ODEBRECHT TO EXPLORE APPALACHIAN INDUSTRIAL INVESTMENT

Governor Earl Ray Tomblin and Odebrecht Environmental announced that Odebrecht will explore the development of a new petrochemical complex in Wood County. The complex, Appalachian Shale Cracker Enterprise (Ascent), would include an ethane cracker, three polyethylene plants, and associated infrastructure for water treatment and energy co-generation. A purchase option on the anticipated project site in Parkersburg has already been secured.

"Although we realize much work remains to be done, this announcement of a potential project is tremendous news for our state and our region. I appreciate the hard work of my team from the Development Office and the Ascent team members who have come together to explore this investment. I look forward to working closely with them to help bring the project to fruition," Governor Tomblin said.

Ascent's feasibility will depend on several important variables, including the contracting of long-term ethane supply, as well as financing, regulatory approvals, and appropriate governmental support. Odebrecht will lead Ascent's investment and financing, as well as the operation of water and electric utilities.

LEGISLATIVE INTERIM SCHEDULE ANNOUNCED

The schedule for the November 18-20 legislative interim meetings has been announced and items on the agenda include: an update of WV Turnpike road and bridge maintenance by the Select Committee on Infrastructure, an overview of the WV Port Authority activities by the Joint Commission on Economic Development, the OSHA 10-Hour requirement by the Labor and Worker Safety Issues Committee, workforce and technical education by Education Subcommittee C, procurement and purchasing procedures by Government Organization Subcommittee A, and the possible licensing of HVAC technicians by the Joint Standing Committee on Government Organization. For a complete agenda, [click here](#).

JOHN JUNKINS APPOINTED ACTING LABOR COMMISSIONER

John Junkins has been named acting commissioner for the WV Division of Labor. Currently deputy commissioner, he replaces David Mullins who left the agency earlier this month. In a related issue, Larry Walker, director of the Wage and Hour Division, is retiring, effective November 22.

WHITE HOUSE GRANTS ONE-YEAR REPRIEVE FOR CANCELED INSURANCE PLANS

Americans who've received cancellation notices from their insurers have been extended a one-year reprieve before they have to get new policies under the Affordable Care Act. The extension will be available only to those already enrolled in the policies that were canceled because they didn't meet coverage standards under the health-care law. The change will be effective for one

year, until the end of 2014. "It's a good move in the right direction," said Senator Joe Manchin, who is co-sponsoring Senate legislation to make a similar fix. Senator Manchin and Mark Kirk, R-IL, introduced legislation to delay the implementation of the individual mandate from January 1, 2014 to January 1, 2015.

CAWV LEGISLATIVE COMMITTEE TO EVALUATE UPCOMING LEGISLATIVE PRIORITIES

CAWV Legislative Chairman Dan Cooperrider, West Virginia Paving, has scheduled a meeting of the CAWV Legislative Committee for Wednesday, November 20, at 3:00 p.m. at the CAWV headquarters. The committee will evaluate the association's legislative priorities for the 2014 session of the WV Legislature and the issues that will impact the industry, including funding and regulatory legislation. Many of the issues the CAWV deals with during the session are those initiated by members. [Click here](#) to submit recommendations to the Legislative Committee for consideration. Please return your form by Tuesday, November 19, to slouk@cawv.org. For additional information, contact Mike Clowser at (304) 342-1166 or mclowser@cawv.org.

INCREASE SALES AND MAXIMIZE BRAND AWARENESS AT EXPO 2014

Don't miss your opportunity to be part of the region's leading construction and design exposition – March 26 & 27. EXPO exhibitors and sponsors reach industry leaders and decision makers through a variety of channels including direct mailings, emails, exhibit space, seminars and events. Sponsorship opportunities are still available for "Business Over Breakfast" (BOB), one of the best networking opportunities of the year. BOB allows exhibitors and attendees the chance to connect over a complimentary breakfast on the exhibit floor. Visit www.wvexpo.com for complete show information or contact the EXPO office at (304) 342-3976.

2014 CAWV MEMBERSHIP DIRECTORY/BUYERS GUIDE AVAILABLE

The 2014 CAWV Membership Directory / Buyers Guide was mailed this week. Members are encouraged to familiarize themselves with the publication which features information about the CAWV, contact details for federal and state agencies, tax rates, and phone numbers for local municipalities. Each member firm receives one free copy of the directory. Additional copies are available at \$15 each. An order form is attached to this week's Newsletter, or members may contact Wendy Long at (304) 342-1166 or long@cawv.org to place an order.

