representative from Fluor with additional instructions for pre-qualification and registration for the project bidders list. Look for future updates in the CAWV Building Bulletin as more information is released about the project.

### **WV BUSINESS & INDUSTRY COUNCIL (WVBIC) "POLICY & PROGRESS" TOUR – SEPTEMBER 10 AT BRIDGEPORT CONFERENCE CENTER**

CAWV members are invited to participate in the WVBIC Policy and Progress Business Forum on Thursday, September 10. The forum will be at the Bridgeport Conference Center in Bridgeport, from 12:00 PM to 4:00 PM. The West Virginia Business & Industry Council, with involvement from the West Virginia Chamber of Commerce and the West Virginia Economic Development Council, is continuing its 2015 "Policy & Progress" statewide business forum tour. "Policy & Progress" will visit six communities around West Virginia to discuss the 2015 legislative session and the incredible progress made by the Legislature. Guests will include experts on topics such as tax modernization, legal fairness and economic development, including Senate President Bill Cole. The meeting series will bring together subject matter experts and policy makers to help move West Virginia forward. Click [here](#) to get more information and to register.

### **MEMBERS ARE INVITED TO THE 2015 WV ECONOMIC OUTLOOK CONFERENCE**

The WVU College of Business and Economics Bureau of Business and Economic Research 2015 Economic Outlook Conferences are for decision-makers, strategic planners and analysts who depend on having the best available information on economic trends in our state and nation. CAWV members are invited to attend the conferences which are located throughout the state during the months of October and November. Expert economists and WVU Bureau of Business and Economic Research Director John Deskins forecast the coming year's economic trends. Panelists representing the state's key business and industry sectors discuss implications of the forecast from their perspectives. Attendees will receive the West Virginia Economic Outlook 2015, the annual forecast that tracks county and statewide indicators such as jobs by industry, labor force, population and personal income. Click [here](#) for more information. Below is the complete 2015 Economic Outlook Conference Schedule:

- October 1 – WV Economic Outlook Conference (Charleston)
- October 7 – Wheeling Economic Outlook Conference
- October 15 – New River Gorge Regional Economic Summit (Beckley)
- November 3 – Eastern Panhandle Economic Outlook Luncheon (Martinsburg)
- November 16 – Morgantown MSA Economic Outlook Conference

### **YCC AND THE WVDEP TO HOST SECOND COAL RIVER KAYAK TOUR**

The West Virginia Department of Environmental Protection will lead a kayak tour of the Coal River to view the stream restoration projects, hosted by the CAWV Young Contractors Committee, on September 25. The Coal River Group has partnered with the WVDEP on the multi-million dollar project. The restoration project involves building instream structures in the river channel to redirect the river's flow and thereby flush excess sediment in an attempt to improve water quality and habitat for fish and insects. The cost of the approximately three hour trip is \$50 and includes Kayaks, PPE and a boxed lunch. Although the trip is being hosted by the YCC, all CAWV members are invited and encouraged to attend. The group will meet at 10:00 a.m. at Coal River Kayaks located at 181 Pettigrew Lane, Tornado. Come join your fellow CAWV members and enjoy the river and fall foliage season of West Virginia! This is the perfect time of year to tour the Coal River since the water is still fairly warm and the days are a little cooler. A registration form is attached to this week's Newsletter. For more information, contact Pat McDonald at [pmcdonald@cawv.org](mailto:pmcdonald@cawv.org) or at (304) 342-1166.

# CAWV Coal River Kayak Tour

HOSTED BY THE YOUNG CONTRACTORS COMMITTEE

## WHEN:

Friday, September 25, 2015  
at 10:00 a.m.

## WHERE:

Coal River Group  
181 Pettigrew Lane  
Tornado, WV 25177

## DETAILS:

Dennis Stottlemeyer, WVDEP, will lead a kayak tour of the Coal River to view the stream restoration projects. This is the second trip hosted by the YCC and will feature a different section of the river. The Coal River Group has partnered with the WVDEP on the multi-million dollar project. The restoration project involves building instream structures in the river channel to redirect the river's flow and thereby flush excess sediment in an attempt to improve water quality and habitat for fish and insects. This is approximately a three hour trip. Come join your fellow CAWV members and enjoy the river and fall foliage season of West Virginia!

## QUESTIONS:

For additional information, contact Pat McDonald at (304) 342-1166 or by email at [pmcdonald@cawv.org](mailto:pmcdonald@cawv.org).

## REGISTRATION

\$50 per person - includes kayak rental, PPE and box lunch (Limited to 25 participants)

## **SEPTEMBER IS NATIONAL PREPAREDNESS MONTH**

An emergency can happen anytime, anywhere. September is National Preparedness Month and we would like to share some important information about business preparation in a potential emergency situation. The Centers for Disease Control and Prevention, along with sponsorship from the Federal Emergency Management Agency, have developed an extensive library with emergency preparedness tips for the workplace, as well as at home and school. This information highlights four easy steps to being prepared in any situation. They are:

- Get a kit
- Make a plan
- Be informed
- Get involved

An emergency kit contains basic items, and should be equipped to last for at least 24 hours at the workplace. Some basic items to include in this kit are:

- Several gallons of water
- Non-perishable food items
- First-aid kit
- Flashlight and batteries
- Medications

Step two, making a plan, is equally as important as creating a kit. Details to include can be as simple as where employees should go and how to be accounted for. A preparedness policy also should be written and distributed so information is thoroughly communicated to all employees.