WV CONSTRUCTION NEWS ARRIVING NEXT WEEK

The September/October issue of *West Virginia Construction News* should arrive on members' desks next week. Inside see the cover story on the launch of the CAWV "Hard at Work" license plate and a recap of the 33rd annual meeting of the Asphalt Pavement Association. This issue also features members in the news. CAWV members are encouraged to submit company changes, staff changes or other news of interest to for inclusion in future issues of the magazine. [Click here](#) to view the magazine online.

CAWV FALL GOLF OUTING BENEFITS DOZENS OF LOCAL CHILDREN

Over 40 CAWV members teed off at Berry Hills Country Club on Friday, November 8, to benefit Toys For Tots. The weather was near perfect for a late fall outing and everyone had a great time. The golf outing, hosted by the Young Contractors Committee, resulted in dozens of donated toys for local children. Congratulations to the first place team: Kent Harwell, FastSigns; Raj Shah, Hendrickson & Long; Michael Moses, AB Contracting; and Pat Haden, Tri-State Roofing & Sheet Metal. The CAWV thanks all sponsors and members who donated to this great cause.

CAPITOL BUILDING COMMISSION APPROVES RESTORATION TO MEMORIAL

The state Capitol Building Commission approved a \$1.6 million restoration of the West Virginia Veterans Memorial, which will include a new lighting system, water drains, handrails and paving stones. Morgantown-based Mills Group recently completed an architectural and engineering review of the memorial located on the state Capitol campus near Greenbrier Street. The state Purchasing Division plans to solicit bids for the repair work early next year. The state hasn't set a timeline for starting and completing the project. Money from the Capitol Improvement Fund will pay for the restoration.

Commission members also approved plans to put a new roofing material on the flat portion of the state Capitol's roof. The cost of the project won't be known until contractors submit bids, state officials said. ZMM Architects & Engineers, Charleston, is designing the replacement roof. The roofing project will include new outdoor walkways and steps that connect the Capitol's East and West wings, which house legislators' offices, to the central building. State lawmakers and lobbyists frequently use the walkways as a shortcut to the House and Senate chambers.

CRITICAL CARE ACCESS HOSPITAL, MADISON, BOONE COUNTY

(iSqFt Project ID# 1955816) Bids will be accepted until 3:00 PM on 12/18/2013 for construction of a new critical access hospital for Boone Memorial Hospital. LIFT IT TWICE!!

Most of you have heard the general rules of safe lifting. Remember to “Get a firm grip on the load, keep it close, bend at the knees, use your legs to lift the load, and keep your spine in the natural position (with an arch in your lower back).” These principles always apply and should be incorporated into every lift--if possible!

Given the enormous number of “risky” lifting situations that you are faced with at your place of work, you may not be able to apply these principles every time. This is why you must always remember to LIFT IT TWICE! What?!

The act of lifting is the same as any other movement that you can learn to do better with practice. As you know, the more you practice a skill the better you become at doing it. But preparing to master a skill normally involves mental as well as physical training. Consider bowling, golf, skiing or sharp-shooting. You think carefully about the movements you’re going to make before you do them. This is the only way to get them right--at least until they become second nature. Similarly, lifting TWICE means applying the principal of planning your movements prior to performing the lift:

1. Your first lift is a mental lift. Think about the lift prior to actually doing it:
2. How am I going to lift the item? Can I do it myself or should I get some help?
3. How heavy is the item? Do I need to use mechanical assistance?
4. Where am I taking the item being lifted? Is the area clear where I need to set it down?
5. Is it a difficult path or a distance to go?
6. What hazards may hamper the lift or obstruct the travel path?
7. Eliminate those hazards before you lift the item. In other words, Plan the Lift First!
8. The second lift is the actual physical lift. Here is where you carry out your plan.
9. Use proper body mechanics and techniques while going through the motions. Bend those knees!
10. Most important: Keep the load as close to your body as possible and don’t twist.

Next time someone tells you to lift twice remember...

TWO LIFTS ARE BETTER THAN ONE ...

WHEN IT COMES TO REDUCING THE RISK OF A STRAIN ON YOUR BACK!

Contact the CAWV at (304) 342-1166 for assistance with the safety program.

The Associated General Contractors (AGC) of America is collaborating with ClickSafety, an OSHA-authorized provider, to deliver a wide range of construction related safety courses online for members at a 10% discount. WVDOH DEVELOPING NEW 2014 SUPPLEMENTAL

The WVDOH announced that a 2014 edition of the Supplemental Specifications to accompany the 2010 Standard Specifications Roads and Bridges will be available from the Contract Administration Division. The 2014 Supplemental is expected in January **and shall apply for the January 14, 2014 letting and all lettings thereafter**. It is likely that the new Supplemental will be available first in electronic format, followed by printed copies. The Specification Committee will be meeting again in December, so the book is not available for viewing at this time. The new Supplemental will reportedly contain a modest number of changes to the 2010 Standard Specifications.

DOT RESCHEDULES LISTENING SESSION ON DBE PROPOSED RULE CHANGES

The U.S. Department of Transportation has rescheduled a Listening Session on the proposed changes to DOT's DBE program rules to December 5 and has extended the deadline for written comments on the proposed changes until December 26. The Listening Session was originally scheduled for October 9, but had to be postponed due to the government shutdown. The Listening Session will be held at U.S. DOT headquarters in Washington, D.C. and is intended to gather information on the potential costs associated with the proposed rules. AGC of America and ARTBA will have a witness participate at the Listening Session. CAWV members participated with AGC and ARTBA in a survey about the potential cost impacts of the proposal and the results will be presented at the session. The CAWV has presented written comments on the proposed changes and will be commenting again.

The CAWV, in its comments, opposed the proposed provision that requires contractors to submit with their bids a list of DBEs that will be utilized on the project, including details about the price and scope of the work. The CAWV wrote, "Bid day is always hectic and many quotes are obtained at the last minute. It is often necessary to discuss quotes with subcontractors after the prime's quote has been submitted to clarify scope and price. Denying the prime and subcontractors the time to ensure that DBE subcontractor quotes are correct, especially with the new penalties that are proposed, will lead primes to reject all incomplete or potentially inaccurate quotes. The net result is less DBE utilization."

The association also questioned the requirement that prime contractors that are unable to meet DBE contract goals must submit their 'good faith efforts' documentation within 24 hours. The CAWV recommended a longer time limit in order to provide an accurate GFE determination. With regards to states setting their annual DBE goal, the CAWV recommends the states be allowed to set goals based on the actual pool of DBEs that are actually qualified for participating on DOT-funded projects. The association notes, "Setting goals based on the number of firms that are generically identified by the state as certified as DBEs has no correlation to the number of firms that can actually perform the specific work detailed by every contract. If the goals are set at a realistic number based on the market conditions, then program compliance will be much more achievable. While we support the effort to ensure that all certified firms meet the minimum

threshold, the goals set by the state should reflect more accurately the number of DBEs that are actually qualified to perform DOT contracts.”

The CAWV will be updating its comments prior to the December 26 submission deadline. Anyone having additional comments or suggestions can contact the CAWV at (304) 342-1166.

JOINT COOPERATIVE EXECUTIVE COMMITTEE MEETING DECEMBER 18

Chairman Todd Dunmire, ACCAD Corporation, has scheduled a meeting of the CAWV Joint Cooperative Executive Committee for Wednesday, December 18, at 10:30 a.m. at the CAWV Headquarters in Charleston. For more information, please contact Pat McDonald at (304)342-1166 or pmcdonald@kawv.org

CAWV/WVDOH 2014 TECHNICIAN AND INSPECTOR COURSES

The CAWV is pleased to announce Certification Training Courses, which are offered annually to help individuals prepare for WVDOH certification examinations required under their Quality Assurance Program. Thousands of individuals have attended courses in Compaction, Aggregates, Asphalt and Portland Cement Concrete over the last several years. Test comparisons prove that those persons who attend the CAWV/WVDOH courses have a higher success rate for passing the exams.

Class	Training Dates	Test Date
Compaction Inspector	January 6-9	January 10
Aggregate Inspector	January 13-16	January 17
Asphalt Field Technician	January 21-23	January 24
Asphalt Plant Technician	January 27-30	January 31
Portland Cement Concrete Inspector	February 10-12	February 13
Portland Cement Concrete Technician	February 24-27	February 28

For more information, contact Pat McDonald at (304)342-1166 or e-mail pmcdonald@kawv.org. Forms are attached to this week’s Newsletter and will remain available on the CAWV’s website at www.kawv.org.

LITTLE LAUREL RUN BANK STABILIZATION, FARMINGTON, MARION COUNTY

(iSqFt Project ID# 1957042) A **mandatory** job showing will meet on 11/25/2013 at 11:30 AM in the parking lot to the right of Route 218 and Railroad Street, Farmington for restoration of a stream by bank preparation and placement of approximately 65 LF of rip rap and stabilizer fabric along Little Laurel Run, a tributary of Buffalo Creek.