To learn more about preparing for emergencies and becoming involved in community preparedness efforts, visit [www.ready.gov](http://www.ready.gov) .

The Associated General Contractors (AGC) of America is collaborating with ClickSafety, an OSHA-authorized provider, to deliver a wide range of construction related safety courses online for members at a 10% discount. To view the full course catalog, and for information on ordering, visit: [www.cawv.org](http://www.cawv.org) then click on the Safety link.

## **INFRASTRUCTURE IMPROVEMENTS MAJOR TOPIC AT BUSINESS SUMMIT**

The West Virginia Chamber of Commerce held its annual business summit this week at The Greenbrier. The condition of West Virginia's highways was front and center for much of the program. Gov. Earl Ray Tomblin opened his remarks with, "Trust me, I understand people's frustration about our highways. Hoppy Kercheval reminds me every day, FTDR, fix the damn roads." Gov. Tomblin noted he added \$82 million to repair potholes, slides, slips and other maintenance projects. He also noted the new expansion projects such as Route 35, widening of I-81 and the upcoming Corridor H project. "We must invest in our infrastructure to improve our quality of life and create jobs," the governor told the 800 business leaders gathered at this year's summit. "I have met with Senate President Bill Cole and Speaker Tim Armstead to look at what needs to be done to find a solution to our highway funding problems. We have to pave the way for increased opportunity around the state." The governor said now is the time for Congress to pass a long-term highway bill.

"Our roads are in deplorable condition," said Third District Congressman Evan Jenkins. "We must pass a long-term highway funding bill and all of your congressional delegation is absolutely committed to this effort," he told attendees. "It's an issue of safety and our economy." West Virginia's newest Senator said the Senate passed a six-year highway bill. "I will be encouraging my colleagues in the House to do the same," said Senator Shelley Moore Capito. "It is FTDR because of our deteriorating bridges, loss of jobs and our sagging economy. The way of the future is through good roads." The senator said she wanted to thank all the various groups that are working to educate people on the critical need of passing a long-term highway bill.

"We are all sick and tired of our infrastructure," stated Senator Joe Manchin. "America has always been about the future, the next big thing. We've got to ask ourselves what is our next thing." The senator related how the railroads lead to expansion of the nation. How the Panama Canal spanned the continents. How the interstate system created mobility. "America can be great again and infrastructure investment is the best way to do this," Sen. Manchin told the group. "It's the best way to create jobs and boost the economy. We have to get things moving again because we're lagging behind."

In response to a question during the Friday legislative panel, House Speaker Tim Armstead commented on highway funding during the 2016 legislative session. His comments are paraphrased in the following. "We all recognize quality of life and economic development are tied to highways. We have taken a close look at the Blue Ribbon Commission report and some of the recommendations will have a hard time being approved by the Legislature. The Legislature passed a bill to provide an audit of the West Virginia Division of Highways which will be completed December 31. This should help us develop a road map for future funding. We have an antiquated process of funding roads in this state. Basically we collect gas tax and registration fees but don't provide any general fund transfers to the road fund. I know contractors like have dedicated revenues into the State Fund but increasing DMV fees will be a tough sell. We might have to restructure the fees somehow."

"Everyone is committed to rolling up our sleeves and looking for solutions to the funding problem. I don't think you can raise a particular tax enough to get you what we need. It will have to be a combination of the things we've talked about. This includes shifting funds, giving cities and counties the ability to provide local share funding and savings and efficiencies in the WVDOH. This will truly be a priority in the 2016 legislative session."

### **APAWV FALL MEETING AT SNOWSHOE RAPIDLY APPROACHING**

There is still time to register for the 35<sup>th</sup> Annual Fall Meeting of the Asphalt Pavement Association of WV (APAWV). The group is holding their family oriented meeting on September 17-20, 2015 at Snowshoe, WV. The Friday Business Session will feature remarks by Secretary of Transportation Paul Mattox and a panel discussion with State Highway Engineer Greg Bailey; Deputy State Highway Engineer –Construction and Development, Todd Rumbaugh; Director of Materials, Ron Stanevich and Acting Pavements Engineer, Travis Walbeck. On Saturday the Business session will feature presentations from the DOH, WVU and industry. The program closes with a Sunday Prayer Breakfast featuring a message from Keith Tyler, State Director, Fellowship of Christian Athletes. The program also offers indoor and outdoor family entertainment. Registration information is available at [www.asphaltwv.com](http://www.asphaltwv.com) or (304) 342-1166.

### **PAVING PROJECTS, LOGAN COUNTY SCHOOLS**

(iSqFt Project ID# 2475288) Bids will be accepted until 12:00 PM on 9/11/2015 for paving projects at both Man High School's football field and Chapmanville Middle School.
